ACADEMIC CALENDAR: DATES TO REMEMBER

Wednesday, August 1 Last day for payment of Fall Semester fees without \$40 late payment fee.

Monday, August 6 Late registration and drop/add begins. See UDPHONE instructions.

Sunday, August 26 Residence hall check-in for returning students, 9:00am - 9:00pm.

Tuesday, August 28 Classes begin at 8:00am.

Monday, September 3 Labor Day holiday. Classes suspended and university offices closed.

Tuesday, September 11 Deadline for filing application for graduate degrees to be conferred in December 2001.

Tuesday, September 11 Last day for late registration and change of registration (drop/add) without financial obligation. Last day for textbook refunds. Undergraduates: Last day for completion of deferred examination and incomplete work (grade I) from 2001 Spring Semester (01S) and 2001 Summer Session (01J). After this date: A one-time \$20 processing fee will be charged to students who make changes of registration. Students withdrawing from courses will receive a grade of "W" and will be charged tuition.

Friday, October 19 Graduate students: Deadline for completion of deferred examinations and incomplete work (grade I) from 2001 Spring Semester (01S) and 2001 Summer Session (01J).

Monday - Monday, October 22-October 29 Registration for 2002 Winter Session (02W).

Friday, October 26 Fall Break; Classes Suspended

Tuesday, October 30 Last day to change registration or to withdraw from a Fall Semester course without grade penalty and dean's approval. (See September 11 for financial obligation.)

Thursday - Friday, November 15 - November 30 Registration for 2002 Spring Semester (02S).

Wednesday, November 21 Thanksgiving recess begins at 5:00pm; No classes after 5:00pm. Residence halls close at 7:00pm.

Monday, November 26 Classes resume following Thanksgiving Day recess.

Wednesday, December 5 Last day of classes, classes end at 10:00pm.

Thursday, December 6 Reading day.

Friday - Friday, December 7 - December 14 Final exams week.

Saturday - Sunday, December 8 - December 9 Reading days.

Friday, December 14 Final exams end; Residence halls close at 10:00pm.

Saturday, January 5 Commencement

STUDENT SERVICES

The Student Services Building offers a variety of administrative services in a single location. In this facility you can make arrangements for dining plans, financial aid, UD1 FLEX accounts, registration, fee payment, parking, ID cards, and telephone services. Electronic kiosks are available in the building for you to quickly and conveniently check the status of your financial aid, obtain a copy of your class schedule or review your account statements. The Student Services Building is a convenient walk from anywhere on campus. Located on Lovett Avenue, just behind Pearson Hall, it is close to the Perkins Student Center and to several parking facilities. Among the services available are:

ACCOUNT SERVICES (2126) (FAX - 4056)

- Account Balance
- Billing Inquiries
- Delaware Plan
- Refund requests
- Sibling tuition credit

CASHIERS' OFFICE (1241)

- Semester payments
- Installment payments
- Room deposits
- Flex deposits

FINANCIAL AID (8761)

- General financial aid information and FAFSA's
- Federal Perkins/Nursing promissory note signing
- Federal Work-Study job placement

PUBLIC SAFETY (1184)

- Purchase Parking Permit

REGISTRAR (2131) (FAX - 3005)

- Registration
- Class schedules
- Transcripts (1289)
- Enrollment certification (8940/8987)
- Standardized tests (GRE, LSAT, MCAT, etc.) (6717)
- UDPHONE helpline (2131)

UD#1 CARD (ID CARD) (2759)

UD1 FLEX OFFICE (2273/4033)

- UD1 FLEX Account information
- Dining Plan/Points information
- Suspend lost/Stolen cards

MISCELLANEOUS

- General information about readmission and housing
- Self-Service computer terminals for access to a variety of information
- Notary Public

Important Information About Tuition:

Every student MUST submit a Fee Payment Form each semester, even if no payment is required. It is due by August 1 for 2001 Fall Semester. Students who do not receive the 2001 Fall fee payment materials at the permanent address by July 13 should contact the Account Services Office for a duplicate.

Student tuition and fees are based on registration at the end of the late registration/change of registration period (September 11, 2001). **THERE ARE NO REBATES OF TUITION AFTER THIS DATE.** Students who withdraw from courses after September 11, 2001, will be charged tuition.

Tuition is charged according to student classification: Matriculated undergraduates are charged undergraduate rates. Graduate students are charged graduate rates. MBA/EMB please see special MBA/EMB rates.

Non-matriculated students (CEND - Continuing Education non-degree) are charged according to the course level: 000-499 charged at undergraduate rates and 500-999 charged at graduate rates.

Residency classification for tuition purposes should be resolved prior to the fee payment deadline. Call 831-1554 or go to the Service Desk in the Student Services Building for information.

Matriculated Student Payment Options:

- Payment in full* *Payment due August 1, 2001.*
- Installment Plan* *\$50.00 fee. Four equal payments on Aug. 1 and Sept. 20, Oct. 22, and Nov. 20.*
- Delaware Plan* *Contact the Account Services Office for information.*

After the initial payment, any changes in registration, housing, or meal plan must be paid at the time of the change to avoid installment fee and/or penalties.

Tuition for Additional Credit Hours

There is an additional charge at the per credit hour rate for undergraduate registration in excess of 17 credit hours.

Credit Hours	DELAWARE RESIDENT Undergraduate	NON-RESIDENT Undergraduate
18	\$ 199.00	\$ 578.00
19	398.00	1,156.00
20	597.00	1,734.00
21	796.00	2,312.00

Charges are the same for courses taken for credit or as an auditor (listener).

MBA/EMB - Tuition rates for graduate students classified as Masters of Business Administration or Masters of Economics/Business Administration.

Tuition Rates	DELAWARE RESIDENT	NON-RESIDENT
Per Credit Hour	\$ 334.00	\$ 770.00
Full-Time (9 or more credit hours)	3,010.00	6,930.00

 - Charged once per semester to process a change of registration after September 11, 2001 \$20.00
- Student Teaching Fee
 - Charged in addition to regular tuition for EDUC 400 or IFST 499 \$75.00
- UD Online Video Fee \$90.00
- New Student Orientation
 - Charged to all new Undergraduate and Transfer Students whether or not they attend \$65.00

***** All tuition and fees are subject to change**

IMPORTANT POLICIES AND INFORMATION

Advertisements

The advertisements in this booklet are solicited by the publisher. The University receives no profit from it, nor does the University endorse any of the products of the advertisers.

An Equal Opportunity/Affirmative Action Employer

The University of Delaware is committed to assuring equal opportunity to all persons and does not discriminate on the basis of race, color, gender, religion, ancestry, national origin, sexual orientation, veteran status, age, or disability in its educational programs, activities, admissions or employment practices as required by Title IX of the Educational Amendments of 1972, Title VI of the Civil Rights Act of 1964, the Rehabilitation Act of 1973, the Americans with Disabilities Act, other applicable statutes and University policy. Inquiries concerning these statutes and information regarding campus accessibility should be referred to the Affirmative Action Officer, 305 Hulliher Hall, (302) 831-2835 (voice), (302) 831-4552 (TDD).

Family Educational Rights and Privacy Act

Description of the Act

The Family Educational Rights and Privacy Act of 1974 grants to students certain rights, privileges, and protections relative to individually identifiable student educational records which are maintained by the University. Specifically: (1) Students' educational records (with the exception of directory information) will be released to third parties outside the University only with the written consent of the student. The University reserves the right to release educational records to appropriate parties in a health or safety emergency or when the student's well being is of concern. (2) Students have the right to inspect their own individually identifiable educational records. The right may be exercised by completing a request form in the Office of the University Registrar, 315 Hulliher Hall. (3) Students have the right to challenge information contained in individually identifiable educational records. The procedure is described in the policy statement referred to below. (4) A copy of the policy statement describing the University's regulations for this act may be obtained from the Student Services Building, Lovett Avenue.

Directory Information

The Family Educational Rights and Privacy Act of 1974 permits the release of directory type information to third parties outside the institution without written consent of the student provided the student has been given the opportunity to withhold such disclosure.

The University releases, upon inquiry to third parties outside the University, directory information without written consent of the student. Directory information includes name, address, (including e-mail), telephone number, college class, major, dates of attendance, enrollment status, anticipated dates of graduation, degrees, honors and awards conferred and participation in officially recognized activities and sports. Students may withhold directory information by going to the Student Services Building.

Note: While the withholding request may be made at any time, students wishing to have directory information withheld from the student directory should submit their requests no later than six weeks prior to the first day of classes of the Fall Semester.

Course Changes After Publication

Every effort is made to have course information accurate at the time of publication; however, departments may need to make changes to their courses after publication. Students are advised to consult departmental bulletin boards.

Statement of Responsibility

The University of Delaware community values both personal and academic freedom. All members of the campus community have the personal responsibility to promote an atmosphere of civility in which the free exchange of ideas and opinions can flourish. We do so by learning from individual and collective differences and respecting every human being.

Enrollment Restrictions

The University of Delaware reserves the right to refuse for good and sufficient reasons enrollment of any applicant. Any applicant who is refused enrollment will, on written request, be provided with a statement of the reasons for the refusal of enrollment.

University Policies and Procedures

Students should read and understand the academic regulations section in the University's Undergraduate and Graduate Catalog.

Catalogs are sold at the University Bookstore. Catalogs are available for reference use in Newark at the Student Services Building, Graduate Office, Clayton Hall and other University locations throughout the State. The University Policies and Procedures are also available from a link on the University's homepage (www.udel.edu).

Seat Claim Policy

Classes are sometimes over-subscribed, and it is not always possible to accommodate all requests for assigned seats. To address this problem, the University has established a seat claim policy. Seat assignment in classes is based on such factors as classification, major, course status, and intended audience. Students are expected to occupy their confirmed, assigned seats within a reasonable period or time. The following policy applies to all classes:

Unless excused by the faculty member, students holding a confirmed assigned seat in a class will have relinquished their seat if they have not personally appeared in class to claim the seat by the third meeting for a class scheduled to meet three times a week, by the second meeting for a class scheduled twice a week, by the third meeting for a class scheduled five times a week, or by the second meeting for a class scheduled once a week. If the student does not claim the seat within the time limit specified above, and does not drop the course, the instructor has the option of assigning the student a grade of "Z" at the end of the term. It is the responsibility of the student to drop each course that he/she does not plan to attend, even when the student's registration is cancelled for non-payment of fees. Failure to drop a course will result in a grade of Z.

Financial Aid Recipient Withdrawals

If you are a recipient of Title IV financial aid funds**, and your enrollment terminates through official withdrawal, your financial award must be reviewed for possible adjustment.

Financial aid eligibility is based on the cost of education (tuition, mandatory fees, housing, meal plan, books, etc.) incurred for the entire semester and is contingent upon completion of that semester. When you withdraw, federal regulations mandate that any unearned aid be returned to the federal aid programs. The percent of aid earned is based on the date of withdrawal divided by the total number of days in the semester. Title IV recipients are governed by federal policy if they withdraw prior to completing 60% of the semester.

If your institutional charges are reduced or recalculated, this change may result in the reduction of recipients' other sources of financial aid.

****Examples: Direct/Stafford Student Loans, Perkins Loan, Nursing Student Loan, Supplementary Educational Opportunity Grant (SEOG), PELL Grant, Direct/Parent Loan.**

Failure to Withdraw Officially

Students are required to adhere to the University's official withdrawal policy when terminating their enrollment prior to the end of a given term. Failure to officially withdraw will result in the cancellation of any Federal financial aid program funds previously awarded for that term. Federal regulations require that funds for ineligible recipients be returned to the financial aid program accounts. Students will be billed for semester charges.

