## SYNOPSIS OF GRADUATE DEGREE PROGRAMS

| COLLEGE OF                           | Master of Arts   | Agricultural Education   |   |
|--------------------------------------|--|--|---|
| ACDICHI TUDE AND                     | Master of Science  | Agricultura Education Agriculture and Resource   | Operations Research   |
| AGRICULTURE AND                      | musier of science  | •  | Plant and Soil Sciences   |
| NATURAL RESOURCES                    |  | Economics  |   |
|                                      |  | Animal Science   | Public Horticulture   |
|                                      |  | Bioresources Engineering   | Statistics  |
|                                      |  | Entomology   | Water Science and Policy  |
|                                      |  | Food Science   | Wildlife Ecology  |
|                                      | Doctor of Philosophy   | Animal and Food Science  | Plant and Soil Sciences   |
|                                      |  | Entomology and Wildlife Ecology  | Water Science and Policy  |
|                                      |  |  | water Science and Policy  |
|                                      |  | Operations Research  |   |
| COLLEGE OF ARTS AND<br>SCIENCES      | Master of Arts   | American Material Culture  | Historic Preservation   |
|                                      |  | Art  | History   |
|                                      |  | Art History  | Liberal Studies   |
|                                      |  | Chemistry and Biochemistry   | Linguistics and Cognitive Science   |
|                                      |  | Chemistry  | Mathematics   |
|                                      |  | Communication  | Political Science and International   |
|                                      |  |  | Relations   |
|                                      |  | Criminology  |   |
|                                      |  | English  | Psychology  |
|                                      |  | Foreign Languages and  | Sociology   |
|                                      |  | Literatures  | Urban Affairs and Public Policy   |
|                                      |  | Foreign Languages and  |   |
|                                      |  | Pedagogy   |   |
|                                      | Master of Fine Arts  | Fine Arts  | Theatre   |
|                                      | Master of Music  | Music  | Theatre   |
|                                      |  |  | Chamber and Display is the  |
|                                      | Master of Science  | Applied Mathematics  | Chemistry and Biochemistry  |
|                                      |  | Art Conservation   | Disaster Science and Management   |
|                                      |  | Biological Sciences  | Fashion and Apparel Studies   |
|                                      |  | Biomechanics and Movement  | Mathematics   |
|                                      |  | Science  | Neuroscience  |
|                                      |  | Biotechnology - Professional Science   | Physics   |
|                                      |  | Master's   | Water Science and Policy  |
|                                      |  |  | water Science and Policy  |
|                                      |  | Chemistry  |   |
|                                      | Master of Public   | Public Administration  |   |
|                                      | Administration   |  |   |
|                                      | Doctor of Philosophy   | Applied Mathematics  | English   |
|                                      | , , ,  | Art History  | History   |
|                                      |  | Biological Sciences  | Linguistics   |
|                                      |  |  | Mathematics   |
|                                      |  | Biological Sciences/   |   |
|                                      |  | Neuroscience   | Preservation Studies  |
|                                      |  | Biomechanics and Movement  | Physics   |
|                                      |  | Science  | Political Science and International   |
|                                      |  | Chemistry  | Relations   |
