October 30, 2017

Esther Biswas-Fiss, PhD.
Department of Medical Laboratory Sciences
Campus

Dear Esther,

Please consider this a letter of enthusiastic support for the three proposals creating 4+1 programs for the undergraduate degrees in Medical Laboratory Science, Molecular Diagnostics, and Applied Molecular Biology and Biotechnology combined with the master's program in Medical Sciences. These creative new programs will offer students advanced training to better prepare them for jobs in the medical laboratory science and biotechnology fields. The College of Health Sciences will be pleased to provide the resources necessary to support these programs.

Sincerely,

A handwritten signature in cursive script that reads 'Susan J. Hall'.

Susan J. Hall
Deputy Dean
