General Information

About Osher Lifelong Learning in Lewes
In 1989, the University of Delaware established the Southern Delaware Academy of Lifelong Learning. In 2010 the Academy received endowment support from the Bernard Osher Foundation. In recognition of that support, we joined similar organizations in 49 other states and became the Osher Lifelong Learning Institute (OLLI) at the University of Delaware in Lewes.

We operate a self-governing, cooperative education community that promotes and provides intellectual, cultural and art-of-living learning experiences in a supportive social environment for mature active adults in Southern Delaware under the aegis of the University of Delaware’s Professional and Continuing Studies.

intend to take—and DO NOT sign up for multiple courses in the same time slot.

Select your courses in order of priority by clearly filling in the Spring 2014 Course Selection Form (page 36 or 38). Be sure to include your course code, course title and day/time for each class.

Maximum class size is 70, but some courses will have smaller limits, so use your priorities wisely.

No course assignments will be made before the priority registration deadline, Thursday, January 9, 2 p.m. After the deadline, registrations will be processed in this order:

• Priority selections, in order of priority (by random draw if selections exceed seats available)
• Registrations received after the priority deadline, Thursday, January 9, 2 p.m. and multiple registrations for the same time slot will be processed on a space-available basis

Note: If you were wait-listed for a course during the previous semester, you receive preference this semester if (1) the identical course is offered again and (2) you indicate the course as your Priority 1.

How to Register
You may register and pay online at www.lifelonglearning.udel.edu/lewes, by mail or in person (Mondays through Thursdays, 9 a.m.–2 p.m.) with the Spring 2014 Registration Form, together with payment, at the OLLI office, Fred Thomas Building, 520 Dupont Avenue, Lewes, DE 19958. Checks to be made payable to University of Delaware.

When to Register
You may register in the office Monday through Thursday, 9 a.m. to 2 p.m., beginning December 9, 2013. The priority registration deadline is 2 p.m. on Thursday, January 9, 2014.

Fees
The membership fee for the spring semester is $130. Our program depends almost entirely on registration fees, which are applied to our operating expenses, including rent for use of the Fred Thomas Building, staff salaries and the cost of printing and postage.

Tuition Assistance
Partial scholarships (up to half tuition, for a single semester only) are available. A Scholarship Application form, at the back of the catalog and online, must be completed and mailed or delivered to the office no later than January 6, 2014.

Refunds
No membership refunds will be given after the end of the second week of the semester. You must submit any request for refund in writing to the OLLI office. A $15 charge will be deducted from all refunds.

Gifts
While we calculate membership fees to cover our operating costs, we always have a need for additional and upgraded audiovisual equipment, computers, classroom teaching aids such as maps, films and library materials. Many of those items are paid from the Gift Fund. We are happy to receive your donations to the Gift Fund for a specific use or, preferably, unrestricted so your Council can focus them on our greatest needs. You can include a gift with your registration. For more information on how to make these tax-deductible gifts, contact the OLLI office, 302-645-4111.
Lunch
Social interaction is important to our community. We encourage you to continue class discussion or simply to chat and become better acquainted during the noon hour. Bring your brown-bag lunch and store it in the refrigerator.

Textbooks, Supplies and Handouts
The catalog lists any textbooks or other supplies required for some courses and any charge for handouts beyond the allocation provided each instructor. You are responsible for these costs.

Identification Badges
We ask our members to wear an identification badge at all times. Member and guest badges (and temporary badges for those who forget) are available in the OLLI office.

Guests
Visitors and prospective members who wish to become familiar with our program are welcome to visit on a single day. Please visit the office to pick up an ID badge.

Wednesdays, 10:45 a.m.–12:15 p.m.
Dates: 5 Sessions, January 29–February 26
Instructor: Kevin Kelly

Held at Bethany Beach Municipal Building and Community Center.

“We Must Not Be Enemies” is a series of conversations and storytelling presented by Kevin Kelly in commemoration of the sesquicentennial anniversary of the Civil War. We will revisit the decisions made and the truths defended which divided the American people into factions so hardened that compromise failed and force of arms alone prevailed. We will listen to the words of Lincoln and to those of other political, moral and military leaders, trumpeting the “rightness” of their choices and clearly warning others of the consequences of theirs. We will observe the actions of men and women at arms. We will witness the impact of a nation at war through the words of writers and poets; view the war through the art of painters, sculptors and photographers; and hear about the war through speeches and songs. Students will come away with an awareness and perhaps some understanding of the impact of war on the people who experienced it and the governments and leaders who served them, and ultimately, upon ourselves.

Class is limited to 40 students.

Kevin Kelly is a retired Fairfax County teacher of American history and American and world civilization. He served as team leader, department chairman and as adjunct professor in association with George Mason University. The first two operas have been seldom performed in recent years and *Nabucco*, although part of the standard repertory, is difficult to produce since it requires a large number of mature soloists and chorus in a big production. PS32 LINCOLN, FDR AND KENNEDY: WOULD THEY BE ELECTED TODAY?
Wednesdays, 10:45 a.m.–12:15 p.m.
Dates: 8 Sessions, January 29–March 19
Instructor: Jo-Ann Vega

If We-the-People in 1860, 1940 and 1960 knew the truth about the president’s health, would Lincoln, FDR and Kennedy have been elected? Does the health of the president matter? All had serious physical and/or mental illnesses, died in office and left unfinished business. How different might the U.S. and the world be today if Lincoln had lived to lead post Civil War Reconstruction; FDR had lived to lead post World War II containment of the Soviet Union; and Kennedy had lived to lead civil rights? Class is limited to 30 students.

Jo-Ann Vega, a long-time history and biography aficionado, brings her facilitation and human resource experience and passion for learning to Osher. Jo-Ann looks forward to lively and informative discussions.

