

ACCEPTING APPLICATIONS NOW
The University of Delaware
Sports and Orthopedic Clinical Residency Program

The University of Delaware Sports and Orthopedic Clinics are currently offering a Sports and Orthopedic Residency two times a year. We are now accepting applications for both residencies for the **new June 1st** start date. Due to the short notice, we would like to have all **applications in by May 15th** and all other supporting materials (transcripts and letters of reference) no later than May 25th.

The University of Delaware strives to provide residents an opportunity to further develop skills in select specialty areas of physical therapy.

- Paid position with full University Benefits (medical, dental, vision, 403-B and more)
- 1 year commitment with no further requirement after completion
- Prepares residents to take the American Board of Physical Therapy Specialties exam in their specialty area
- The year long program of mentored clinical practice offers the following structured learning opportunities:
 - Participation in physician clinics and surgical observations
 - Clinical instruction of UD DPT students
 - External learning experiences in other specialized sports and orthopedic settings
 - Training in organization and leadership of monthly journal clubs
 - Specialty clinics; Club Sports and Performing Arts Injury Screening Clinic
 - Mentorship in writing and publishing
 - Teaching opportunities in the DPT program centered on the specialty area of practice
 - Radiology course, Emergency First Response Certification
 - Tuition-free course work may be requisite
