

## Marine Policy Student Thesis and Dissertation Bibliography

- Appleman, K. H. (2009). Measuring the recreational use value of migratory shorebirds: A stated preference study of birdwatching on the Delaware Bay. 1469475 M.S., University of Delaware.
- Arceo-Briseno, P. (2001). Toward a precautionary approach in fisheries management: Results from a simulation model. 3013600 Ph.D., University of Delaware.
- Balgos, M. C. (2002). Formative evaluation of coastal management programs in the Philippines. 3046604 Ph.D., University of Delaware.
- Baylor, M. S. (2010). A model for maximizing port stakeholder valuation of modal infrastructure alternatives: An analysis using the Analytic Hierarchy Process. 3423303 Ph.D., University of Delaware.
- Belfiore, S. (2005). Using indicators for improving the performance of integrated coastal management efforts: Towards a common framework. 3181868 Ph.D., University of Delaware.
- Berko, J. K., Jr. (1997). Barriers to electric energy efficiency in Ghana. 9733553 Ph.D., University of Delaware.
- Blaydes, M. L. (2006). Analyzing the frequency and severity of recreational boating accidents in Atlantic coast inlets of the United States from New York to Florida. 1432420 M.M.P., University of Delaware.
- Bradly, N. J. (2000). An evaluation of coastal management by the Department of Conservation under the Resource Management Act 1991 in New Zealand. 9982673 Ph.D., University of Delaware.
- Bunting-Howarth, K. E. (2001). Cultural models, public participation, and policy: Pfiesteria piscicida and nonpoint source pollution in Delaware's Inland Bays. 3013602 Ph.D., University of Delaware.
- Chen, C.-I. (2004). Game-theoretic approaches to the joint management of chub mackerel in northeast Asian seas. 3112660 Ph.D., University of Delaware.
- Christel, D. W. (2006). The utility of fishermen's cognition in near-shore fisheries management on the east end of Long Island. 1430751 M.S., University of Delaware.
- Cid, G. A. (2004). The role of regional economic agreements in marine resource conservation. 3144787 Ph.D., University of Delaware.
- de Fontaubert, A.-C. V. (1997). Negotiating a new international fisheries regime: The United Nations Conference on Straddling Fish Stocks and Highly Migratory Fish Stocks. 9819142 Ph.D., University of Delaware.
- Deans, E. E. (2012). Cargo flow dynamics influenced by the expansion of the Panama Canal. 3498502 Ph.D., University of Delaware.
- Dhanju, A. (2010). Four essays on offshore wind power potential, development, regulatory framework, and integration. 3423406 Ph.D., University of Delaware.
- du Pont, P. T. (1998). Energy policy and consumer reality: The role of energy in the purchase of household appliances in the United States and Thailand. 9906838 Ph.D., University of Delaware.
- Dyoulgerov, M. F. (2001). The Straits question revisited: Legal and policy dimensions of the current dispute over the Straits of Istanbul, Chanakkale, and the Sea of Marmara. 3025798 Ph.D., University of Delaware.
- Edwards, P. E. T. (2009). Measuring the recreational value of changes in coral reef ecosystem quality in Jamaica: The application of two stated preference methods. 3360224 Ph.D., University of Delaware.
- Garza, D. A. (1996). The southeast Alaska herring sac-roe fishery: A need for change? 9632583 Ph.D., University of Delaware.
- Geiger, A. L. (2006). Private vs. public flood insurance rates: Is there a national flood insurance subsidy? 1435926 M.M.P., University of Delaware.
- Green, S. L. (2012). Organizing professionals and stakeholders to conduct ecosystem-based fisheries management: A case study in Chesapeake Bay. 3498513 Ph.D., University of Delaware.
- Harakunarak, A. (1998). Cooperation in marine affairs: Evidence from the Gulf of Thailand. 9831499 Ph.D., University of Delaware.

Hauber, A. H. I. V. (2000). The effect of nesting structure specification on welfare estimation in a random utility model of recreation demand: An application to the demand for recreational fishing. 9965785 Ph.D., University of Delaware.

Helm, E. C. (2003). A random utility model for measuring the recreation economic benefits of water quality improvements in New England. 3085466 Ph.D., University of Delaware.

Hernandez, A. (2003). Fisheries economics of marine protected areas: The case of the red grouper fishery in Yucatan, Mexico. 3100093 Ph.D., University of Delaware.

Hewawasam, I. (2000). Evolution of integrated coastal management (ICM) in Sri Lanka: An adaptive learning-based experience. 9982689 Ph.D., University of Delaware.

Hidrue, M. K. (2010). The demand for conventional and vehicle-to-grid electric vehicles: A latent class random utility model. 3440476 Ph.D., University of Delaware.

Hoagland, P. (2000). Toward the practicable control of marine fisheries bycatch: A public policy analysis. 9952263 Ph.D., University of Delaware.

Hoff, T. B. (1990). Conservation and management of the western North Atlantic shark resource based on the life history strategy limitations of sandbar sharks. 9206312 Ph.D., University of Delaware.

Huxster, J. (2013). Student understanding of climate change: Influences of college major and environmental group membership on undergraduate knowledge and mental models. 3594926 Ph.D., University of Delaware.

Iyer, M. (2000). Technology policy and sustainability: An empirical study of renewable energy development in India. 9952265 Ph.D., University of Delaware.

Jang, D. (2000). Assessing marine genetic resources under the Law of the Sea Convention and the Convention on Biological Diversity. 9982690 Ph.D., University of Delaware.

Jarvis, C. M. (2006). An evaluation of the wildlife impacts of offshore wind development relative to fossil fuel power production. 1430770 M.M.P., University of Delaware.

