

New Leaders for New Schools fosters high academic achievement for every child by attracting, preparing, and supporting the next generation of outstanding school leaders for our nation's urban public schools.

Welcome to New Leaders for New Schools. We are a national non-profit organization, founded on [five core beliefs](#), that selects and trains passionate and results-focused individuals, from within education, as well as former educators, to become urban public school principals. We are also a movement to transform urban schools nationally and locally in Baltimore, California's Bay Area, Chicago, Memphis, New York City, and Washington, D.C.

It is clear that great schools are led by great principals. The [New Leaders for New Schools' program](#) is designed to effectively prepare and support individuals who have an unyielding belief in the potential of all children to achieve academically, a record of success in leading adults, and demonstrated instructional knowledge (with a minimum of two years of teaching experience in a K-12 setting).
