Questions to Consider

• What if anything is wrong with this group?
• What could be done to help this group work better?
• Could this situation have been prevented?

Suggestions for Using Groups

Set the stage early.
Form heterogeneous groups.
Use permanent groups.
Rotate roles of responsibility.
Rely on group-selected ground rules.
Conduct peer evaluations.
Forming Groups

Homogeneous vs. Heterogeneous

Your Class

Student Selected

"Homogeneous" Groups

Instructor Selected

"Heterogeneous" Groups

Courtesy of Hal White
What Aspects of Heterogeneity are Important for You?

Skills?
Age?
Gender?
Major?
Personality Type?
Learning Style?
Ethnicity?
Academic Record?
Factors to Consider

*When Forming Groups*

Is the size of the group appropriate for the task?

For this task, is it better to select the students for the groups or allow students to select their group?

For this task, is it better to form heterogeneous or homogeneous groups?

Will you need to keep the group together or break it up throughout the semester or problem?

Are students with different ability levels placed in the same group?
Factors to Consider

When Forming Groups

Are the personalities of students in the group compatible?

Are some members likely to be dominated by others? (by virtue of gender, cultural differences)

Does the physical arrangement of the room affect how you need to select groups?
Roles of Responsibility

✉️ **Discussion Leader**
Keeps group on track; maintains full participation

🔗 **Recorder**
Records assignments, strategies, unresolved issues, data; convenes group outside of class

😊 **Reporter**
Reports out during whole class discussion; writes up final draft of assignments

📖 **Accuracy Coach**
Checks group understanding; finds resources
Sample Ground Rules

Come to class on time every day
Come to class having done the assignment and prepared to discuss it
Must notify members of the group ahead of time if must miss class for any reason
Be willing to share information
Respect the views, values, and ideas of other members of the group

*If members of the group violate these ground rules, other members of the group may impose the following consequences:*
Peer Evaluation

Some general suggestions:

• Use predetermined written criteria that focus primarily on behaviors
• Do at least 2X per semester
• Factor results into students’ grades
• Summarize results and distribute summaries
• Keep the process simple
• Incorporate into group assignments
Recommendations for Evaluating Student Performance

• Focus questions on observable behaviors, not generalized assessments
  – Good: The team member had a positive attitude toward this project.
  – Questionable: The team member was a good performer

• Student perceptions of other’s behaviors are relevant; their assessment of another performance may be less valid.
Using Groups in Larger Classes, with Inexperienced Students

- Use well-defined activities with clearly stated objectives.
- Bring the class together for discussion and/or clarification at frequent intervals.
- Plan both group and individual assignments.
- Look for signs of behaviors that undermine group function.
- Use peer group facilitators.
Jigsaw Group Scheme

4 *home* groups, with 4 members each

4 new *expert* groups, with one representative from each *home* group
