**Pearson Chi-Square Tests**

		ClassCode
INTRNT Are you considered an international student?	Chi-square	32.628
	df	6
	Sig.	.000 <sup>*,b,c</sup>

Results are based on nonempty rows and columns in each innermost subtable.

- \*. The Chi-square statistic is significant at the .05 level.
- b. More than 20% of cells in this subtable have expected cell counts less than 5. Chi-square results may be invalid.
- c. Some cell counts in this subtable are not integers. They were rounded to the nearest integer before the computation of Chi-square test.

	ClassCode			
	1.0 Freshman	2.0 Sophomore	3.0 Junior	4.0 Senior
	(A)	(B)	(C)	(D)
STDNTDE What percentage of students are from Delaware?	B C D			

Results are based on two-sided tests assuming equal variances with significance level .05. For each significant pair, the key of the smaller category appears under the category with larger mean.

- a. Tests are adjusted for all pairwise comparisons within a row of each innermost subtable using the Bonferroni correction.
- b. Cell counts in some subtables are not integers. They were rounded to the nearest integers before performing pairwise comparisons.