Handouts for Title IV recipient withdrawals, explaining the policies, procedures and examples of Title IV refunds are available upon request at the Student Services Building, and the Office of Scholarships and Financial Aid, 224 Hullihen Hall.

Financial Aid Recipients

Financial aid awards are based on full-time enrollment. If you enroll for less than full-time status, your aid package will be revised. If you are enrolled for less than six credits, you are ineligible for most types of aid. **Listener (L) credits do NOT count toward enrollment status for financial aid purposes.**

REGISTRATION INSTRUCTIONS AND INFORMATION

Advisement

It is recommended that all students consult with their advisors prior to registering.

Students with an undeclared major in the College of Arts and Science can go to the Arts and Science Advisement Center in 102 Elliot Hall. Declared majors should meet with their department advisors.

All students may talk with the faculty of any department-see the department secretary for information.

You may switch advisors if you are not pleased with the one assigned to you, see the department Chairperson.

Registration

During the registration period in November for the Spring semester and in April for the Fall semester, students use schedule request scan forms that are submitted to the Student Services Building. Freshmen must have advisor's approval and turn the form into their department. The schedule request forms are available at the Student Services Building.

Some courses are listed in the Registration book with "000" section numbers. Be careful not to register for a "000" section. You must obtain faculty section numbers for all "000" section courses from the faculty sponsoring the project or from the departmental secretary before registering. When writing in the faculty section numbers, be sure to precede them by a 0 if less than 100.

If a course meeting time is listed as "TBA" the student will be responsible for contacting the instructor or department to arrange class meeting times and locations.

166, 266, 566, 666, 866 (Special Problem numbers) are available to departments to use if they choose to offer special problems at these levels.

366, 466 (Independent Study numbers) are available to departments if they had the guidelines for these courses approved by the Faculty Senate Committee on Undergraduate Studies. A written contractual agreement must be devised between the individual student and the professor before the student can sign up for the course.

How to Complete the Schedule Request Scan Form

1. Completely fill in the information on the left hand side of the form with your name, student id number, classification and local address and phone number.
2. Print and grid your STUDENT ID NUMBER.
3. Print and grid your desired load, which is the total number of hours you wish to be scheduled in the semester.
4. Transfer to your scan sheet the course title, the numeric subject area code, the course number, the section number and the credit hours as they appear in the registration booklet as shown below.

EXAMPLE OF A SCHEDULE REQUEST FORM BLOCK

It is important that the groups of numbers that form the registration number be put in the correct order when transferred to the schedule request form. The order should be: numeric subject area code; course number; section number.

COURSE TITLE										
Accounting 1										
1	REGISTRATION NUMBER									62
	0	5	7	2	0	7	0	1	0	3
	0	0	0	0	0	0	0	0	0	0
	0	0	0	0	0	0	0	0	0	0
Au	0	0	0	0	0	0	0	0	0	0
P/F	0	0	0	0	0	0	0	0	0	0
Office Only	0	0	0	0	0	0	0	0	0	0
0	0	0	0	0	0	0	0	0	0	0
0	0	0	0	0	0	0	0	0	0	0
0	0	0	0	0	0	0	0	0	0	0
						010				3
					207					credit hours
										section number
					057					numeric subject area code

HOW THE REGISTRAR'S OFFICE WILL USE YOUR SCHEDULE REQUEST FORM

When reading your form, the Registrar's Office will first attempt to schedule you in your first primary request. If we are able to schedule you, we will then go to your second primary request passing over the corresponding alternate request. If we are not able to schedule you in your first primary request, we will then look at your first alternate request located directly below your first primary request. If there is no alternative request, we will go to the next primary request.

The above steps will be repeated for each of the course requests until your desired credit load is reached or until all your requests have been considered.

HOW COURSES ARE ASSIGNED TO STUDENTS

For students who register during the registration period, assignment to courses will be based on a distinct set of priorities, involving your level, major and class (senior, junior, etc.).

Level - With courses at the undergraduate level, undergraduate student requests will be satisfied before any graduate or continuing education student request are considered. At the graduate course level, graduate students have first priority. In courses offered through the Division of Continuing Education, priority is given to continuing education students.

Major - Subject area majors, in general, will be seated in a course section before students who are not majors. For example, a senior English major will be seated in an English course before a senior Physics major and conversely, a Physics major will have higher priority in a Physics course. Minors will be given priority in a similar manner.

Class - At the undergraduate course level, priority is given based on your class. Therefore, a senior will be seated in a course section before a junior, a junior before a sophomore and so on. Your class is based on your number of earned hours. Students with 27 or fewer credits are classified as freshmen, those with 28 to 59 credits are classified as sophomores, those with 60 to 89 credits are classified as juniors, and those with 90 or more credits are classified as seniors.

HOW TO IMPROVE YOUR CHANCES OF RECEIVING A COMPLETE SCHEDULE

Course requests should be placed in priority order on your form. Courses will be considered in the order that you have placed them. With all things being equal (major and classification), a student who places a course in block #2 will be enrolled in the course before a student who placed the same course and section in block #3.

Give an alternate request wherever possible. When we are unable to schedule you in your primary requests, we will then attempt to schedule the alternate request located directly below your primary request.

List as many courses as you wish on the schedule request form. You will be enrolled in courses until your desired credit load is reached.

Drop/Add Information

Drop/add will be available by using UDPHONE, the interactive voice response system and SIS+ Personal Access, the interactive student information system available on the Web. SIS+ Personal Access is available on electronic kiosks on campus, or by using a secure web browser at computing sites on campus or through a network connection in your home or dorm room.

Drop/add for the 2001 Fall Semester begins August 6, 2001. The first day you may begin drop/add depends on your classification. Your classification is based on the number of credits you have earned by the end of the Spring Semester.

Student Classification	First Day to Drop/Add
Graduate Students	August 6
Seniors (90 or more credits)	August 6
Juniors (60 to 89 credits)	August 7
Sophomores (28 to 59 credits)	August 8
Freshmen (27 or fewer credits)	August 9
Continuing Education Students	August 10

Drop/add will continue through UDPHONE and SIS+ Personal Access until September 11, 2001. All registration changes made through UDPHONE and SIS+ Personal Access are subject to final approval of the University Registrar and/or the student's dean.

AFTER THE FREE DROP/ADD PERIOD

You may change your registration until the end of the eighth week of the semester. There will be a \$20 processing fee per semester charged to students who make changes to their registration.

- **To add a course** you need to use a Course Permit form. You can only add a course by obtaining permission of the dean of your college.
- You may use UDPHONE or SIS+ Personal Access to **withdraw from a course**. A grade of "W" will be posted and tuition will be charged for course withdrawals.
- **To change your grading options**, e.g. from letter grading to pass/fail, use UDPHONE or SIS+ Personal Access. See the instructions in the centerfold of this book for more detail.
- If you have **questions about your course registration or change of registration**, go to the service counter at the Students Services Building. Continuing Education students should contact the ACCESS Center in Clayton Hall.

NOTE: Any changes after the eighth week deadline require the approval of the dean of your college

The dean will permit students to withdraw from courses only for unusual circumstances beyond a student's control and not for reasons of academic performance. Dean's approval does not negate financial obligation.

Grade Reporting

Grades for the Fall Semester 2001 will be available beginning Wednesday, Dec. 12 by calling UDPHONE 302-837-4663 or using SIS+ Personal Access. Instructors have at least 72 hours from the final exam to submit their grades to the Registrar's Office. More than one attempt to access your grades each day will most likely not reflect new grades since grades are posted nightly. Paper grade reports are not automatically mailed to all students at the end of the semester. If you would like a paper grade report, after you listen to your grades on UDPHONE, press 9# as instructed. You will then be given the option to have a grade report mailed to either your permanent or local address.

UD#1 Card Information

Students are required to carry the UD#1 CARD. The UD#1 CARD area is located in the Student Services Building, Lovett Avenue, Newark (302-831-2759). Our hours are 8:30 am - 4:30 p.m. For your protection, it is necessary to present a picture ID for positive identification before obtaining/replacing a UD#1 CARD. A \$15 charge is applied for replacement cards. Examples of privileges that MAY be accessed with the card are: UD#1 FLEX account, UD#1 ACCOUNT with MAC, (Wilmington Savings Fund Society), sporting events, the library, dining facilities. Access to privileges is determined by registration status and account balances. Lost and stolen cards should be reported immediately by dialing 831-2273, 24 hours a day.

Math Placement Exam Schedule

The Department of Mathematical Sciences requires all students to take a placement exam before registering for their first math course.

The following is the placement exam schedule for the Fall Semester:

Tuesday, August 28	9-10:30 AM	106 Ewing Hall
Wednesday, August 29	9-10:30 AM	106 Ewing Hall

Questions should be directed to the secretary in 116 Ewing Hall, 302-831-2140.

Continuing Education Students may take the placement exam at the ACCESS Centers by appointment. Call 302-831-2741 for information.

MATH CREDIT BY EXAM

Mathematical Sciences Credit-By-Exam for mathematics courses will be given Saturday morning, September 8, 2001, from 9-11 AM in 209 Ewing Hall. All students wishing to take the exam should first obtain the approval of the Director of Undergraduate Studies. Inquiries can be made in 301 Ewing Hall. After obtaining approval, students must bring the prepared credit-by-exam forms, available at the Student Services Building to the Director or 301 Ewing at least five working days before the exam is scheduled. Credit-by-exam is not given for courses below the 200 level. Students are permitted to sit for the exam only once.

Veterans' Information

Information about Veterans' Eligibility and Certification can be obtained from the VA clerk located in the Student Services Building, Lovett Avenue, 302-831-8987.

Continuing Education Students

Students who have not been formally admitted to the University's undergraduate or graduate degree programs are non-matriculated students. They are classified by the letters CEND, Continuing Education Non-Degree.

No particular educational background is required to register for courses and CEND students are not limited to only evening or off-campus classes. CEND students may register for up to 7 credits of course work offered at any time or location, provided they meet the course prerequisites and restrictions. To register for more than 7 credits, CEND

students must have approval from an ACCESS (Advisement Center for Continuing Education Student Services) counselor. Other University policies and procedures are generally the same for CEND students as for matriculated students.

For additional information about advisement, registration and payment, transfer credit, textbooks or parking, please contact the ACCESS Center in Clayton Hall, 302-831-2741.

WHERE AND WHEN TO REGISTER

Continuing Education students may register for open seats in evening or daytime classes, on-campus or off-campus. In-person registration with payment begins July 30, 2001 at the following locations:

Wilmington Campus, Student Service Center

Monday-Thursday	10:00 AM-7:00 PM
Friday	CLOSED

University's Downtown Center

8th and King Streets, Wilmington

Monday-Thursday	8:30 AM-6:30 PM
Friday	CLOSED

Newark Campus, Clayton Hall

Monday and Tuesday	8:00 AM-8:00 PM
Wednesday and Thursday	8:00 AM-6:30 PM
Friday	8:00 AM-5:00 PM

Dover Parallel Program Office, University of Delaware offices at Delaware Technical & Community College, Terry Campus: Call 302-857-1214 for evening counseling and academic advisement hours.