PS33 A SMALL COMMUNITY’S MENTAL HEALTH—EVERYONE’S CONCERN
Tuesdays, 9 a.m.–10:30 a.m.
Dates: 5 Sessions, January 28–February 25
Instructor: Dale Smith

You hardly pick up a newspaper, turn on the TV or watch the nightly news without some story line displaying the aberrant behaviors of friends, family, neighbors and perfect strangers. Is there a day that goes by without hearing or reading about an alcohol and/or drug related incident? How many times have we heard about the ramblings and behaviors of a homeless person and their psychological state of mind? How do we, as community stakeholders, make sense of these and other events? Individually and collectively, we often question and struggle, trying to understand these behaviors and their consequences. We grapple with our efforts to understand what is happening in our neighborhoods, our schools, our family unit and the world that surrounds us. The purpose of this class is to provide students with an understanding of these issues affecting their local communities and the world in general. Students will explore some of the misconceptions, influences and ideas many people may have when trying to understand these behaviors and the influence of others. Class is limited to 20 students.

Dale Smith is retired from 32 years’ service with the Department of Veterans Affairs (VA). He
was the clinical manager of the Mental Health Residential Care Programs at the Maryland VA Medical System. He is a Vietnam veteran who earned a master of arts degree in counseling psychology from Loyola University, Maryland. Dale has worked with a variety of individuals and groups helping them to learn appropriate and useful recovery based skills enabling them to lead more functional and productive lives.

RR02 ENGLISH COUNTRY DANCE
Thursday, 1:30 p.m.–3 p.m.
Dates: 10 Sessions, January 30–April 3
Instructors: Alex Apostolina, Carol West

Come and enjoy the dance form America grew up with. It’s been fun for more than three centuries, it’s still fun and we think you’ll like it. It’s easy to learn! If you can walk and smile, you can do this kind of dance. The caller will explain all the moves and walk you through the dance before it starts, then continue to prompt you as the dance goes on. The dances focus on the group, not the individual. We customarily change partners after each dance, so we get to dance with lots of different people. We’re a friendly group! It’s easy and there’s the music! It’s NOT to be missed!

Class is limited to 30 students.

Alex Apostolina received a chemical engineering degree from New Jersey Institute of Technology. He is a retired General Foods plant manager. **SS87 HISTORY OF ASTRONOMY: GREAT DISCOVERIES AS TOLD BY THE ASTRONOMERS**

Mondays and Thursdays, 10:45 a.m.–12:15 p.m.
Dates: 12 Sessions, January 27–March 10
Instructor: Douglas Hemmick

From the early Greek geocentrism to modern observations of the big bang, our cosmic perspective has changed dramatically. In this course, we will trace the history of cosmic breakthroughs, using written accounts of the astronomers who made them. Our journey includes Ptolemy, Tycho Brahe, Johannes Kepler, Caroline Herschel, Henrietta Leavitt and Edwin Hubble, among others. We will follow the tale as Greek notions of a static cosmos are overturned and the structure of the solar system, galaxy and universe emerge. The modern era continues to dazzle, with evidence emerging for the big bang and the dramatic new discoveries of dark matter and the accelerating universe. We will focus on the most momentous and thrilling chapters from Marcia Bartusiak’s collection of the great works of astronomy history. Required textbook: *Archives of the Universe* by M. Bartusiak.

**SS90 OUT AND ABOUT IN WINTER**

Thursdays, 1:30 p.m.–3:30 p.m.
Dates: 4 Sessions, January 30–February 20
Instructor: Tom Lord

Nature field exploration isn’t just a three season event. There are many observations that can take place in environments during the colder months of the year. Non-migratory/hibernating animals are active over the winter bustling about finding sustenance while trying not to become a meal for a hungry predator. Encrusted buds and berries grace naked woody branches and stems remaining from past summer’s wildflowers sway in the frigid air. Bird residents from northern regions are seen in the milder Delaware climates. Periodic thawing in the region awakens insects and spiders from beneath bark on decomposing stumps, and furry vertebrates awakened from their winter slumber to enjoy the warming sun. A magnifying lens reveals frozen patterns and intricate designs on discarded leaves and feathers, and creature footprints are readily displayed on freshly exposed surfaces. Each week in this class we will visit a different winter environment to catch glimpses of nature’s frosted design. Tentatively planned for the class will be
a trip to a cordgrass-rich salt marsh, a dune-grass and shell studded ocean beach, a developing successional field, a meandering trail through a forest and a semi-frozen woodland pond. Although participants will need to dress sensibly for the hikes, they will not have to be distracted by pesky ticks and insects. **Class is limited to 20 students.**

**Tom Lord.** See course SS78 for instructor’s information.

SS94 BEACHCOMBING 101

Thursdays, 9 a.m.–11:30 a.m.  
Dates: 10 Sessions, January 30–April 3  
Instructor: Tom Lord

It’s been said that Delaware is a beachcomber’s paradise. The location places it directly next to two coastal zones rich in marine life. Of particular interest to beachcombers are the internal and exoskeletons of the creatures that inhabit the watery boundaries of the state. Each day, curious artifacts of these organisms tumble onto the beaches along Delaware’s shore in the form of bones, shells, casts, molds and relics. Beachcombing has been practiced along the Atlantic and Delaware Bay for centuries. Historic records reveal that items collected on our beaches have, over time, served humankind as currency, tools, agricultural implements, musical instruments, art and personal adornment. The pastime is best enjoyed after ocean storms or following exceedingly high or low tides. You are invited to join a hearty group of beachcombers from the area as we scour the areas beaches along the Atlantic Ocean and Delaware Bay. This class will begin at the Fred Thomas Building each week then move to the beach.  
Class is limited to 20 students.  
Tom Lord. See course SS78 for instructor’s information.
