Requisitions for amounts exceeding $50,000 may require additional processing time.
- Invoices for goods received or services rendered during the 2021 fiscal year should be properly approved by a purpose administrator and received by Procurement Services by 5:00 pm on Friday, June 11 to be processed against fiscal year 2021 funds.
- Goods ordered with a purchase order from outside vendors and received directly by a department (for which an invoice has not been processed by Procurement Services) will be accrued to fiscal year 2021 funds if their value is at least $5,000.00 (refer to next bullet)
• It is the responsibility of the Budget Administrator to report the receipt of goods to procurement@udel.edu with “Accrual” in the subject line by 5:00 pm on Friday, June 25 in order to be accrued against fiscal year 2021 funds. The report must include a copy of the bill of lading or other documentary proof of receipt.

**Revenue Recognition**

• As consistent with prior fiscal years, any cash or checks received after COB on June 29th will not be banked or booked until Thursday, July 1 (Period 1 FY22). If you have any questions or concerns about these dates, please contact Kristen Garcia at krisaber@udel.edu.
**Journal Voucher Processing**

Journal Vouchers prepared during the **year end close process** should be completed as follows:

- Journal Vouchers prepared during the **June I close (Period 12)** should be prepared by inserting a date of June 30, 2021, on the web journal form. The June 30, 2021, date will assure the journal is processed during the **June I close (Period 12)**.

- Journal Vouchers prepared during the **June II close (Period 991)** should be prepared by selecting the Adjustment Period field and selecting **Period 991**.

- Journal Vouchers prepared using the **Accrual/Deferral** functionality are transactions that are being accrued at year end. An automatic reversal of the accounting entry occurs in a future accounting period. When processing an accrual of expense or deferral of revenue journal, select the option for JV Type on the front page of the journal input screen as "**Accrual/Deferral JV**." Enter a Reversal date of July 1 or later in the upcoming Fiscal Year (2022).

- The Accrual/Deferral functionality will create a WEB journal dated as entered in the Journal date field. A second journal voucher will automatically be created and dated as of the Reversal date, with debits and credits reversed. The **WEB journal id will be the same for both journals**.

- The Journal Voucher form will not permit grant transactions during **Period 991/992**. **All grant activity should be finalized in the June I close (Period 12)**.

- Journal Vouchers for fiscal year 2022 prepared in July (Period 1) during the fiscal year 2021 close periods should be prepared by using the **Journal Date field** and dating the journal as appropriate, e.g., July 15, 2021.

**Financial Data Considerations during the Year End Close Process**

Users of UDataGlance and/or creators of queries are reminded to select periods 991 or 992 to ensure they are viewing all fiscal year transactions and balances.

We will resume our regular monthly close schedule for July 2021. Webforms will be closed for input at **noon on the second business day of the month of August 2021**. Our fiscal year 2022 calendar is available: [www.udel.edu/genacct](http://www.udel.edu/genacct)
