# PHOTO STORY

STEP 1
-Create a new folder on your computer and give it a project name.
 Note: In the SMDC, all files should be saved to an external storage
 device.
-Move or copy all photos and audio for this project to this newly created
 folder.

STEP 2
-Open Photo Story and select the appropriate option:
- Begin a new story
- Edit a project
- Play a story

 -Select Next.

STEP 3
To begin building your project, select Import Pictures...

STEP 4
-Navigate to the folder you created in Step 1.
-Select the pictures you want to use in your project.

Note: To import all of the pictures at once, select ctrl A on your
keyboard then select OK.

STEP 5
-At the bottom of the program, select Save Project…
-Give your project a name.
-Save in the folder created in Step 1.
-Select Save.
-At the bottom right, select Next.

STEP 6
-To change the look of your picture, select the Effect menu and select
the desired effect.
-To add a title to your picture(s), enter text in the provided textbox.
-Select the thumbnail images at the bottom to add an effect or title to
each picture.
-Select Next.

STEP 7

-Add narration to individual images by selecting the desired image thumbnail.
 Note: recording audio requires a microphone.
-Select the Record button [circle with red dot].
-Select Stop when done recording [circle with black square].
-Select Preview… button to preview the recording.

STEP 8

-To add motion to pictures, select the desired image thumbnail.
-Select the Customize Motion button.
-Select the <u>Specify start and end position of motion</u> box.
-Drag corners or sides to define the Start and End positions.
-Select Transition tab to change transition between pictures.
-Select Save > Close when done > Next.
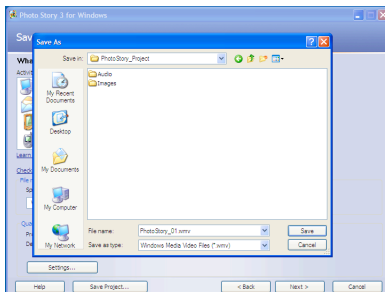

STEP 9

-To add music to your project, select the image thumbnail where you want the music to start.
-Click the Select Music. . . button..
-Open folder created in step 1 and select the desired music.
-Select Preview. . . to test.
-Select Next.

STEP 10

-Under File name, click Browse. . . to specify the location to save your story.
-Navigate to folder created in step 1.
-Name your story.
-Select Save.

STEP 11

-At bottom left, select Settings. . .
-Specify the desired video Profile for your story.
-Select OK.
-Select Save Project. . .
-Select Next.

STEP 12

-Photo Story builds your story (video).
