STEP 1: Before You Register

1. Visit www.mylanguagelabs.com and click Browser Tune-up. This will confirm that you have met the System Requirements and have the necessary free plug-ins on your computer.

   **If you do NOT use a browser listed below, you will NOT be able to login to your MyLanguageLab.**

(Effective July 19th 2010)

**Downloading New Versions of Browsers**
We strongly recommend that you do not update to a new version of your browser without consulting the latest system requirements for using a MyLanguageLab. Go to www.mylanguagelabs.com.

Select Support then System Requirements to see the most up-to-date information on supported browsers. Pearson tests each supported browser thoroughly for use with a MyLab.

*Important note for Mac Users:*
The newest version of Mac OS X and Safari automatically run in 64-bit mode if the processor is 64. To avoid issues, including freezing, make sure Safari is running in 32-bit mode. For directions on how to make this change, read this article.

2. Set Pop-Up Blockers
Some browsers will block all pop-ups—even those you want! To allow pop-ups in your MyLanguageLab course, open your browser and do the following (there may be some variations with each browser):
   1. Click Tools → Pop-up Blocker → Pop-up Blocker Settings.
   2. When prompted for “Address of Website to allow”, enter: *.pegasus2.pearsoned.com
   (If you have downloaded a third-party (Google, Yahoo, AOL, etc.) pop-up blocker/toolbar make sure you turn the pop-up blocker off on that toolbar in addition to your browser pop-up blocker.)

3. Confirm that you have the following needed to register:
   ☑ Valid Email Address
   **Student Access Code:** HSPCON-SMALL-GAMIC-SCOUT-RIGOT-BALES
