

LABORATORY SIGN REQUEST FORM - HAZARD CHECKLIST

Please check the hazards that are associated with your lab and complete the section below. When the form is completed, or if you have any questions about your hazards, please email dehsafety@udel.edu

HAZARDS:

- Biological Hazard** – Biosafety levels 2 or 3 organisms present
 - Laser Radiation Hazards** – Any work involving class 3b or 4 lasers
 - Flammable Gas** – Compressed gas cylinders that contain flammable gas
 - Toxic Gas** – Compressed gas cylinders that contain toxic gas
 - Flammable Materials** – Any materials that pose a flammability hazard (Qty > 0.5 L)
 - Corrosive Materials** – Any materials that have a low or high pH (Qty > 0.5 L)
 - Ultraviolet Light** (Not related to Biosafety Cabinet UV light)
 - High-Pressure Reactions** – Reactions that have a potential for high-pressure release
 - Radioactive Materials** – Radioactive chemicals and sealed radiation sources (Any Qty)
 - Radio Frequency or Microwave Radiation** (excluding commercial microwave ovens)
 - Strong Magnetic Fields**
 - X-ray Producing Devices** (excluding electron microscopes)
 - High Voltage Equipment** – Equipment or processes using greater than 220/240 volts
 - Acutely Toxic Materials** – Any quantity with a GHS Category 1 or 2 classification
 - Carcinogenic Materials** – Any quantity with a GHS Category 1 classification
 - Reproductive Hazards** – Any quantity with a GHS Category 1 classification
-
