To: Dr. Sheryl F. Kline, Chairperson, Department of Business Administration

From: Thomas W. Ilvento, Chair, Department of Applied Economics and Statistics

Re: Request to include STAT608 for the proposed changes in MS in Hospitality Business Management

Per your request (see below) The Department of Applied Economics and Statistics approves the inclusion of STAT 608 in the changes for the MS in Hospitality Business Management. This course is offered live in Fall and on-line in Fall, Spring and summer, which will offer flexibility for your students. We believe we have sufficient capacity in our course currently and will have available seats in this course for your students. However, if requests exceed existing capacity we will increase capacity to accommodate your students. I will also work with you to include data examples from your industry.

Request on October 18, 2017

Dear Dr. Ilvento:

On behalf of Dr. Kline and Dr. Beldona, I am reaching out to you regarding proposed changes to our MS in Hospitality Business Management curriculum. Dr. Beldona is requesting to include STAT608 as a required course. We anticipate no more than 25 students per year will enroll in the course. Attached please find the curriculum revision for your reference.

If you approve, please provide your letter of support to send forward with the proposed changes. Thank you for your consideration.

Sincerely,

*Donna Laws | Business Administrator II