Monday-Friday	8:30 AM-4:30 PM
---------------	-----------------

William A. Carter Center, Jack F. Owens Campus, Delaware Technical & Community College, Georgetown, DE

Call 302-855-1630 for information or an appointment.

Monday-Thursday	8:30 AM-6:00 PM
Friday	8:30 AM-NOON

Off-Campus Courses

Continuing Education students may request seats in any courses offered by the University, day or evening, if the student meets the prerequisites. Continuing Education off-campus courses (with location notes) are listed with regular campus courses and in a separate section at the back of this book (following Women's Studies courses).

NOTE: Some evening course sections in Newark and Wilmington reserve seats for CE students. Continuing Education students can learn more about University credit classes at the Division of Continuing Education's web page at: <http://www.udel.edu/ce/index.html> or the University's web page at: <http://www.udel.edu/main/cur-students/currce.html>.

For additional information, call the ACCESS Center, 302-831-2741.

SPECIAL PROGRAMS

Life Course Clusters

Fall 2001

Freshmen at the University of Delaware have been involved in a freshman-experience program called **LIFE** (Learning Integrated Freshman Experience). LIFE students live in the same residence hall and form learning communities organized around themes (a LIFE cluster). They co-enroll in several courses united by a theme; they also enroll in a co-curricular course, UNIV 101 (1 credit, P/F), in which they engage in thematically related activities outside the classroom and develop a collaborative project. The LIFE cluster and learning community are under the leadership of an advanced undergraduate peer mentor and a faculty member. The cluster and learning community involve study groups, discussion groups, tutoring, service learning projects, field trips, lectures, social activities, and referrals to University resources that help students succeed.

To register for a LIFE cluster, look for the appropriate cluster under the LIFE rubric in the schedule pages and sign up for the LIFE course. Selecting the LIFE course automatically enrolls you in all the courses listed thereunder.

LIFE 101-011 ANIMALS, SCIENCE AND SOCIETY

(Animal Science majors, Biological Science majors, Agriculture majors, and Arts and Science majors as space allows)

Description: The study of the disciplines of animal science including animal nutrition, reproductive physiology, genetics, and health, complete with hands-on experience.

- ANSC 101-010 Introduction to Animal Science (3 cr.)
- PLSC 270-010 Biotechnology: Science and Socioeconomic Issues (3 cr.)
- ANSC 111-010 Animal Science Laboratory (1cr.)
- UNIV101-011 First Year Experience I (1 cr.)

LIFE 101-012 HOW CHILDREN LEARN LANGUAGE

(Any major)

Description: An examination of the way children learn language and the relationship between language and thought, with a composition course dedicated to writing about these issues.

- LING 101-010 Introduction to Linguistics (3 cr.)
- CGSC 270-010 Introduction to Cognitive Science (3 cr.)
- ENGL 110- 023 Critical Reading and Writing (3 cr.)
- UNIV 101-012 First Year Experience I (1 cr.)

LIFE 101-013/014 COMMUNITY AND INDIVIDUAL RESPONSIBILITY

(Arts and Science majors)

Description: Consideration of the political, social, ecological, and cultural factors that influence how people conduct their lives.

Note: This cluster consists of two groups: 1) Students who enroll in the campus sponsored Americorps program. Americorps members engage in service activities and receive a small stipend to support participation. Americorps enrollment information will be available to students during the first week of class. 2) Students who enroll in the cluster with no obligation to participate in the Americorps program.

LIFE 101-013 AMERICORPS

- ANTH 101-010 Introduction to Social and Cultural Anthropology (3 cr.)
- PHIL 100-010 Philosophies of Life (3 cr.)
- UNIV 101-013 First Year Experience I (1cr.)

LIFE 101-014 Group open to Arts and Science majors (no Americorps program)

- ANTH 101-011 Introduction to Social and Cultural Anthropology (3 cr.)
- PHIL 100-010 Philosophies of Life (3 cr.)
- UNIV 101-014 First Year Experience I (1cr.)

LIFE 101-015 FUNDAMENTALS OF ECONOMIC SYSTEMS

(Business and Economics majors)

Description: An examination of the fundamentals of economic systems and an understanding of their impact on society.

- ECON 151-010 Introduction to Microeconomics (3 cr.)
- SOCI 201-019 Introduction to Sociology (3 cr.)
- UNIV 101-015 First Year Experience I (1 cr.)

LIFE 101-016 E-BRICKS OF THE INTERNET

(Electrical Engineering and Computer Engineering majors)

Description: Examination of the foundations of the logical operations of computers and the Internet, with fundamental concepts important to the engineering profession.

- CISC 105-010 General Computer Science (3 cr.)
- CPEG 202-010 Introduction to Combinational Logic (4 cr.)
- UNIV 101-016 First Year Experience I (1 cr.)

LIFE 101-017 FOR THE HEALTH OF IT

(Health and Exercise Science majors)

Description: Examination of the physical, social, and emotional issues related to a healthy lifestyle, with a composition course dedicated to writing about these issues.

- HESC 155-010 Personal Health Management (3 cr.)
- ENGL 110-029 Critical Reading and Writing (3 cr.)
- UNIV 101-017 First Year Experience I (1 cr.)

LIFE 101-018 VISUAL STYLE

(Preference given to Apparel Design and Fashion Merchandising majors)

Description: Study of issues in how people see, process, and respond to visual information embedded in the world.

- CNST 110-010 A Visual World (4 cr.)
- CNST 114-010 Clothing in Contemporary Society (3 cr.)
- UNIV 101-018 First Year Experience I (1 cr.)

LIFE 101-019 GENDER AND SOCIETY

(Any major)

Description: Examination of social and cultural issues affecting the construction of gender and identity, with a composition course dedicated to writing about these issues.

- WOMS 201-010 Introduction to Women's Studies (3 cr.)
- SOCI 201-019 Introduction to Sociology (3 cr.)
- ENGL 110-011 Critical Reading and Writing (3 cr.)
- UNIV 101-019 First Year Experience I (1 cr.)

LIFE 101-020 RELATIONSHIPS

(Any major; preference given to Early Childhood Development and Family and Community Service majors)

Description: Examination of the development of relationships across the lifecourse. Special consideration to the context in which relationships develop, the role of relationships within the lives of individuals, and the changing nature of relationships.

- IFST 267-010 Relationships (3 cr.)
- WOMS 201-013 Introduction to Women's Studies (3 cr.)
- UNIV 101-020 First Year Experience I (1 cr.)

LIFE 101-021 E-COMMERCE

(Preference given to Computer and Information Sciences majors)

Description: Discussion of technological and commercial issues in the formation of e-commerce and e-business.

- CISC 105-013 General Computer Science (3 cr.)
- ECON 151-010 Introduction to Microeconomics (3 cr.)
- UNIV 101-021 First Year Experience I (1 cr.)

LIFE 101-022 BIOTECHNOLOGY AND BIOINFORMATICS

(Biological Sciences majors or
Computer and Information Sciences majors)

Description: Study of the use of computing methods and design in biological and life sciences contexts.

- CISC 105-015 General Computer Science (3 cr.)
- BISC 207-015 Introductory Biology (4 cr.)
- UNIV 101-022 First Year Experience I (1 cr.)

LIFE 101-023 IMAGE AND SHAPE

(Art majors)

Description: Study of expressive content and cultural context in the making of aesthetic images and objects, with a composition course dedicated to writing about these issues.

- ARTH 153-010: Introduction to Art History (3 cr.)
- ART 113-012: Foundation 3D Design (3 cr.)
- ENGL 110-021 Critical Reading and Writing (3 cr.)
- UNIV 101-023 First Year Experience I (1 cr.)

LIFE 101-024 HUMANS AND THEIR ENVIRONMENT

(Any major)

Description: Consideration of the earth as an integrated natural system, and the interactions between our environment and humans.

- MAST 200-010 The Oceans (3 cr.)
- GEOG 101-010 Physical Geography (3 cr.)
- UNIV 101-024 First Year Experience I (1 cr.)

LIFE 101-025 MIND AND BODY CONNECTION

(Nursing majors, Medical Technology,
and Nutrition and Dietetics majors)

Description: Linkage of concepts from biology and psychology to explore the question, "Why are we who we are?" Issues in how biological and psychological factors interact to shape us, our personalities, our dreams, our senses, our health, our learning.

- PSYC 201-011 General Psychology (3 cr.)
- BISC 207-018 Introductory Biology (4 cr.)
- UNIV 101-025 First Year Experience I (1 cr.)

LIFE 101-026 INTRODUCTION TO HOSPITALITY TECHNOLOGY

(Hotel Restaurant majors and other students interested in
exploring options and careers in hospitality)

Description: Overview of the uses of technology in the hospitality industry, including hotels, restaurants, resorts, cruise ships, and theme parks. Information on international hospitality markets.

- HRIM 140-010 Information Technology and
Services Management (3 cr.)
- HRIM 180-010 Introduction to Hospitality (3 cr.)
- UNIV 101-026 First Year Experience I (1 cr.)

LIFE 101-027 DEVELOPMENT AND LEARNING

(Elementary Teacher Education majors)

Description: Discussion of how elementary school teachers are concerned with the development and growth of the students they teach.

- EDUC 202-013 Human Development I: Grades K-4 (3 cr.)
- LING 101-013 Introduction to Linguistics (3cr.)
- UNIV 101-027 First Year Experience I (1 cr.)

** Please reference the following website for more information regarding
LIFE course clusters: <http://www.udel.edu/life>*

Pathways to Discovery

Fall 2001

Pathways to Discovery is part of the three-year pilot program in General Education approved by the Faculty Senate. Like its freshman-year counterpart, LIFE, Pathways to Discovery is designed to provide integrated academic experiences that introduce students to the resources of the university and foster core intellectual skills required for a successful undergraduate career. Pathways accomplishes this by means of thematic interdisciplinary courses, often designed collaboratively by teams of faculty from different disciplines, but all of which offer students exciting opportunities to approach topics of general interest from cross-, inter-, or multidisciplinary perspectives. While students are not required at present to take any Pathways courses, these courses are particularly recommended for freshmen, especially undeclared freshmen.

Pathways courses are different from the usual introductory-level survey courses, which treat a single discipline, because they link to a variety of disciplines and experiences and provide a foundation for, and hence “pathway” to, other fields, campus experiences, campus resources, and careers. Because of their interdisciplinary and multidisciplinary nature, Pathways courses may have a variety of means of delivery, including multiple instructors, discussion sections, technological support, and enrichment activities. Pathways courses strive to meet many of the ten approved goals of General Education, but especially Goal 1 (communication and reasoning), 2 (critical thinking), 3 (independent and collaborative work), and 6 (intellectual curiosity for lifelong learning).

Listed below are courses offered in the Fall of 2001 which have been approved as Pathways courses by the Faculty Senate committee on General Education. (see <http://www.udel.edu/pathways>)

Approved Pathways Courses

ANSC 270 010 & 080	BioTech: Science and Socioeconomic Issues	Griffiths
BISC 104 010-013 & 015-018	Principles of Biology	Allen and Fifield
CGSC 270 010-012 & 080	Introduction to Cognitive Science	Frawley
CNST 110 010	A Visual World	Hethorn
HESC 155 010	Personal Health Management	Abraham
IFST 267 010 & 080	Relationships	Sherif
MUSC390 082/ENGL391 082	Otello and Othello	Peterson and Potter
GEOG390 080	Perspectives on Migration	Schreuder
WOMS 201 010 & 011	Introduction to Women’s Studies	Cherrin and Turkel

University Honors Program

HONORS COURSES & OTHER OPPORTUNITIES

Honors courses are open to any qualified undergraduate on a space-available basis. Students who did not enter the University through the Honors admission process qualify with a 3.00 or higher UD grade point average. Registration priority is given to those needing a particular course to satisfy requirements for one of the forms of Honors recognition.

