A STAR Campus
A Connected Place
An Accessible Place
An Open Place for Business, Research, + Education
A Green Place
The University of Delaware’s Science, Technology and Advanced Research (STAR) Campus has the unique opportunity to be a center of innovation, leading cutting-edge research in areas such as health science, cyber security, engineering and alternative energy. STAR’s direct proximity to Delaware’s flagship university allows the research campus to maximize UD’s unique resources and partnerships with government agencies and private businesses. In addition to providing priceless educational and professional opportunities for students, STAR campus will ignite job and economic growth in Delaware for years to come.

PHILADELPHIA
Distance to Newark: 35 miles
Train time to Newark: 32 mins
Population: 4 million

WILMINGTON
Distance to Newark: 14 miles
Train time to Newark: 17 mins
Population: 71,292

NEW YORK
Distance to Newark: 131 miles
Train time to Newark: 2 hrs
Population: 19.9 million
STAR Campus is linked by major modes of transportation, including regional connections on the Northeast Corridor rail lines and I-95, as well as a web of local bike and pedestrian paths.
STAR Campus is an integral part of the University of Delaware and the UD research community.

It offers education and internships to students and research facilities for faculty.

It builds upon strategic alliances between UD, its faculty and students, and corporate, government and institutional partners.
The STAR campus is all about engagement—with the community, with the business world, and with our clinical partners—to train the next generation of healthcare professionals and to create the next innovations in healthcare through cutting-edge research.

" -- Kathleen S. Matt, DEAN OF HEALTH SCIENCES
STAR Campus is walkable, bikeable, and provides **12.6 acres of open space.**
