

Name:

23. `assertEqual(plot_twist(), 'No, I AM your father')`

Assertion fails, function actually outputs:

`'No, Obi-Wan Kenobi killed your father'`

Correct function would be:

```
def plot_twist():  
    return 'No, ' + phrase2() + ' ' + guy1()
```

24. `assertEqual(line1(), "I AM smellin' like the rose")`

Passes
