

Dinah Kauraisa – U.N. Nippon Fellow to the Center for Marine Policy

Managing the Marine Resources of Namibia

This presentation is aimed at introducing Namibia through a broad overview of Namibia as a country. It will touch upon its historic background and expound further on the Management of Namibia's Marine Resources and the EEZ. It will also address the challenges faced by the country in terms of managing the fishing industry, efforts made toward addressing these challenges, and ultimate successes achieved.
