General Information

About Osher Lifelong Learning in Lewes

In 1989, the University of Delaware established the Southern Delaware Academy of Lifelong Learning. In 2010 the Academy received endowment support from the Bernard Osher Foundation. In recognition of that support, we joined similar organizations in 49 other states and became the Osher Lifelong Learning Institute (OLLI) at the University of Delaware in Lewes.

We operate a self-governing, cooperative education community that promotes and provides intellectual, cultural and art-of-living learning experiences in a supportive social environment for mature active adults in Southern Delaware under the aegis of the University of Delaware’s Professional and Continuing Studies.

Membership

Membership is open to men and women 50 years of age or older and to members’ spouses or partners at any age. Whether your formal education ended early in life, or includes advanced degrees, we welcome you. An interest in learning is all that is required. Registration forms are at the back of the catalog and online.

Member Benefits

- Register for as many classes as you like.
- Participate in OLLI sponsored trips.
- Internet access, an email account and virus protection via the UD system (full year membership only).
- Audit one UD credit course in fall and spring semester on a space-available basis without paying tuition. Does not include online/distance learning courses, Associate in Arts program, certificate programs or UD travel/study programs. All relevant fees apply.
- Discount on computer software.

Membership Directory

We are a community and want to be able to contact one another. Please support us by allowing your address, phone number and email address to be listed in our directory. You can do this on your registration form. We do not share our directory with the general public and rely on our members not to do so or to use it for commercial purposes.

Note: It is important that you keep your contact information up to date, so we can advise you of important information and events.

Opportunities

Because the lifelong learning program is a cooperative educational community, members have the opportunity and obligation to support its objectives through participation in committees, planning (courses, trips, activities) and serving as class leaders and instructors.

We encourage you to offer new course ideas, serve as instructors, be committee members and contribute items for our newsletter, The Tides: Breaking News from Lifelong Learning. Your active participation is a great way to develop new friendships and be part of a dynamic team!

Course Registration

You are now able to register online.

You may register for as many courses as you like, but please only sign up for those you intend to take—and DO NOT sign up for multiple courses in the same time slot.

Select your courses in order of priority by clearly filling in the Spring 2015 Course Selection Form (page 38 or 40). Be sure to include your course code, course title and day/time for each class.

Maximum class size is 70 in Lewes and 40 in Ocean View, but some courses will have smaller limits, so use your priorities wisely. No course
Assignments will be made before the priority registration deadline, Thursday, January 8, 2 p.m. After the deadline, registrations will be processed in this order:

- Priority selections, in order of priority (by random draw, if selections exceed seats available)
- Registrations received after the priority deadline, Thursday, January 8, 2 p.m. and multiple registrations for the same time slot will be processed on a first-come, first-served space-available basis.

Note: If you were wait-listed for a course during the previous semester, you receive preference this semester if (1) the identical course is offered again, (2) you indicate the course as your Priority 1 and (3) you indicate that you were wait listed in the previous semester.

**How to Register**

You may register and pay online at [www.lifelonglearning.udel.edu/lewes](http://www.lifelonglearning.udel.edu/lewes), by mail or in person (Mondays through Thursdays, 9 a.m.–2 p.m.) with the Spring 2015 Registration Form, together with payment, at the OLLI office, Fred Thomas Building, 520 Dupont Avenue, Lewes, DE 19958. Checks to be made payable to University of Delaware.

**When to Register**

You may register in the office Monday through Thursday, 9 a.m. to 2 p.m., beginning December 15, 2014. The priority registration deadline is 2 p.m. on Thursday, January 8, 2015.

**Fees**

The membership fee is $130 for the spring 2015 semester. Our program depends almost entirely on registration fees, which are applied to our operating expenses, including rent for use of the Fred Thomas Building and Ocean View Town Hall and Community Center, staff salaries and the cost of printing and postage.

**Tuition Assistance**

Partial scholarships (up to half tuition, for a single semester only) are available. A Scholarship Application form, page 33 and online, must be completed and mailed or delivered to the office no later than January 6, 2015. The scholarship process is confidential and applicants are not required to submit any financial information. Scholarship requests cannot be made online.

The George Kirilla Jr. Scholarship Fund was established by the Kirilla family to underwrite this assistance. You are encouraged to make contributions to this fund on your Spring 2015 Registration Form or with your online registration.

**Refunds**

Membership fees will be refunded for requests made prior to the end of the second week of the semester. Refund requests must be submitted in writing to the Osher office. A $15 processing charge will be deducted from all refund requests received after the first day of classes.

Trip and activity refund requests will only be accepted prior to the event and must be submitted in writing to the Osher office. Acceptance of refund requests will be granted based on the required minimum number of participants needed to cover the costs of the event. Once Osher has made final payments for trips and activities there will be no refunds.