Honors courses are offered in many disciplines and colleges. Most feature small class size, individual attention, and creative approaches to course content. Look for 080 section numbers. "HNRS:" is in the course title, a designation that will appear on your transcript. Special booklets describing Honors courses in Fall and Spring Semesters are available in the Honors Center and Honors Program offices (180/186 S. College Ave.) and at various other campus locations.

FORMS OF HONORS RECOGNITION

Advanced Honors Certificate

Open to any student in any major, through the class of 2003. Requires 21 Honors credits, including a one-credit Honors forum, beginning with the second year, a 3.00 GPA, and residence in first-year Honors housing.

General Honors Award

Available for freshman Honors admits to the University, Class of 2004 and after. Requires 18 Honors credits in the first two years of University study, 12 in the freshman year, a 3.00 GPA, and residence in first-year Honors housing.

Honors Foreign Language Certificate

Requires study abroad, specific courses, and a 3.00 GPA.

Honors Degree

Available in over 80 majors. Requires 30 Honors credits, 3.4 GPA, and senior thesis.

Undergraduate Research Program

University faculty accept undergraduates as their assistants or junior members of their research teams in the belief that unusually well-motivated students should be given the chance, while they are still beginners, to see and have a part in what is happening at the frontiers of knowledge.

The Undergraduate Research Program helps interested students and faculty to meet and discuss apprenticeship possibilities. Most students earn academic credit for the apprenticeships; qualified work-study students may earn grant money doing research. About 120 stipends of \$3000 are available for full-time summer undergraduate research. Projects are available in all University departments and areas of research. The Undergraduate Research Program also administers the senior thesis program for the Degree with Distinction and Honors Degree with Distinction. For further information, see <http://www.udel.edu/UR>. For assistance in locating a project, visit the Undergraduate Research Program, 188 Orchard Road, (phone 302-831-8995).

Study Abroad Opportunities

University of Delaware credits are earned while participating in these overseas study programs.

International Programs and Special Sessions (IPSS), the Department of Foreign Languages and Literatures (FLL) and a wide variety of other academic departments offer year-round overseas study opportunities for credit. Courses are taught in English, except as noted.

Fall Semester Programs:

Applications due: **early April**

- London, England (IPSS)
- Paris, France (FLL); all courses taught in French
- Granada, Spain (FLL); all courses taught in Spanish

Spring Semester Programs:

Applications due **October 12**.

- San José, Costa Rica (IPSS, FLL, Environmental Studies, and Latin American Studies); SPAN and HIST courses taught in Spanish
- London, England (IPSS)
- Paris, France (IPSS); FREN courses taught in French
- Bayreuth, Germany (FLL); all courses taught in German
- Siena, Italy (FLL); ITAL courses taught in Italian
- Granada, Spain (IPSS); SPAN courses taught in Spanish

Summer Session Programs:

Applications due **March 15**

- Paris, France (FLL and Music Dept.); FREN course taught in French
- London, England (various departments)
- Kobe, Japan (FLL); most courses taught in Japanese
- Granada, Spain (FLL); some courses taught in Spanish
- Chur, Switzerland (IPSS)

Additional programs expected; contact IPSS

Winter Session Programs are sponsored by various departments

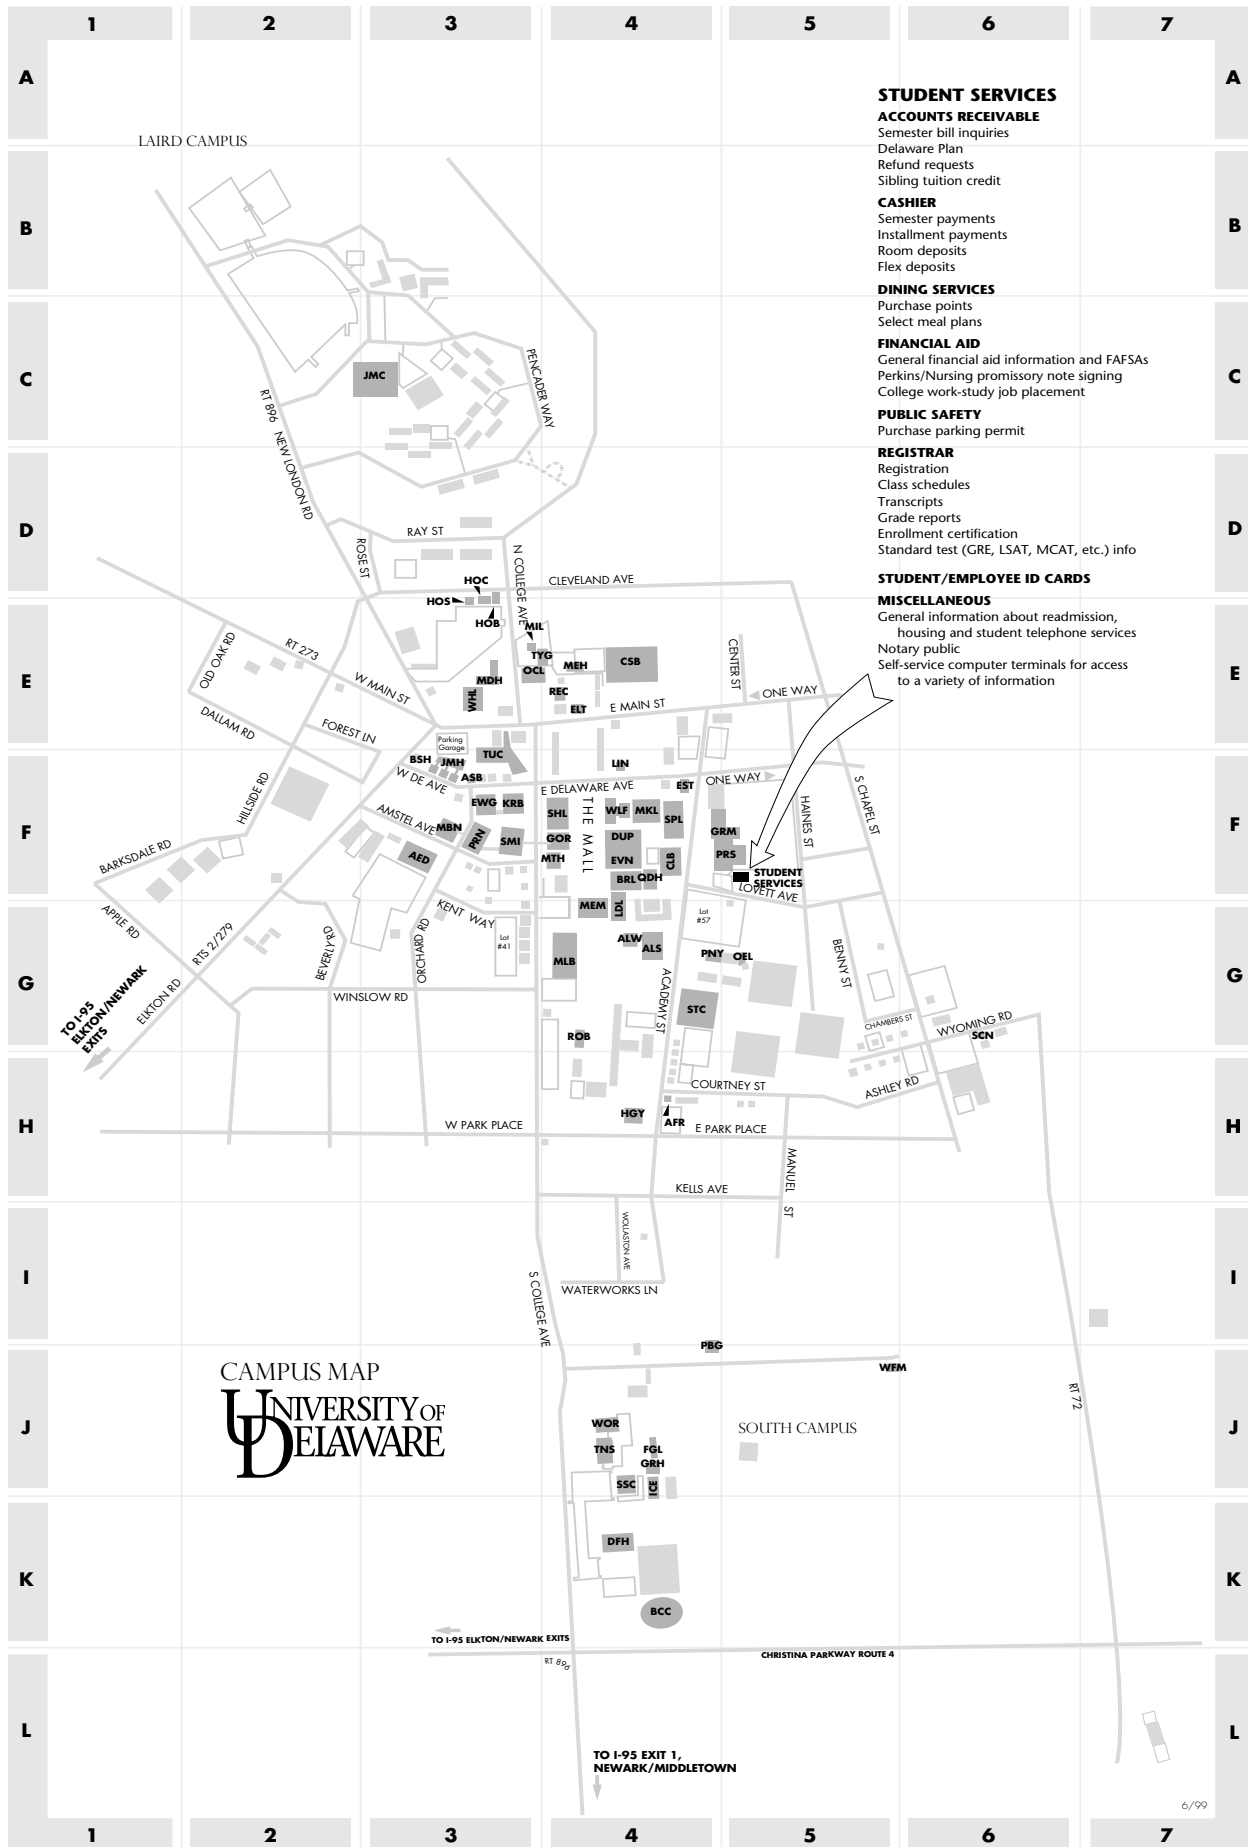

Applications due: **October 5**

STUDY ABROAD MERIT SCHOLARSHIPS: available for programs listed above.

NEED-BASED SCHOLARSHIPS: Also available for programs listed above are Nields and Starr Study Abroad Scholarships, awarded based on financial need and academic merit. These awards cover between \$1,000 and a full program fee for 40-50 students per year. For information on Scholarships, check out the website at www.udel.edu/studyabroad/scholarships.

For more information about these programs, visit www.udel.edu/studyabroad or contact IPSS (831-2852; studyabroad@udel.edu) or FLL (Courtney Bradley, FLL Study Abroad Coordinator; 831-6458; court@udel.edu). Internships are offered on a limited basis through the London program during the fall and spring semesters and through the Bayreuth spring semester.

