MEMORANDUM

TO: Chemistry Graduate Students
FROM: Charles G. Riordan
      Director of Graduate Studies
SUBJECT: University Competitive Fellowships for the 2001-2002 Academic Year

January 31, 2001

If you wish to be considered for a 2001-2002 University of Delaware Fellowship, please submit the following to me by Tuesday, February 13th:

1. an application form (attached),
2. a resume which includes a listing of publications authored or co-authored,
3. a copy of each of your publications (including manuscripts that are "in press" or "submitted"),
4. a list of the meetings that you have attended and the talks and/or posters that you have presented at them,
5. a summary of your research program,
6. a letter describing your academic work and career plans and explaining how the fellowship will assist in completing the graduate degree,
7. a letter of evaluation from your research advisor, and
8. a letter of evaluation from at least two other faculty members

A faculty subcommittee will evaluate the applications. Our department is able to nominate three candidates to the Office of Graduate Studies for consideration in the University Competitive Fellowships program. The success of our candidates for these University fellowships will determine how many Chemistry graduate students will ultimately receive fellowship support from University sources.

University Fellowships are awarded solely on the basis of merit and are prestigious honors. It is to be emphasized that all graduate students are eligible for these fellowships. Of course, this includes those students who are or who expect to be supported as Research Assistants.