Refunds will take up to six weeks to process. Questions should be directed to the Osher office.

Claire Brown is offering a 90-minute sample lesson before the priority registration deadline for the spring 2015 semester. This introductory experience will be held in the Osher gym at the Fred Thomas Building (room 110) on Tuesday January 6, 2015, at 10 a.m.

The full spring class is sequential, in that learning builds upon prior learning. You need to make a commitment to attend regularly to fully benefit from this class. So, before you register for this class, come to the sample session. Student should bring a blanket, mat or towel. This sample session is a required prerequisite to attend the course in the spring semester.
Gifts
While we calculate membership fees to cover our operating costs, we always have a need for additional and upgraded audiovisual equipment, computers and classroom teaching aids such as maps, films and library materials. Many of those items are paid from the Gift Fund. We are happy to receive your donations to the Gift Fund for a specific use or, preferably, unrestricted so your Council can focus them on our greatest needs. You can include a gift with your registration. For more information on how to make these tax-deductible gifts, contact the OLLI office, 302-645-4111.

Lunch
Social interaction is important to our community. We encourage you to continue class discussion or simply to chat and become better acquainted during the noon hour. Bring your brown-bag lunch and store it in the refrigerator.

**HX169 THREE CONSEQUENTIAL COLLABORATIONS**

Wednesdays, 10:45 a.m.–12:15 p.m.  
Dates: 8 Sessions, January 28–March 18  
Instructor: Jo-Ann Vega

Three different and consequential collaborations, partnerships that helped create the United States of America we know today. The first, Abigail and John Adams, were life partners of 54 years, whose lives, captured in a series of more than 1,200 letters to each other, written during their frequent separations. The second, Alexander Hamilton and James Madison, worked together (along with John Jay) to create the first American fictional character, Publius, to campaign for the passage of the Constitution of the United States. The Federalist Papers offer a comprehensive breakdown and analysis of the need for a three part government to replace the no longer useful Articles of Confederation. The third, FDR and Frances Perkins, the first female cabinet member, worked together from the 1920s while Roosevelt was governor of New York through Roosevelt’s death in 1945 to create first state level then federal legislation. Taken together, these three consequential collaborations, between a husband and wife, two rivals and an executive and subordinate, established the framework of the continuing American experiment.

Jo-Ann Vega, a long-time history and biography aficionado, brings her facilitation and human resource experience and passion for learning to Osher. Jo-Ann looks forward to lively and informative discussions.

**HX178 PART I—PRE-HISTORY TO THE ART OF ANCIENT GREECE: CAVE TO CATHEDRALS**

Wednesdays, 10:45 a.m.–12:15 p.m.  
Dates: 5 Sessions, March 4–April 1  
Instructor: Barbara Stephanic  
**Held at Ocean View Town Hall.**

This course will survey the development of painting, sculpture and architecture in western cultures from the Paleolithic period of prehistory to the late Gothic period of the fourteenth century. Material in the classroom is presented through slides, lectures and discussions. Students completing this course will have a discerning appreciation and enjoyment of different cultures through the study of creative art over time. Study will include developing knowledge of stylistic characteristics of the art of early cultures and the terminology necessary to communicate a scholarly analysis of the works. Many of the artistic and aesthetic works of ancient times relate directly to our own culture in a modern environment. It is in those direct links that we learn how closely we are connected to other times and other ethnic groups. To understand the similarities and differences we share with ancient cultures, we will explore the iconography, the technique and the historiography of the art.

**Class limited to 40 students.**

Barbara Stephanic has a master’s degree in art history from the George Washington University and a Ph.D. in American studies, specializing in American art from the University of Maryland. She has taught art history classes at Georgetown University, American University, Parsons School of Design, New York, and the College of Southern Maryland, where she was on the faculty for 20 years before retiring in 2011. We have selected five of our favorite films from recent festivals in Philadelphia and Palm Springs to share with our class. This class is a repeat of the course given in Fall 2014. The films will have subtitles and may contain adult content and language.

Dates: 10 Sessions, January 28–April 1  
Instructors: Joseph Lavenia, Toni Worsham

What must we do to transform our lives spiritually? This course will allow students to consider Tolle’s teachings in this spiritual text and to engage in discussions with other class members regarding their understandings of Tolle’s message, and the value of its application in their lives. Students should bring a copy of the book with them to each class and read the preface, introduction and chapter one prior to the first class. For each chapter, students should bring at least one but not more than two comments or questions regarding the chapter to share with the class. **PS39 ADULT CHILDREN OF ALCOHOLICS**

Tuesdays, 1:30 p.m.–3 p.m.
Dates: 5 Sessions, March 3–March 31
Instructor: Dale Smith

