Annual Bias Based Profiling Review

This review is conducted annually in accordance with standard **1.2.9**. Its purpose is to document the administrative review of agency practices with regards to bias based profiling, which shall concern citizens' concerns.

Analysis Conducted by: Lt. Hugh Ferrill, Professional Standards Officer

Date Analysis Conducted: January 31st, 2020

Annually the Department conducts Bias Based Profiling training for all of its uniformed officers. In September of 2019 this training was conducted via Power DMS. As part of this review, statistics concerning traffic enforcement, custodial arrests, and use of force information have been pulled for the 2019 calendar year.

There have been no changes to the Department's bias based profiling policy or in the enforcement of its policy.

In reviewing Use of Force data, it is noted that during the calendar year 2019, the only suspect injuries listed are during all ECW deployments. This is due to our officers indicating that a minor injury occurs due to ECW probes. No other injuries were reported during this calendar year.

In reviewing Use of Force data, it is noted that during the calendar year 2019, 4 persons had a firearm displayed at them. These 4 persons all were occupants of the same motor vehicle at the time the firearm was displayed. This incident involved a concealed firearm complaint while assisting another police agency.
