

Journal Prompt
Integrated Science
1/26/07

Please answer the following questions in complete sentences using the rubric that was presented and described to you. Answer this on a piece of loose-leaf paper and hand it in.

1. Do you enjoy science? Why or why not? Please give me two suggestions about how you would like to learn science in this class.
2. What other science and math classes have you taken that you think will be helpful in Integrated Science?
3. Why do you think I am asking you to keep a journal in a science class?
4. List anything you knew before this class about astronomy and ecology.