Many people are aware of the term Adult Children of Alcoholics (ACOA), but few have an understanding of the living implications it may have on their lives. Multiple issues may plague an ACOA in their daily living ranging from intimacy difficulties, isolation problems, becoming approval seekers, acquiring an overdeveloped sense of responsibility, to and through co-dependent relationships. Their living in an alcoholic dysfunctional home provides for a lack of appropriate role models needed to acquire a healthy templates of living which can and does obstruct their ongoing efforts for a lifetime. The adult child of an alcoholic is subjected to a variety of and ever changing rules for survival, regulations on communications and directives on relationships. They grow up with a well-integrated system of denial and a survival system for living that is often unparalleled in effectiveness, but paradoxically, often disadvantageous to an individual’s potential for growth and self-potential. Students will learn the basic fundamental dynamics of the living and survival techniques many ACOAs employ in their day-to-day living. Assigned family roles and expectations, and the learned behavioral responses to living within an alcoholic’s family will be explored and thoroughly investigated. Current models of treatment, including self-help groups will be examined and discussed.

**Class limited to 20 students.**

Dale Smith is retired from 32 years’ service with the department of Veterans Affairs (VA). He was the clinical manager of the mental health residential care programs at the Maryland VA medical system. He is a Vietnam veteran who earned a master of arts degree in counseling psychology from Loyola University, Baltimore, Maryland. He has worked with a variety of

**SS94 BEACHCOMBING 101**

Mondays, 9 a.m.–12:15 p.m.
Dates: 9 Sessions, January 26–March 30
Instructor: Tom Lord
No class February 16.

It’s been said that Delaware is a beachcomber’s paradise. The location places it directly next to two coastal zones rich in marine life. Of particular interest to beachcombers are the internal and exoskeletons of the creatures that inhabit the watery boundaries of the state. Each day, curious artifacts of these organisms tumble onto the beaches along Delaware’s shore in the form of bones, shells, casts, molds and relics. Historic records reveal that items collected on our beaches have, over time, served humankind as currency, tools, agriculture, musical instruments, art and personal adornment. The pastime is best performed after ocean storms or following exceedingly high or low tides. You are invited to join a hearty group of beachcombers from the area as we scour the area’s beaches along the Atlantic Ocean and Delaware Bay. This class will begin at the Fred Thomas building each week then move to the beach. **Class is limited to 25 students.**

**Tom Lord.** See course SS78 for instructor’s information.

SS114 MUSHROOMING 101
Thursdays, 9 a.m.–12:15 p.m.
Dates: 10 Sessions, January 29–April 2
Instructor: Tom Lord

Explore the wondrous world of mushroom collecting. Mushrooms belong to a group of living things called fungi, organisms that are so strange that they are given a kingdom of their own. Fungi live everywhere, in air, water, land, soil and on plants and animals. Most folks do not realize that the mushrooms they see above ground are really just the unit that disseminates reproducing cells for the fungus. The bulk of the fungus body lies underground. During the class we will go over the parts of a mushroom, their benefits, their risks, their habits and how one can recognize a few representatives of the most prevalent categories of mushrooms. If the weather cooperates, the participants will carpool to sites around the area during the later portion of class to explore for mushrooms. The class is designed for the beginner mushroomer. Although we will discuss representative edible and nonedible mushrooms during the semester, the course is not designed to teach participants which mushrooms are safe to eat and which are poisonous. Neither is the course designed to teach participants the scientific nomenclature of mushrooms, the categories of mushrooms nor the recipes for preparing mushrooms for consumption.

Class limited to 25 students.

SS115 SAVING CHINESE MEDICINE
Thursdays, 10:45 a.m.–12:15 p.m.
Dates: 5 Sessions, March 5–April 2
Instructors: Barbara Donelan, Yuan Lin

Chinese medical practice has an impressive three thousand year history and is the primary health care system for one-third of the world’s population. It combines herbal formulations, acupuncture treatment and lifestyle practices to help maintain robust health and promote longevity. Due in part to the expansion of Western medicine, the loss of master practitioners and the decline of available healing plant species, the treasures and secrets of Chinese medicine are at risk of disappearing. Today we look for new ways to address these issues. There is hope of saving the most important principles of Chinese medicine little known in the West, and disseminating their understanding both inside and outside the halls of medicine, in ways both enlightening and surprising. In lecture sessions and discussion groups, this course will focus on those principles. Class limited to 20 students.

Barbara Donelan has practiced Chinese medicine in the Lewes/Rehoboth area for 16 years, with a focus on acupuncture and the practice of the five elements. She was a guest teacher for the 2013 Osher course on traditional Chinese medicine and a speaker at the 2014 Fryeburg Conference on Integrative Modalities: Neurotherapy.

Yuan Lin has done research at University of California, University of Illinois, National Cancer Institute and Food and Drug Administration. She taught the 2013 Osher course Traditional Chinese Medicine: A Complementary Approach to Western Medicine.
