

Publications by HHMI-Sponsored Undergraduate Researchers By Department and Lab at the University of Delaware 1999-2005

Department of Biological Sciences

Dr. Kamil Akanabi

Brian Jensen, Mary C. Farach-Carson, **Erin Kenaley** and Kamil A. Akanabi, (2004) High Extracellular Calcium Attenuates Adipogenesis in 3T3-L1 Preadipocytes, *Exp Cell Res.* 301:280-92

Dr. Daniel Carson

Gomes, R.R., **Joshi, S.S.**, Farach-Carson, M.C. and Carson, D.D. (2005) Perlecan secretion by C3H10T1/2 fibroblasts is required for BMP-2 and Pln domain I supported chondrogenic differentiation. *Differentiation*, in press.

Dr. Carlton Cooper

R.A.Sikes, C.R.Cooper, G.L.Beck, **Freddie Pruitt**, M.L.Brown, and G. Balian (2004) Bone stromal cells as therapeutics targets in osseous metastasis. In: *Cancer Growth and Progression*, Volume 15, "Integration/Interaction of Oncologic Growth." Ed. by Gary Meadows, Series Ed, Kaiser H., Kluwer Academic Publishers, Boston, MA, in press 2004.

Dr. Patricia DeLeon

Martin-DeLeon P.A. Canaff L., Korstanje R., Bhide V., **Selkirk M.**, Hendy G: (1999). Rabbit Calcium-sensing Receptor (CASR) Gene: Chromosomal Localization and Evidence for Related Genes. *Cytogenet. Cell Gen.* 86: 252-258.

Evans, EA. Zhang, H., Martin-DeLeon, PA, (2003) SPAM1 (PH-20) protein and mRNA expression in the epididymides of humans and macaques: utilizing laser microdissection/RT-PCR. *Reprod. Biol. Endocrinol.* 1:54.

Zhang H, **Shertok, S, Miller, K.**, Taylor L., Martin-DeLeon, P. A. (2005) Sperm Dysfunction in the Rb(6.16)- and Rb(6.15)-bearing mice revisited: Involvement of *Hyalp1* and *Hyal5*. *Mol. Reprod. Dev.* published Online: 3 Aug 2005 DOI: 10.1002/mrd.20360.

Dr. Melinda Duncan

Justin R. DiAngelo, Trusha K. Vasavada, William Cain and Melinda K. Duncan (2001) Production of monoclonal antibodies against chicken Pop1 (BVES). *Hybridoma and Hybridomics* 20, 377-382

Nicole L. Hill, Andres Laib and Melinda K. Duncan (2002) Mutation of The Ectodysplasin-A gene results in bone defects in mice. *J. Comp. Pathology* 126, 220-225.

Dr. Deni Galileo

(Henninger) **Stettler, E.M.** and D.S. Galileo (2004). Radial glia produce and align the ligand fibronectin during neuronal migration in the developing chick brain. *J. Comp. Neurol.*, 468, 441-451.

Cretu, A., Fotos, J.S., Little, B.W., and Galileo D.S. (2005). Human and rat glioma growth, invasion, and vascularization in a novel chick embryo brain tumor model. *Clin Exper Metas*, in press.

Dr. Norman Karin

Suzanne E. Biehn, Kirk J. Czymmek, Karla Leavens, and Norman Karin (2004) Expression of the Sarco/Endoplasmic Ca²⁺-ATPase, SERCA1a, in Fibroblasts Induces the Formation of Organelle Membrane Arrays. *Experimental Cell Research*, in press

Dr. Catherine Kirn-Safran

Stephanie A. Miller, Brown A.J., Farach-Carson M.C. and Kirn-Safran C. B. (2003) HIP/RPL29 down-regulation accompanies terminal chondrocyte differentiation. *Differentiation*, 71: 322-336. (source of cover photo for the issue.)

Dr. Eric Kmiec

Liu L, Hu Y, **Usher M**, Kmiec EB. The nuclease activity of *Saccharomyces cerevisiae* Mre11 functions in targeted nucleotide alteration. *Applied and Environmental Microbiology* 69, 10, 6216-6224 (2003).

Rice MC, **Heckman B**, Liu Y, Kmiec EB. Fluorescent detection and isolation of DNA variants using stabilized RecA-coated oligonucleotides. *Genome Research* 14, 116-125 (2003).

Dr. Gary Laverty

Laverty, G., C. McWilliams, **A. Sheldon** and S.S. Arnason (2003). PTH stimulates a Cl⁻-dependent and EIPA-sensitive current in chick proximal tubule cells in culture. *Am. J. Physiol. Renal Physiol.* 284: F987-F995

Dr. Ulhas Naik

Parris, J. J., Cooke, V. G., Skarmes, W. C., Duncan, M. K., and Naik, U. P. (2005) JAM-A Expression During Embryonic Development. *Developmental Dynamics* 233, 1517-24.

