

## OFFICE OF GRADUATE AND PROFESSIONAL EDUCATION

## **GRADUATE STUDENT CONTRACTUAL AGREEMENT \***

INSTRUCTIONS TO THE STUDENT: Please fill in Section 2 and return the form to the Department.

Students who are awarded fellowships, tuition scholarships, and assistantships assume a contract with the University and are expected to give their full-time attention to graduate study. The University agrees to provide a scholarship for the student's tuition and/or pay a stipend as stated below. As with any professional appointment, the amount of service may vary from week to week but the average is usually expected to be 20 hours per week. Continuation of the appointment is contingent upon satisfactory performance of assigned duties each semester, continued academic eligibility in each semester (minimum cumulative GPA of 3.00), compliance with the University's Code of Conduct, and availability of funds. Notice of non-renewal is not required. Students must be registered for at least six graduate credits (nine if awarded a fellowship) each semester. (Some programs require that students register in more than six credits when appointed to an assistantship.) Students who withdraw or are dismissed from the University during the time of appointment will become responsible for the tuition in that semester.

According to the University of Delaware regulations, as well as the Citizenship and Immigration Services (CIS) rules, students on contract may not be employed outside of the University. Federal and state taxes, if applicable, will be withheld from the stipend check. Tuition scholarships are not taxed. Attendance at the Graduate Teaching Assistant (GTA) workshop is required for all first time GTAs. International GTAs must also attend the ELI ITA training program and meet the SPEAK/UDIA score requirements to be eligible for a GTA appointment.