IPSS also offers a number of exchange programs at other institutions including Jönköping Institute for Business Studies (Sweden), Université de Lyon II (France), Hankuk University of Foreign Studies (Korea) and others. Credits earned on these exchange programs may be transferred to UD. The University also participates in The Denmark International Study Program (DIS).

UD ONLINE/DISTANCE LEARNING

The University's UD Online/Distance Learning program allows you to take University of Delaware courses using a variety of technologies. A detailed description of course formats is listed below. The course listing section of this registration booklet indicates the course formats for specific courses. Exams are proctored at various University sites throughout the state. Students will receive an exam schedule indicating exam times and locations. Students who are unable to come to a University of Delaware site must arrange for an exam proctor, following guidelines provided by the UD Online office. Course requirements for Distance Learning classes are the same as for on-campus courses. Students are able to contact their instructors throughout the semester for assistance. Participation in a Distance Learning course does not affect a student's classification, and there is no distinction on student transcripts between on-campus and Distance Learning courses. For more information, please visit the UD Online website at: www.udel.edu/ce/udonline.

REGISTRATION

Students register through Continuing Education as an individual or as a participant at an official work site or community college site. Students cannot use UDPHONE, or the World Wide Web to register, drop, or make changes to UD Online courses. Call the UD Online/Distance Learning office at (302) 831-1053 for information and UD online registration and payment forms. Forms are also located at the following website in a printable format: www.udel.edu/ce/udonline. UD Online classes are limited in size to allow faculty the opportunity to provide personal attention. Many popular classes fill quickly. Early registration is advised.

Important Advance Registration Information: Those students who register during the University's Advance Registration Period which begins April 16, are not required to pay at the time of registration, but are still required to complete the UD Online registration forms. Payment for advance registrations are due by August 1, 2001. **If payment is not received by August 1, 2001, the student's request for a distance learning class will be canceled.** Should those students wish to enroll again, they must register in person at Clayton Hall room 108, or at the nearest Continuing Education ACCESS office.

Students who do not register during the Advance Registration Period are required to complete the UD Online registration forms and pay at the time of registration.

FULL TIME MATRICULATED STUDENTS

If you are a full time matriculated student, you must obtain permission from your Academic Advisor to register for a UD Online course. Academic Advisors must email permission for their advisees to Mary Pritchard, Director UD Online and Ann Lopata, Coordinator of ACCESS Centers. Their email addresses are: maryvp@udel.edu and lopata@udel.edu. For additional information regarding full time matriculated students registering for a distance course, please visit www.udel.edu/ce/udonline_full_time.shtml

ACADEMIC CALENDAR

Beginning Fall 2001, the UD Online academic calendar matches the University campus schedule with the exception of final exam dates. Final exams for distance learning courses will be held on Monday, December 10, 2001. Please refer to the beginning of this booklet for important Academic Calendar dates.

UD ONLINE COURSE FORMATS:

Please see the course listing section of this booklet for format availability per each distance learning course.

INTERNET:

- **Web-based:** Web-based courses are developed and delivered entirely on the Internet in text version. Course syllabi and assignments are posted on the Web. Students communicate with faculty and classmates using electronic mail, newsgroups and/or chatrooms. In some courses, a CD-ROM supplements the Internet course material. Students need a Windows or Macintosh computer and an Internet connection.
- **Web-classroom:** Videostreaming and synchronized Power Point presentations allow students to see and hear actual faculty lectures, review notes and link to related resources online. These lectures are stored on the University server and may be accessed throughout the semester. A more powerful computer and higher speed Internet connection may be required for optimum course access. For details, please see the web page: www.udel.edu/ce/techs.html. It is necessary for you to test your computer and Internet connection in order to assure your accessibility. Please note that if you are taking a Math or Engineering course, a high speed Internet connection is required. In order to test your connection, Web-classroom demonstrations are available at: <http://www.udel.edu/UMS/itv/demo> (If you are interested in a Math or Engineering course, please select one of those courses to test.)
- **CD-ROM:** The CD-ROM format is similar to the Web-classroom format, but offers students the choice of using a CD-ROM rather than relying on an Internet connection to access the course lectures. Please note that access to the Internet is still required, as supplemental course materials, resource links, email and web-based assignments may be required by the instructor. Students return the CD-ROM at the end of the semester. Minimum requirement: 4x CD-ROM drive.
- **Web-enhanced Videotape:** Courses offered by University faculty are taught in specially equipped video classrooms. Each lecture is videotaped in an unedited fashion and tapes are shipped to students at their work site, community college, or home. The videotapes are augmented with Web assignments, class notes, and student/faculty online interaction using electronic mail, newsgroups, and/or chatrooms. Internet connection is required. Individual students pay a \$90 per course videotape handling fee in addition to their tuition. Tapes are returned at the end of the semester.

VIDEOTAPE:

Courses offered by University faculty are taught in specially equipped video classrooms. Each lecture is videotaped in an unedited fashion and tapes are shipped to students at their work site, community college or home. Individual students pay a \$90 per course videotape handling fee in addition to their tuition. A select number of videotape courses may require Web access. Tapes are returned at the end of the semester.

PRINT-BASED:

A hardcopy study guide or manual is the student's guide to reading assignments and preparing and submitting work to the faculty coordinator. Web access is not required.

FINAL EXAMINATION SCHEDULE

Fall Semester (01F)

The final examination schedule is based on the published first meeting day and hour of the lecture. Exams for courses that have both lecture and laboratory, or lecture and discussion period will be scheduled according to the start time of the lecture. These exams should follow the schedule printed below. However, changes may be made to this schedule due to time conflicts when scheduling final exams. Please refer to the final exam webpage in early October for the finalized exam schedule.

Multi-section courses that request a common exam or courses that require a three-hour exam do not follow this schedule. The dates and times for these exams will be announced by the instructors in early October. Common exams are given December 7, 10-14.

LECTURE MEETING DAY	LECTURE START TIME	EXAM DATE	EXAM TIME
MON or WED or FRI	8:00 AM	DEC. 13	1:00 PM - 3:00 PM
MON or WED or FRI	9:05 AM	DEC. 11	1:00 PM - 3:00 PM
MON or WED or FRI	10:10 AM	DEC. 10	10:30 PM - 12:30 PM
MON or WED or FRI	11:15 AM	DEC. 7	1:00 PM - 3:00 PM
MON or WED or FRI	12:20 PM	DEC. 14	1:00 PM - 3:00 PM
MON or WED or FRI	1:25 PM	DEC. 14	10:30 AM - 12:30 PM
MON or WED or FRI	2:30 PM	DEC. 10	1:00 PM - 3:00 PM
MON or WED or FRI	3:35 PM	TO BE ANNOUNCED	3:30 PM OR LATER
MON or WED or FRI	4:40 PM	TO BE ANNOUNCED	3:30 PM OR LATER
MON or WED or FRI	5:00 PM	TO BE ANNOUNCED	3:30 PM OR LATER
MON	7:00 PM	DEC. 10	7:00 PM - 9:00 PM
WED	7:00 PM	DEC. 12	7:00 PM - 9:00 PM
TUES OR THURS	8:00 AM	DEC. 12	1:00 PM - 3:00 PM
TUES OR THURS	9:30 AM	DEC. 13	10:30 AM - 12:30 PM
TUES OR THURS	11:00 AM	DEC. 11	10:30 AM - 12:30 PM
TUES OR THURS	12:30 PM	DEC. 7	10:30 AM - 12:30 PM
TUES OR THURS	2:00 PM	DEC. 12	10:30 AM - 12:30 PM
TUES OR THURS	3:30 PM	TO BE ANNOUNCED	3:30 PM OR LATER
TUES OR THURS	5:00 PM	TO BE ANNOUNCED	3:30 PM OR LATER
TUES	7:00 PM	DEC. 11	7:00 PM - 9:00 PM
THURS	7:00 PM	DEC. 13	7:00 PM - 9:00 PM

JAPN209	INTERMEDIATE SITUATIONAL JAPN		
JWST208	INTRODUCTION TO JEWISH PHILOSOPH		

CATALOG SUPPLEMENTAL COURSE DESCRIPTIONS

This section is the supplement to the current undergraduate and graduate catalogs.
Courses not found nor fully described in the 2001-02 catalog are printed here.

ANTHROPOLOGY

ANTH 367-010 THE ARCHAEOLOGY OF THE ORIGINS OF AGRICULTURE

Surveys the archaeological record of the transition from hunting and gathering to farming societies. Examines both the archaeological evidence of this transition and theories of its causes and consequences. Includes food production and alternatives, transition to food production and social impacts of agricultural life. Adopts a broad anthropological perspective.

ANTH 390-080 HNRS COLQ: INTERPRETING THE PAST

Considers the different perspectives applied to learning about the past. Begins with how individuals remember their personal experiences as well as those of their families. Then how political agendas and cultural affiliation can affect interpretations of documented history. Finally, considers the varying interpretations that archaeologists can derive from their analyses of material remains.

ART HISTORY

ARTH 606-010 STDS: FRANKISH MANUSCRIPTS

Focuses on manuscripts decorated in the Frankish kingdom. Special attention will be given to historiographical issues, and to the study of individual original manuscripts. Reading knowledge of French and/or German and willingness to make three all-day Friday field trips are required.

ARTH 614-010 STDS: ALBERTI

Investigates the life, career, and writings of the most influential theorist of Quattro cento Italy. Topics include: humanism, Alberti's patrons, Early Christian revivals, the role of the antique (Vitruvius, archeology, etc.) fame, ideal cities. Students may work on topics related to painting, sculpture, theory, or architecture.

ARTH 616-010 STDS: CARAVAGGIO

Investigates the life, art, and historiography of the most enigmatic painter of the Italian Baroque. Topics include: homoeroticism, studio practice, rejected works, criminality and exile, self-portraiture and still life.

ARTH 623-010 STDS: MODERNISM 1900: SYMBOLISM

A study of symbolism in the visual arts, including case studies of individual artists and writers; symbolist theory and criticism, and interactions between literary and visual symbolism. A focus on France and Belgium, but students may research topics outside this context.

ARTH 636-010 STDS: THOMAS EAKINS

This seminar will explore the work of Eakins in relation to issues of realism, modernity, science, social identity, and Gilded Age culture. It will take advantage of a major retrospective held concurrently at the Philadelphia Museum.

BLACK AMERICAN STUDIES

BAMS 440-011 HISTORY OF AFRICAN AMERICAN ART

A chronological overview of art by African Americans from the early 18th century to the end of the 20th century. Examines work from the context of the African American experience and its contribution to art of the U.S.

BIOLOGICAL SCIENCES

BISC 104 PRINCIPLES IN BIOLOGY

Studies biological principles at molecular, cellular, organismal and ecological levels. Fosters biological literacy through the exploration of concepts, theories and methods in relation to topics, developments and controversies in biology that impact citizens' lives and require informed decision making.

BISC 300 INTRODUCTION TO MICROBIOLOGY

Major groups of microorganisms (algae, protozoa, fungi and bacteria) are studied. Emphasis is on the physiology, metabolism, diversity and interactions between and among each group and bacteria and their interactions with humans. Lab included.

BISC 367 GENERAL PHYSIOLOGY LABORATORY

The laboratory co-requisite for BISC-306.

