CHEM 103 - Fall 2012 - Grading Policy

The minimum requirements for obtaining a passing grade and credit in CHEM 103, Fall 2012 are:

- a. Completion of the laboratory experiments/reports/meetings
 - b. Completion of the four scheduled examinations
 - c. Completion of the final exam
 - d. Obtaining an average of at least 60% according to the suggested scale
- A) Examinations (50%) - Four 100 percentage point examinations will be given and must be taken by all students. An unexcused missed examination will be recorded as a ZERO and may not be made up. All exams will cover material in lecture and material from the assigned problems (but not from the laboratory).
- B) Laboratory (25%) - From the laboratory meetings an average of the scores on the laboratory reports will determine the laboratory grade
- C) Final Exam (25%) - The final exam will be given at the conclusion of the course and must be taken by all students

Note: Failure to complete any of the above requirements will merit no credit for CHEM 103, Fall 2012

If an examination is missed for whatever reason, it is the responsibility of the student to contact the instructor within a reasonable period of time. If not, it will be assumed that the student does not wish to continue in the course.

The University of Delaware policy on Academic Honesty will be followed in this course. Violations of any parts of this policy could mean your removal from this course with no academic credit.

The following grade scheme will be followed with averages rounded to the nearest tenth (0.1) of a point:

<u>Average</u>	<u>Grade</u>	<u>Average</u>	<u>Grade</u>	<u>Average</u>	<u>Grade</u>
93.3 - 100	A	80.0 - 83.2	B-	66.7 - 69.9	D+
