

CHEMICAL SAFETY MOMENT

Issue 79 – February 2023

Lab Trash Boxes: What goes inside?

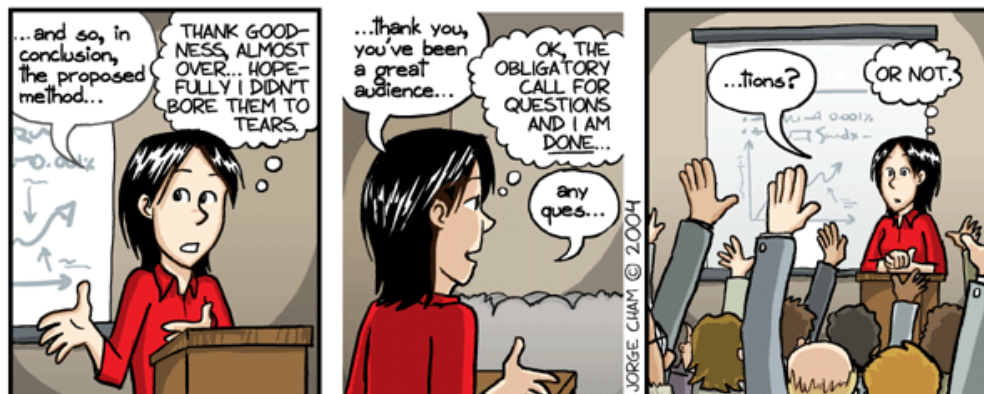

A new lab trash sticker campaign is starting soon. Place these stickers on the lab trash lids to remind everyone what is **not** allowed inside.

Your lab trash box is for solid waste only. This means:

- NO Cylinders**
- NO Sharps** (Needles or Razor blades)
- NO Liquids** (trace liquid is okay)
- NO Free silica gel** (place in a container first)

- YES Gloves**
- YES Paper towels** (any)
- YES Glass** (broken, clean, or dirty)
- YES Pipettes**

Do you have questions or do not see your waste type?