BISC 403-010 GENETIC & EVOLUTIONARY BIOLOGY

The physical and chemical basis of heredity, the nature and mechanisms of gene action, genes in populations, speciation. Co-requisite for BISC 467.

BISC 467 GENETIC & EVOLUTIONARY BIOLOGY LABORATORY

The laboratory co-requisite for BISC-403.

BISC 467/667-045 DEVELOPMENTAL NEUROBIOLOGY

Covers the developmental biology of the nervous system. Includes basic structure of the nervous system, cellular components of nervous tissue, neural induction, neurogenesis, neuronal migration, determination, axon path finding, synapse formation, programmed cell death, neurotrophic factors, and critical periods. Covers neural development at the levels of molecules, cells, and systems.

BISC 618-010 COMPUTER IMAGING IN BIOLOGY

Principles and methods of computer image processing as they apply to biological images. Laboratory provides hands-on experience prompted by prepared tutorials. Students develop their own projects and present them as posters or other formats.

BISC 665-010 ADVANCED MOLECULAR BIOLOGY AND GENETICS

Presents concepts and approaches regarding our current understanding of molecular biology and molecular genetics in eukaryotic organisms. The course is team taught and requires a solid background in biochemistry, cell biology and introductory molecular biology.

BISC 667-012 BACTERIAL EVOLUTION

Objectives include: understanding proposals for the origin of life and the formation of the earliest cell types; principles of bacterial taxonomy, both historical and modern; selected examples of current topics, some controversial, in bacterial evolution.

CHEMICAL ENGINEERING

CHEG 867-010 CHEMICAL ENGINEERING PRINCIPLES

Examination of Chemical Engineering Principles from an applied mathematics point of view. Uses prototype problems to show the usefulness of applied mathematics. A unified mathematical framework of linear algebra, partial differential equations, and modeling concepts emerges to formulate and solve such problems. Introduces available software for the numerical or symbolic solution of more complex problems.

CHEG 867-011 MOLECULAR AND CELLULAR ENGINEERING

Central fundamental interactions in biology are addressed from an engineering perspective, focusing on understanding the nature of the systems and using molecular approaches to interpretation of experimental observations.

CHEMISTRY

CHEM 667-010 DNA-PROTEIN INTERACTIONS

Discussions of current topics in DNA-Protein interactions that focus on DNA recombination, DNA damage repairs, and DNA replication.

CHEM 667-011 INTERFACE RESEARCH: CHEMISTRY/ BIOLOGY

Consists of research experiences in each of three laboratories chosen to represent different research areas within Biochemistry, Molecular Biology, Bioanalytical Chemistry, Bio-organic Chemistry, Computational Chemistry, Biochemical Engineering, Bio-inorganic Chemistry, Protein Crystallography, and Agricultural Biochemistry and Virology.

CHEM 667-012 GREEN CHEMISTRY

Green chemistry avoids pollution by utilizing processes that are benign by design. Provides an up-to-the-minute view of the emerging field, including substitutes for phosgene, isocyanates, liquid acids, toxic heavy metal ions chlorinated compounds and pesticides. Novel separation techniques, waste reduction, and recycling are also covered.

CIVIL ENGINEERING

CIEG 367-010 PROBABILITY AND STATISTICS FOR ENGINEERS

Deals with basic concepts of uncertainty modeling, data analysis, statistical inference and decision-making in the presence of uncertainties. Includes set operations, probability, Bayes' theorem, random variables, common probability distributions (discrete and continuous), joint distributions, functions of random variables, data reduction, testing of hypotheses, regression analyses and introduction to probability-based design and Monte-Carlo simulation. Prereq: MATH 242 AND MATH 243.

CIEG 467/667-013 CIVIL INFRASTRUCTURE SYSTEMS

Provides students with theory and principles of civil infrastructure management system. Introduce students to AASHTO guidelines in asset management, discuss resource requirements and the importance of institutional issues in infrastructure management systems decision making.

CIEG 667-014 FOUNDATION AND GEOTECHNICAL ENGINEERING DESIGN

Presents a graduate level introduction to practical design and construction related to the following topics: Subsurface investigations and laboratory testing, stability and settlements of soil slopes and embankments, shallow foundations, and deep foundations.

CIEG 865-013 SEM: EMERGING METHODOLOGIES FOR CIVIL AND ENVIRONMENTAL ENGINEERING ANALYSIS

Discusses different emerging methodologies that are applicable to civil and environmental engineering analysis. Includes approach to modeling large scale systems, optimization, soft computing, treatment of uncertainty, simulation, estimation of extremes, finite element method, and decentralized approach. Experts both within and outside the department will give lectures.

COMPUTER SCIENCE

CISC 367-010 EMBEDDED SYSTEMS

How to program embedded systems (game devices, data transmission devices, etc.), given the special needs created by their environment. Target microprocessor: MIPS R3000, testing environment: IDT/sim PROM System Development Kit. Students will write an Exception Handler as part of a final project. Prerequisites are: CISC260 and CISC 360, and a knowledge of C.

CONSUMER STUDIES

CNST 267-010 ANALYSIS OF CONSUMER DISABILITY ISSUES

Introduction to consumer issues for people with disabilities. How definitions of disability shape public policy and the delivery of goods and services will be analyzed. Topics will address access to housing, transportation, education, employment and other aspects of community living.

CNST 367-010 CIVIL RIGHTS LEADERSHIP AND LAW

Examines the American Civil Rights Movement from 1900 through 1965. Explores the evolution of the legal, political and social status of African-Americans from the era of state-sponsored segregation through the enactment of the Civil Rights Legislation of the 1960's. Determines how leaders were able to effectuate reforms despite circumstances that were arrayed against them.

COMMUNICATIONS

COMM 418/618-010 TPCS: MEDIA ETHICS & ACCOUNTABILITY

An examination of the role(s) that mass media are expected to fulfill in society, and of the various ways for holding media accountable for meeting those responsibilities.

COMM 418-011 TPCS: BROADCAST PROGRAMMING

Examines the principles and strategies of programming for broadcasting and cable. General topics include: audience feedback; network and local programming; syndication and specialized programming.

COMM 425-010 ADV TPCS: HIST TV DOCUMENTARY

We excavate some of the best investigative TV news documentaries of the 1950's, 1960's and 1970's, which exposed political and social problems to a mass audience, to discover why they were made, why they were influential and why they're no longer on today's broadcasting agenda.

COMM 618-011 TPCS: SOCIAL IMPACT & COMM TECHNOLOGY

This seminar considers the social and psychological effects of new communication technologies (e.g., the WWW, email, videogames, distance learning, digital video). The course will focus on the application of communication theory to understanding the impact of new media.

COMPUTER ENGINEERING

CPEG 467-010 COMPUTER NETWORK SECURITY

Surveys current topics in computer network security, including technology to protect networks and hosts against intrusion, theft and denial of service. Includes security models for networks, servers and clients, and cryptographic algorithms for authentication, privacy, digital fingerprint and digital signature. Includes network and system security protocols and the protection of electronic cash transactions. Prereq: CISC361 or permission of instructor.

CRIMINAL JUSTICE

CRJU 167-010 DIMENSIONS OF JUSTICE

Surveys approaches to justice studies across a broad range of academic disciplines. Using a Problem Based Learning format, emphasizes a cooperative approach to the development of skills essential to making informed decisions about future studies and career choices in justice related fields.

CRJU 367-010 EXPLORING CRIMINAL JUSTICE

Looks at the evolution of criminal justice in the 20th century. Examines the past in an effort to understand the meaning of crime, justice, and the human condition.

ECONOMICS

ECON 367-010 ECONOMICS OF FAMILY BUSINESS

Enables students to apply economic reason to some of the issues unique to family business - the role of entrepreneurship, family issues, the dynamic of changing markets, and the next generation.

EDUCATION

EDUC 667-415 INQUIRY RESEARCH ELEM GRADES

A study of using inquiry research as a tool to teach informative reading and writing in the primary classroom. Emphasis is on strategies needed to read and write informative text, integrating content learning with reading and writing and the skills needed to conduct inquiry research.

EDUC 867-010 LEARNING AND TEACHING MATHEMATICS

Focuses on the core issues involved in learning and teaching mathematics, including setting learning goals for students, theories of learning and teaching that address achievement of various goals, and changes in students' thinking that characterize learning in different mathematical domains.

EDUC 867-011 CHILD NEUROPSYCHOLOGY

Covers the essentials of neuropsychological methods in childhood. Topics include functional neuroanatomy and development, acquired brain injury and aspects of intervention including an overview of pharmacologic approaches and inventions used in educational settings.

EDUC 867-012 CRITICAL FEMINIST APPROACHES TO ACTION RESEARCH

Using both critical and feminist theory as a framework, investigates ways to integrate research with efforts for social change in classrooms, schools, and communities. Identifies issues and research projects critical to their own practice and to building educational research and practice that is relevant to the empowerment of communities.

EDUC 867-013 META-PERSPECTIVES ON THE STUDY OF SCHOOLING

Focuses on the nature of research on schooling, its purposes its support within educational institutions and the general public, and its impact on the way schools operate. Students work with a local school (The College School) and the empirical, philosophical, and historical literature on research and schooling.

ELECTRICAL ENGINEERING

ELEG 367-010/011 DIGITAL PHOTOGRAPHY AND TECHNOLOGY

If interested in or if using digital photography, learn both how's and why's. Section 010 requires knowledge in college physics and a good working skill in college algebra. Cannot be used as a technical elective for electrical /computer engineering students.

ELEG 419/619-010 MULTIMEDIA COMMUNICATION

Covers the theory and principles of multimedia communications, including data compression, CD-ROMs, multimedia networking and standards (JPEG, MPEG, H261, H263, RTP, etc.)

ELEG 467/667-011 MICROELECTRONICS: SCIENCE & TECHNOLOGY

Introduces the science, processes and current trends in the art of microelectronic technology. Presents the science of the fabrication processes in silicon, GaAs and SiC technologies. The progressive transition from micro-electronics to nano-electronics is presented using the current edition of International Roadmap for Semiconductors (ITRS) and latest publications. Presents a brief introduction to micro- and nano-electromechanical systems.

ELEG 467/667-013 MICRO-ELECTRO-MECHANICAL SYSTEMS (MEMS)

Provides a multi-disciplinary overview of silicon based MEMS technologies for students from all areas of science and engineering disciplines. Design, fabrication and packaging of MEMS will be thoroughly explored with illustrative examples.

ELEG 648-010 ADVANCED ENGINEERING ELECTROMAGNETICS

Focuses on the development and application of Maxwell's equations as they apply to the analysis of guided wave, radiation, and scattering problems. Topics covered include wave propagation, reflection and transmission, vector potentials, transmission lines and cavities, and special emphasis on antennas and scattering structures.

ELEG 667-010 DISCOVERY INFORMATICS I

Examines the basic principles and methodology in algorithm/system design and implementation for the emerging field of discovery informatics - such as, Bio-informatics, Med-informatics and Finance-informatics. Focuses on the application of discovery informatics to molecular biology, however, the topics covered have a much broader applicability.

ELEG 667-012 PHYSICAL DESIGN OF INTEGRATED CIRCUITS

Provides a link between the IC fabrication and VLSI design courses. Focuses on methods for managing the enormous complexity of integrated circuit designs, and on the interaction between fabrication methods and CAD layout tools. Students will be assigned case studies to be analyzed using MATLAB based software running on real netlists.

