

College of Health Sciences
Department of Health, Nutrition and Exercise Sciences

Resolution

WHEREAS the proposed five-year academic program for the combined Bachelor of Science and Master of Science degrees with a major in Exercise Science, with a concentration in Biomechanics, Exercise Physiology, or Motor Control, is in line with the University's mission to cultivate learning and the free exchange of ideas, and

WHEREAS this degree combination will provide the challenge and enrichment of an accelerated academic program for academically talented students selecting the major, and

WHEREAS the Department of Health, Nutrition and Exercise Sciences has available all resources necessary to support the degree combination, be it therefore

RESOLVED, that the Faculty Senate approves provisionally, for five years, the establishment of a new, five-year academic program leading to the Bachelor of Science and Master of Science degrees with a major in Exercise Science.