Kang, A. K. (2009). Compensatory restoration of natural resource damages using a travel cost random utility model. 3397004 Ph.D., University of Delaware.

Kao, S.-M. (2011). Assessing regional cooperation among all parties as an alternative to sovereignty disputes in the South China Sea. 3498556 Ph.D., University of Delaware.

Kim, D. (2003). Bioeconomic analysis of alternative management policies for the United States Gulf of Mexico reef fish fishery. 3085472 Ph.D., University of Delaware.

Krueger, A. D. (2007). Valuing public preferences for offshore wind power: A choice experiment approach. 3291728 Ph.D., University of Delaware.

Kuska, G. F. (2006). Collaboration toward a more integrated national ocean policy: Assessment of several United States federal interagency coordination groups. 3200549 Ph.D., University of Delaware.

Lilley, J. C. (2010). Navigating a sea of values: Understanding public attitudes toward the ocean and ocean energy resources. 3543535 Ph.D., University of Delaware.

Lilley, M. B. (2010). Wind power: Addressing wildlife impacts, assessing effects on tourism, and examining the link between climate change perceptions and support. 3544095 Ph.D., University of Delaware.

Loper, C. E. (2008). Valuing networks of marine reserves: An assessment of recreational users' preferences for marine conservation in California's Channel Islands. 3337440 Ph.D., University of Delaware.

Magee, L. E. (2008). Closing motor vehicle beach access in the Mid-Atlantic: Implications for social welfare. 1460116 M.S., University of Delaware.

Manlove, N. K. (2008). Safety, environmental, and economic conflicts in siting liquefied natural gas marine terminals. 1461985 M.M.P., University of Delaware.

Massey, D. M. (2002). Heterogeneous preferences in random utility models of recreation demand. 3038322 Ph.D., University of Delaware.

McDermott, R. (2007). Toward a more efficient seafood consumption advisory. 1446851 M.M.P., University of Delaware.

McLean, B. (2010). Understanding the dynamics of national coastal policy change: Policy narratives for South Africa and Tanzania. 3423411 Ph.D., University of Delaware.

Mokashi, A. J. (2012). An analysis of voluntary environmental actions for Marine Highways: A Stakeholder perspective. 3527010 Ph.D., University of Delaware.

Morgan, O. A. (2002). Measuring the welfare effects of information conveyance: A contingent behavior application of seafood consumption and *Pfiesteria piscicida*. 3062039 Ph.D., University of Delaware.

Noronha, I. A. T. C. d. S. d. (2012). What role for regions in the European integrated ocean policy? Exploring practices and the observance of international governance principles. 3540778 Ph.D., University of Delaware.

Payne, C. T. (2006). Energy consumption behavior in the commercial sector: An ethnographic analysis of utility bill information and customer comprehension in the workplace. 3220742 Ph.D., University of Delaware.

Rivera-Arriaga, E. (2002). International aid: Assessment of coastal and marine management initiatives in the Latin American and Caribbean region. 3062042 Ph.D., University of Delaware.

Rogers, C. W. (1989). Optimal harvest management for the Mid-Atlantic surf clam fishery. 9019312 Ph.D., University of Delaware.

Semmens, K. A. (2008). Buffering uncertainty: Setting annual catch limits under the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006. 1457434 M.M.P., University of Delaware.

Spiridonov, G. B. (2010). Choice set formation and its implication for welfare measures in a random utility model of recreation demand. 3443242 Ph.D., University of Delaware.

Stefanova, S. K. (2009). Measuring the recreational value of changes in beach access, beach width, and vehicle access in the Mid-Atlantic region: Application of random utility models. 3373316 Ph.D., University of Delaware.

Street, T. B. (2007). Submerged historical and archeological resources: A study of the conflict and interface between United States cultural resource law and policy and international governance measures. 3267169 Ph.D., University of Delaware.

Tavares, J. F. R. (2007). Assessing the importance of biological uncertainties to the control of species introductions via ballast water. 1460096 M.S., University of Delaware.

Thur, S. M. (2004). Valuing recreational benefits in coral reef marine protected areas: An application to the Bonaire National Marine Park. 3112702 Ph.D., University of Delaware.

Ticco, P. C. (1995). An analysis of the use of marine protected areas to preserve and enhance marine biological diversity: A case study approach. 9610456 Ph.D., University of Delaware.

Wakefield, J. R. (2001). An efficient response to beach erosion: A cost effectiveness analysis employing hedonic pricing techniques. 3025836 Ph.D., University of Delaware.

Wang, C. (2006). A study of geographical characterization of ship traffic and emissions and cost-effectiveness of reducing sulfur emissions from foreign waterborne commerce for the United States west coast. 3205436 Ph.D., University of Delaware.

Wang, H. (2010). The reduction cost of GHG from ships and its impact on transportation cost and international trade. 3397037 Ph.D., University of Delaware.

Wenczel, A. A. (2007). A cost-effectiveness analysis of *Crassostrea virginica* restoration as a possible nutrient reducing method within Chesapeake Bay: A study of the Great Wicomico River, Virginia. 1444643 M.M.P., University of Delaware.

Williams, L. C. (2009). The U.S. Atlantic commercial fishing industry and cold water coral conservation: History, current trends and next steps. 1465689 M.M.P., University of Delaware.

Wowk, K. M. (2011). Examining effectiveness in regional ocean governance regimes: A case study of the 1992 Convention for the Protection of the North-East Atlantic. 3473715 Ph.D., University of Delaware.

Yayi, O. N. (2007). A random utility model of trout fishing in Delaware. 3277815 Ph.D., University of Delaware.

Yu, H. (1992). "Oil and fish" conflict: Implications for ocean management. 9232613 Ph.D., University of Delaware.