ELEG 833-010 NONLINEAR SIGNAL PROCESSING

Covers the fundamental theory and applications of nonlinear signal processing. Includes stable random processes, order statistics, fractional lower order statistics, maximum likelihood estimation and the filtering problem, weighted order-statistic filters, medianization of linear FIR filters, myraid filters, and adaptive optimization of nonlinear filters. Covers digital imaging and video, digital communications, and time-frequency analysis. Prerequisite: Statistical digital signal processing

ELEG 840-010 ADVANCED COMPUTATIONAL ELECTROMAGNETICS

Focuses on the development and application of the finite-difference time-domain method to the solution of Maxwell's equations. Applications to guided wave, radiation and scattering problems will be addressed. Topics discussed are sources, absorbing boundaries, propagation, symmetries, and multiple coordinate systems.

ELEG 867-010 NANATECHNOLOGY

Reviews experimental research into nanotechnology, nanostructures, and mesoscopic devices, and develops a framework for understanding their behavior.

ENGLISH**ENGL 413-410 TPCS: SCIENCE WRITING**

Explores science communication by dissecting case studies from microcosmic fields like genetics and molecular biology to macrocosmic ones like optics and astrophysics. With a supplementary writing guide, prepares documents that communicate scientific and technological information; our genre vary from descriptive pieces for lay audiences to publication manuscripts for professional societies.

FOOD AND RESOURCE ECONOMICS**FREC 667-010 GIS TECHNICAL CONSULTANT**

Students with prior experience in geographic information systems receive supplemental training in selected GIS topics and provide technical consulting to problem-based learning teams of students in FREC 480, FREC 682 or GEOG 471/671.

FRENCH**FREN 467-010 ADVANCED COMPOSITION AND GRAMMAR**

Includes both intensive writing practice and a systematic grammar review (tense use, subjunctive, participles, etc.). Students will read French texts as models, write regular short compositions and work with each other correcting mistakes and improving style. Opportunity to address individual questions or problems. Counts as a 400 level language course for majors.

HEALTH AND EXERCISE SCIENCES**HESC 167-010 BACKPACKING AND BACK COUNTRY TRAVEL**

Introduces skills and knowledge necessary for camping and travel in remote areas. Topics include dressing to conserve energy, equipment, low impact camping, cooking and nutrition, safety and first aid, navigation and route selection and weather. A weekend trip will be planned and conducted.

HESC 167-011 BEGINNING ROCK CLIMBING

Introduces skills and knowledge necessary for basic rock climbing, including physical conditioning, climbing technique, belaying, safety, and outdoor ethics. Emphasis on developing skills for lifetime participation in this outdoor fitness activity.

HESC 267-010 ADVENTURE CHALLENGE - LEADERSHIP AND ACTIVITIES

Introduces the concepts of adventure challenge education; a learning process providing intrinsic and extrinsic learning opportunities for individuals and groups. Activities are analyzed and practiced, demonstrating that through appropriate leadership, group and individual goals can be attained.

HESC 667 -010 SEMINAR IN BIOMECHANICS

Critical analysis of selected papers from the scientific literature on human biomechanics, with topical areas chosen to provide an appreciation the breadth of the field. Each student will also select a topic of interest for an in-depth review.

HISTORY**HIST 367-011 TWENTIETH CENTURY FRANCE**

Uses primary and secondary sources to explore France's often turbulent 20th century history. Attention given to conflicts which have shaped French society, such as the Dreyfus Affair, the First World War, the Nazi occupation and the Vichy regime, the war in Algeria, the 1968 student riots, and post-war immigration.

HIST 367-012 MODERN JEWISH HISTORY

Covers the period from mid-19th century rebellions in Europe. Focuses on the Jewish role in the idealist and often utopian movements, the middle class, increasing anti-Semitism, and the rise of the Zionist movement. Continues through the two World Wars and the foundation of Israel, through the Yom Kippur War and the treaty between Israel and Egypt.

HIST 367-410 FDR, THE GREAT DEPRESSION, AND THE NEW DEAL

Provides an in-depth look at American political, social and economic history from the stock market crash of 1929 to World War II. Investigates and discusses: labor and the rise of the CIO; consumerism; the influence of Eleanor Roosevelt; crime waves; racial dynamics; American Communism; European influences on social policy; populists and demagogues; and, foreign policy, preparedness and isolationism.

HIST 411-010 SEM: THE HISTORY OF MODERN AMERICAN BUSINESS

Examines the ways in which business and business leaders have played a central role in American life. Explores the development of America's consumer culture, American business abroad, the role of foreign business activities in the U.S., and how McDonalds, Disney, and the Mall came to be our ubiquitous national symbols.

HIST 411-011 SEM: LOOKING LOCALLY, THINKING GLOBALLY

Uses Delaware as a case study for the major issues that have confronted America since the Civil War. Through readings and primary research students will examine topics such as race relations, technological change, the rise of national and international corporations, tourism, and land-use patterns.

HIST 411-012 SEM: NATIVE AMERICAN ACTIVISM IN THE 20TH CENTURY.

Examines the tortuous road from colonial status to self-determination among Native Americans during the 20th century. Examines Indian issues within the larger context of federalism and states rights policy shifts, focusing on the post World War II era. Films and speakers focus on particular Indian communities.

HIST 411-013 SEM: THE NIGHTMARE YEARS 1960-1980

Focuses on American life from the rise of John F. Kennedy to the fall of Jimmy Carter. Focuses on political, social, and diplomatic developments of the period - JFK and American foreign policy (the Bay of Pigs, the Cuban Missile Crisis, Vietnam); LBJ's Asian crusade, the Black Revolution of the 1960's, the youth rebellion and Watergate.

HIST 411-014 SEM: JEFFERSON AND HIS TIME

Examines the life of Thomas Jefferson, covering his early years, his political career and presidency, and his retirement at Monticello. Focus on Jefferson's writings and on modern scholarship concerning the central historical problems of his life, including his role in the Revolution, his political and social thought, his family and private life, his role in American expansion, his position on slavery, and his influence as a figure of power.

HIST 471/671-440, 471-080 SEM: BUILDING CATHEDRALS AND CASTLES

Research seminar in which every student will work intensively on some aspect of the history of some great building. Although we will look closely at some medieval cathedrals in particular, students will be able to work on more modern buildings as well, e.g., the National Cathedral.

HIST 474-010 SEM: ENGLISH HISTORY

Political, constitutional, social and economic development to 1715.

HIST 479/679-430 SEM: THE VIETNAM WAR

Using lectures, discussion, video, and CD music, this course explores the causes, course, and consequences of the Second Indochina War, 1960-1975 (i.e., the "Vietnam War").

INDIVIDUAL AND FAMILY STUDIES**IFST 310-010 PARENTING THROUGH THE LIFESPAN**

Applied focus on parenting styles, roles, issues, and goals through the life span. Examines parent diversity, interfaces with schools and community, resources, theoretical perspectives, and developmental needs of children and parents.

IFST 390-080 FAMILIES IN GLOBAL PERSPECTIVES

Interdisciplinary approach to understanding family life across the world, the impact on families in the United States, the heritage of other cultures and influence of current international events. Study of families in comparative cultural terms and issues of family policy that span across national interests. Addresses international organizations and initiatives shaping family life and opportunities and the status of family research and theory across societies.

LEGAL STUDIES**LEST 367- 010 LANGUAGE AND THE LAW: COURT INTERPRETATION IN THE UNITED STATES.**

Examines public policy development as well as constitutional and statutory provisions for appointment of interpreters at both the federal and state levels; ethical considerations and linguistic challenges; and potential effects of the U.S. English Organization's efforts to make English the Official Language of the U.S. on court interpretation services.

LINGUISTICS**LING 367- 010 LANGUAGE AND THE LAW: COURT INTERPRETATION IN THE UNITED STATES.**

Examines public policy development as well as constitutional and statutory provisions for appointment of interpreters at both the federal and state levels; ethical considerations and linguistic challenges; and potential effects of the U.S. English Organization's efforts to make English the Official Language of the U.S. on court interpretation services.

MARINE STUDIES**MAST 667-010 MARINE ETHNOBOTANY**

Explores the use of indigenous marine plants by human coastal cultures for food, medicine, fabrics, shelter, chemicals, fuel, and other needs. Analyzes plant features that result in useful products. Examines characteristics of the relationships between human groups and coastal plants that make the associations sustainable.

PLSC 367-011 WEED SCIENCE: PRINCIPLES AND**MAST 667-011 MARINE TRANSPORTATION POLICY**

Provides an overview of marine transportation policy and develops analytical techniques in the contexts of local, national, and international perspectives. Topics include: maritime transportation technology and projected fleet development; overview of policy frameworks affecting trade, safety, and environment; quantitative analysis of shipping business economics under policy constraints.

MECHANICAL ENGINEERING**MEEG 467-010 TWO-PHASE FLOW AND PARTICLE TECHNOLOGY**

Modeling mass, momentum, heat transfer, and mixing in particle-laden flows, slurries, and bubbly flows. Particle separation, dispersion, agglomeration, transport and handling. Particle measurements and characterization.

MEEG 667-010 MATERIALOGRAPHY

Optical microscopy: reflected, transmitted and polarized light. Preparation of metals, ceramics, polymers, and composites for microscopic examination: mounting, polishing and etching. Macro and microstructures of typical engineering and other materials. Quantitative microscopy. Optical microscopy in failure analysis.

MEEG 867-010 PLANNING AND CONTROL OF DYNAMIC SYSTEMS

Overview of research methods in planning & optimization of dynamic systems using special underlying structures. Integrates tools from nonlinear systems theory, motion planning, & functional optimization to present new planning paradigms. Applications to robotics, aerospace, vehicles, controlled electromechanical systems, and manufacturing process.

MEEG 867-011 ADVANCED TOPICS IN DYNAMICS

Continuation of MEEG620, covers additional methods of analytical dynamics such as Lagrange equations (holonomic and non-holonomic systems), Kane's method, Hamiltonian formulation, Poincare's theorem, and other energy methods. Extract qualitative information of rigid-body motion, such as stability or long-term predictability. Applications to robotics, mechanisms, celestial mechanics, gyroscopic stabilization.

MUSIC**MUSC 267-080 HONORS FORUM: READING MUSIC, READING CULTURE**

A work of music is more than just a collection of sounds and more than a piece of music. It is a document of a culture and it can explain much about that culture. Examines a series of pieces that are reflective of particular persons, events, ideals or cultural structures.

MUSC 367-010 INTRODUCTION TO RECORDING

Covers history of recording and recording technology, recording techniques, which include hands on experience by the students, and the aesthetics of recording and its impact on music through the 20th century. The first semester class lays the foundation for further development of recording projects throughout the year.

PHILOSOPHY**PHIL367-010 TPCS: COMP. PHIL.: DEATH AND DYING**

Looks at various, cross-cultural philosophical approaches to death and dying. Concerns the idea that philosophy is a way of preparing for death, and that the good life is the one that ends in a good death.

PHIL 367-011 TPCS: TIME TRAVEL

Examines time travel in its own right, with particular attention to the various ways in which time travel is (or is not) possible. Also examines the connections with the philosophy of time and space, personal identity, freedom of the will, and theism.

PHIL 465-010 SR. SEM: NATURALISM

Research program involving using the methods of science, and those methods alone, in building one's philosophical theories. Explores some of the most convincing reasons for embracing philosophical naturalism and some of naturalism's most troubling consequences.