Department of Chemistry and Biochemistry

Dr. Brian Bahnson

Yeung DT, Josse D, Nicholson JD, Khanal A, **McAndrew CW**, Bahnson BJ, Lenz DE, Cerasoli DM. (2004) Structure/function analyses of human serum paraoxonase (HuPON1) mutants designed from a DFPase-like homology model. *Biochim Biophys Acta*. 1702(1):67-77

Dr. Junghuei Chen

Zhaoqin Zhang, **Amanda M. Simons**, Vidhya P. Prabhu, Junghuei Chen, *Strand exchange protein 1 (Sep1) from Saccharomyces cerevisiae does not promote branch migration in vitro.*

[Journal of Biological Chemistry, 1998, 273\(9\):4950-4956.](#)

J. Chen, **E. Antipov**, B. Lemieux, W. Cedeno, and D. H. Wood. (1999) DNA Computing Implementing Genetic Algorithms” in L. Landweber, E. Winfree, R. Lipton, and S. Freeland (eds.) *Proceedings of DIMACS Workshop on Evolution as Computation*, pp 39-49.

Junghuei Chen, **Eugene Antipov**, Bertrand Lemieux, Walter Cedeno, and David Harlan Wood. *In vitro selection for a max-1s DNA genetic algorithm.* In David K. Gifford and Erik Winfree, editors, Preliminary Proceedings of the Fifth Annual Workshop on DNA Based Computers, held at MIT, June 14-16, 1999, page to appear. Massachusetts Institute of Technology, 1999. Under review.

David Harlan Wood, Junghuei Chen, **Eugene Antipov**, Walter Cedeno, and Bertrand Lemieux. *A DNA implementation of the Max-1s problem.* In Wolfgang Banzhaf, A. E. Eiben, Max H. Garzon, Vasant Honavar, Mark Jakiela, and Robert E. Smith, editors, GECCO-99: Proceedings of the Genetic and Evolutionary Computation Conference, July 13-17, 1999, Orlando, Florida USA, San Francisco, 1999. Morgan Kaufman.

E. Antipov, H. Bi, D. H. Wood, and J. Chen. *Implementation of Genetic Algorithms Using DNA Molecules”* in preparation (2001).

D. H. Wood. J. Chen, **E. Antipov**, B. Lemieux, W. Cedeno *A Design for DNA Computation of OneMax Problem.* Special issue on Biomolecular Approaches to Soft Computing. *Soft Computing* 5, 19-24 (2001).

Zhaoquin Zhang, Dennis Yoon, **Jacob R. LaPorte**, and Junghuei Chen, *Appropriate Initiation of Strand Exchange Reaction Promoted by RecA Protein Requires ATP Hydrolysis*. **J. Mol. Biol.** 309, 29-43 (2001)

L. Cai, **U. Marquardt**, Z. Zhang, M. J. Taisey and J. Chen “Influences of DNA Topology on Synaptic Complex Formation Promoted by RecA Protein of *E. coli*” **Nucleic Acids Research** 29, 1389-1398 (2001).

Vidhya Prabhu VP, **Amanda M. Simons AM**, H. Iwasaki, D. Gai, Daniel T. Simmons, Junghuei Chen. The Effect of p53 on the Rate of Spontaneous Branch Migration and Resolution of the Holliday Junction by RuvC. **J. Mol. Biol.** 316, 1023-1032 (2002).

D. Yoon, Y. Wang, **Kenneth Stapleford**, L. Wiesmüller, and J. Chen. P53 Inhibits Strand Exchange and Replication Fork Regression Promoted by Human Rad51”. **J. Mol. Biol.** 336, 639–654 (2004).

[Dr. Roberta F. Colman](#)

Wang, J., **Bauman, S.** and Colman, R. F. Photoaffinity Labeling of Rat Liver Glutathione S-Transferase, 4-4, by Glutathionyl S-[4-(Succinimidyl)-Benzophenone]. *Biochemistry* 37:15671-15679 (1998).

Wang, J., **Bauman, S.** and Colman, R. F. Probing Subunit Interactions in Alpha Class Rat Liver Glutathione S-Transferase with the Photoaffinity Label Glutathionyl S-[4-(Succinimidyl)-benzophenone]. *J. Biol. Chem.* 275: 5493-5503 (2000).

Palenchar, J.B., **Crocco, J.M.** and Colman, R.F. The Characterization of Mutant *Bacillus subtilis* Adenylosuccinate Lyases Corresponding to Severe Human Adenylosuccinate Lyase Deficiencies. *Protein Science* 12: 1694-1705 (2003).

Soundar, S., **Fomulu, K. S.**, and Colman, R. F. Are Asp206, Asp230 and/or Asp234 of the α -Subunit of NAD-Specific Isocitrate Dehydrogenase Involved in Metal Ion Binding? *The FASEB Journal* 19: A1400 (2005)

[Dr. Mahendra K. Jain](#)

Allison Liechty, J. Chen, and M. K. Jain. “Origin of Antibacterial Stasis by Polymyxin B in *Escherichia coli*”. **Biochimica et Biophysica Acta.** 1463, 55-64. (2000).

[Dr. Eugene Mueller](#)

Vidhyashankar Ramamurthy, Steven L. Swann, **Jennifer L. Paulson**, Christopher J. Spedaliere, and Eugene G. Mueller, *Critical Aspartic Acid Residues in Pseudouridine Synthases*, [Journal of Biological Chemistry](#) 1999, 274, 22225-22230.

Eugene G. Mueller, Christopher J. Buck, Peter M. Palenchar, **Lora J. Barnhart**, and **Jennifer L. Paulson**, (1998) *Identification of a Gene Involved in 4-Thiouridine Generation in tRNA*, [*Nucleic Acids Research* 26, 2606-2610](#).

Jaimie S. Robinson and Eugene G. Mueller (2001) Will Introduction of an E. Coli Gene Lead to 4-Thiouridine in yeast tRNA? *FASEB Journal* 15, A188.

Dr. Clifford Robinson

Thevenin, D., Lazarova, T., **Roberts, M. F.**, Robinson C. R., (2005) Oligomerization of the fifth transmembrane domain from the adenosine A2A receptor. *Protein Science* 14, 2177-2186.

Dr. Joel Schneider

Kyung Lee, **Valeria Dzubeck**, **Lauren Latshaw**, and Joel P. Schneider, "De Novo Designed Peptidic Redox Potential Probe: Linking Sensitized Emission to Disulfide Bond Formation" *J. Am. Chem. Soc.* **2004** (ASAP).

Dr. Douglass Taber

Douglas F. Taber, **Gina Bui**, and Bei Chen, Synthesis of (-)-Delobanone. *J. Org. Chem.* 66, 3423-3426 (2001)

Dr. Colin Thorpe

Karen L. Hooper, **Stacey L. Sheasley**, Hiram F. Gilbert, Colin Thorpe, *Sulfhydryl oxidase from egg white. A facile catalyst for disulfide bond formation in proteins and peptides.* [*Journal of Biological Chemistry*, 1999, 274\(32\):22147-22150](#).

Brohawn, S. G.; Miksa, I. R.; Thorpe, C. (2003) Avian Sulfhydryl Oxidase Is Not a Metalloenzyme: Adventitious Binding of Divalent Metal Ions to the Enzyme, [*Biochemistry*, 42\(37\), 11074-11082](#)

Daniel J. Cline, **Sarah E. Redding**, **Stephen G. Brohawn**, **James A. Psathas**, Joel P. Schneider, Colin Thorpe (2004) Water-soluble Phosphines as Reductants of Peptide and Protein Disulfide Bonds: Reactivity and Membrane Permeability, *Biochemistry* 43(48), 15195-203.

Dr. John Koh

Hai Fen Ye, John T. Koh* and **Kathryn E. O'Reilly**, *A subtype-selective thyromimetic designed to bind a mutant thyroid hormone receptor implicated in resistance to thyroid hormone (RTH)*, *J. Am. Chem. Soc.*, 2001, 123, 1521-1522. (featured in C&E News)

Federico G. Cruz, Kristian H. Link, Hai-Fen Ye, **Kathryn E. O'Reilly** and John T. Koh
Photo-caged agonists of the nuclear receptors RAR α and TR β provide unique time-
dependent gene expression profiles for light-activated gene expression.

* *Submitted to Chemistry and Biology*

Department of Chemical Engineering

Dr. Anne Skaja Robinson

K. J. Kauffman, **E. M. Pridgen**, F. J. Doyle, III, P. S. Dhurjati, and A. S. Robinson,
Decreased Protein Expression and Intermittent Recoveries in the BiP Levels Result from
Cellular Stress during Heterologous Protein Expression in *Saccharomyces cerevisiae*.
[Biotech. Prog., 18, 942-950 \(2002\)](#).

R.T.Niebauer, **Allison Wedekind**, and Anne Skaja Robinson (2004) Decreases in yeast
expression yields of the human adenosine receptor are a result of translational or post-
translational events, *Protein Exp. Purif.*, 37 (1) 34-143.

Department of Medical Technology

Dr. Mary Ann McLane

Mary Ann McLane, **Melissa A. Kuchar**, C. Brando, D. Santoli, Carrie. A. Paquette-
Straub, Mary Elizabeth Miele. New insights on disintegrin-receptor interactions:
Eristostatin and melanoma cells. *Haemostasis* 31: 177-182, 2001

Mary Ann McLane, Sanchez EE, **Wong A**, Paquette-Straub C, Perez JC. Disintegrins.
Current Drug Targets-Cardiovascular and Haematological Disorders 4: 327-355, 2004.

Mary Ann McLane, Xiaoming Zhang, Jing Tian, **Claire Zelinkas**, **Apoorva Srivastava**,
Brett Hensley, Carrie Paquette-Straub. Scratching below the surface: Wound healing and
alanine mutagenesis provide unique insights into interactions between eristostatin,
platelets and melanoma cells. *Pathophysiology of Thrombosis and Haemostasis*, in press
2006.