PLANT SCIENCE**PLSC 367-010 NURSERY PRODUCTION**

Two teams of students will plan, manage, produce and sell both container and field grown nursery stock. Each student will have a unique area of responsibility. Each team will select crops, propagate them and be responsible for all aspects of production, and cost accounting, including the sale of crops.

APPLICATIONS

Introduction to weed science focusing on applied weed management strategies. Topics include weed definition, herbicide application techniques, background on tillage equipment and cultural control methods, plant and soil system interactions with weeds, and the importance of biotechnology in weed management.

PLSC 367-080 HONORS: CHOCOLATE

What is it about chocolate that makes it so desirable, irresistible, universally appealing and yummy? Explores the deep, dark mysteries associated with the use of chocolate over the millennia. Includes origin, horticulture, chemistry, nutrition, properties or strictly for fun this may be the course for you. Weekly taste test!

PSYCHOLOGY

PSYC 367-010 INTRODUCTION TO NEUROSCIENCE

An interdisciplinary approach to the study of the nervous system. Deals with gross anatomy of the nervous system and the anatomy and physiology of nerve cells. Covers sensory and motor systems, neuroendocrine function, and the neural basis of behavior. Lab included. Prereq: PSYC 201, BISC 208, 2 semesters of Chemistry.

PSYC 367-011 INTRODUCTION TO NEUROSCIENCE LABORATORY

Includes a dissection of a sheep brain, implantation of an electrode into rat brain to map reward function, brain histology, electrophysiological recording to map somatosensory cortex in the rat, recording of the electroretinogram from the frog eye, and software and hardware simulating of neuronal activity. Must be enrolled concurrently in PSYC 314 or previously taken PSYC 314.

PSYC 467-010 BIOPSYCHOLOGY OF ANXIETY/DEPRESSION

Integrates behavior and biology to offer future theoretical and research directions for studying anxiety and depression. Explores neuroanatomy, pharmacology and behavior of anxiety and depression gleaned from experimental studies in both animals and humans. Animal models of anxiety and depression, and their relevance to the human condition will be emphasized.

PSYC 467-011 COGNITIVE NEUROSCIENCE

Examines the relationship between mind and brain. Modern neuroimaging techniques, and advances in cognitive psychology, open new ways to investigate the neural basis of perception, memory, language, and consciousness. Examines these approaches as well as those based on examination of patients with brain damage and neural net modeling.

PSYC 467-012 EMOTIONS AND PREVENTIVE INTERVENTION

Covers the development of emotions, emotion knowledge, and emotion regulation, their relations to adaptation and social behavior. Emotion-centered preventive intervention, including participation in an intervention program for children. Prereq: PSYC 350 AND PSYC 334 OR PSYC 380.

PSYC 467-013 PSYCHOLOGY OF EATING DISORDERS

Covers the study and treatment of disorders such as anorexia, bulimia, and obesity.

PSYC 467-080 HRS: SOCIAL MOTIVATION

Analysis of theory and research in the social psychology of motivation. Includes active student participation in research projects. Prereq: PSYC 309, and PSYC 303 or 390, and permission of instructor.

PSYC 867-010 INTELLIGENCE AND ACHIEVEMENT

Provides training in the administration and interpretation of the major intelligence and achievement tests used in the assessment of children and adults. Requires permission of instructor.

PSYC 867-012 CURRENT TOPICS IN NEUROSCIENCE

Discussion of current topics in neuroscience.

PSYC 867-013 CURRENT TOPICS IN SOCIAL PSYCHOLOGY

Discussion of current topics in social psychology.

PSYC 867-014 CURRENT TOPICS IN CLINICAL PSYCHOLOGY

Discussion of current topics in clinical psychology.

PSYC 867-015 CURRENT TOPICS IN COGNITION

Discussion of current topics in cognitive psychology.

PSYC 867-016 FIRST YEAR SEMINAR

Introduces students to a number of issues central to their development as psychologists. First and foremost, graduate students and colloquium faculty together discuss conceptual and methodological issues of faculty research programs. In addition, students discuss issues such as ethics, manuscript preparation, grant proposal preparation, and transitions to faculty status. Requires permission of instructor.

SOCIOLOGY

SOCI 467-010/667-011 SOCIAL ASPECTS OF RISK

Focuses on the sociological aspects of risk assessment and management by individuals, organizations and government agencies. While the majority of cases studied involve technological risks, the management of risks from natural hazards and from health risks is also covered.

SOCI 667-010 ENVIRONMENTAL SOCIOLOGY

Produces substantive and theoretical introduction to the major issues of Environmental Sociology. While focusing on issues associated with natural and technological hazard issues, course also looks at influences of the environmental movement and collective responses, and new emerging movements of ecofeminism and environmental justice.

SOCI 667-012 TEACHING IN THE SOCIAL SCIENCES

Primary objective is to stimulate interest in talk about teaching among faculty and graduate students in Psychology, Political Science and Sociology, each of which faces challenges in communicating our disciplines to undergraduates.

STATISTICS

STAT 667-010 APPLIED TIME SERIES ANALYSIS

Methods for modeling and forecasting time series, concentrating on the Box and Jenkins methodology. Emphasis is on the use of statistical time series computer packages and the ideas behind them. Studies include weather, astronomical, biological and economic time series. Prereq: some knowledge of calculus and a previous course in statistics or probability.

URBAN AFFAIRS AND PUBLIC POLICY

UAPP 667-010 REGIONAL WATERSHED MANAGEMENT

Reviews the practical applications of watershed planning as a tool to manage land, water, and ecosystem resources. Explores public policies and practices of watershed planning by examining case studies in water supply, water quality, drought, floodplain, and storm water management in the State of Delaware and the mid-Atlantic region.

UAPP 667-011 CONFLICT RESOLUTION

Combination of theory, skill building and practice. Provides effective communication and problem solving skills for individuals interested in de-escalating conflicts and creating win-win solutions. Students learn new ways of looking at and approaching conflict while gaining a better understanding of their own personal conflict management style and understanding how this transfers to the workplace.

UAPP 667-012 ADMINISTRATIVE LAW AND POLICY

Introduces basic concepts and rules of administrative law and an understanding of the legal issues affecting public and nonprofit organizations dealing with government agencies. Emphasis on administrative and social science issues. Special attention placed on the impact politics has on efforts by administrators to comply with administrative law rules and regulations. No prior legal training or command of legal language is necessary.

UAPP 667-013 QUALITATIVE METHODS FOR PROGRAM EVALUATION

Emphasizes the development of student skills in collecting qualitative data for program evaluation through such methods as observations, interviews, and document reviews. Topics include the philosophical underpinnings of qualitative inquiry, criteria for the quality of qualitative evaluation, and data analysis. Prereq: UAPP800, UAPP819, or UAPP 667.

UAPP 667-014 SUPERVISING A MULTICULTURAL WORKFORCE

Focuses on the changing workforce and the role of the supervisor in a culturally diverse workplace. Includes identifying bias and discrimination in employment; barriers to the full participation of minority groups in the employment system; and how the effective supervisor can open opportunities within the employment system and further a multicultural work environment.

UAPP 667-015 EFFECTIVELY MANAGING VOLUNTEERS

Provides an introduction and overview of the field of volunteer administration, explores the components of the effective management of volunteers and builds students' problem solving skills. Discussions include comparisons to the management of paid staff and the role of volunteerism in larger organizational structures.

UAPP 667-016 INFORMATION TECHNOLOGY IN THE PUBLIC & NONPROFIT SECTOR

Introduces students to the issues surrounding IT Infrastructure in the public and nonprofit sectors. Focuses on three themes that impact the adoption, implementation and evaluation of IT efforts: technology, policy, and administration.

UAPP 667-017 FUND DEVELOPMENT FOR NONPROFIT ORGANIZATIONS

Deals with fund development for nonprofit organizations. Includes how to manage and govern a nonprofit organization to have success in fund development.

UAPP 667-018 ENVIRONMENT, SOCIETY AND ENGINEERING

Reviews current environmental issues of global interest with an emphasis on scientific understanding of the problems and engineering approaches to them and how science and engineering perspectives may enhance or complicate policy making. Course will help students understand environmental problems from a multidisciplinary and holistic approach.

UAPP 685-010 PERFORMANCE MANAGEMENT

Focuses on managing for results and performance measurement at the level of the program or organization and on training & development for employees in order to achieve the desired performance results. Linking these two levels - the organization with the individual staff person -- will mark the most successful managers in today's environment.

UAPP 867-010 APPLIED HEALTH DEMOGRAPHY AND HEALTH STATISTICS

An intermediate level applied course covering vital statistics and demography, including rates and ratios, life tables, mortality, natality, age adjustment, survey analysis, regression techniques, (including logistic regression), and synthetic estimation for small geographic areas.

WOMENS STUDIES**WOMS 250-410 TPCS: INTERNATIONAL WOMEN'S STUDIES**

Examines the history of women in Asia and Africa emphasizing the experience of economic development and "modernization" and how this affects the status of women. Evaluates concepts of influence, power and authority of women in different cultures. Explores the phenomenon of women-heads-of-state, comparing the recent American experience with that of Asia and Africa.

WOMS 267-440 WOMEN IN LEADERSHIP IN THE ARTS

A brief introduction to artists and writers active in leadership roles. Speakers will discuss their careers as artists/writers. Students are encouraged to visit art galleries and museums and will interview an artist or writer.

UDPHONE REGISTRATION AND DROP/ADD

UDPHONE is an interactive voice response system enabling you to drop/add courses using the key pad on your touch-tone telephone.

Note: Only a touch-tone telephone or a telephone with rotary service that has a "tone/pulse" switch will work with UDPHONE.

On telephones with a "tone/pulse" switch select the "tone" option **after** the call is answered.

Before calling UDPHONE

- You must know your nine-digit student identification number (SID) and also your four-digit UD personal identification number (PIN) to use UDPHONE.
- Read the accompanying instructions and helpful hints carefully.
- Complete your UDPHONE drop/add worksheet.
- Have the following items ready by the telephone:
 - registration booklet
 - your completed UDPHONE work-sheet
 - a pencil to write down information as it is given to you.

Identifying Course numbers

Know the NUMERICAL (9-digit) course numbers of the course(s) of interest to you. Some listings, including the "Course Searches" on the web, start the course identifier with a 4-letter subject area abbreviation. These 4-letter abbreviations cannot be input to the phone, but must be translated to a 3-digit registration code (eg. ACCT-207-010 becomes 057-207-010). See the "Index of Subject Areas, Registration Codes, Offices and Phones" in this booklet for a complete listing by College and Subject area.

Helpful Hints

- Be sure you know your UD PIN before UDPHONE period begins, otherwise you will lose your first opportunity to access the system.
- A voice will guide you before each entry. Simply follow instructions.
- Be sure to press the pound key (#) after each entry.
- Listen carefully to the results of your requests, the messages will not be repeated. Be prepared to write down information as it is given to you.
- It is important to be prepared by completing the UDPHONE worksheet prior to calling. If there is an extended period on the line with no response from you, UDPHONE will end the call.
- At any time you may proceed by entering your next request before the voice message finishes speaking.
- If you make an error while entering a request, just press the star and pound keys (*#) to start over.
- You cannot register for a course through UDPHONE that requires permission of instructor. You will be instructed to contact the department office.
- If you attempt to add a course which exceeds your allowable maximum credit load, you must either drop another course or obtain permission from your dean to increase your maximum allowable credit hours.
- No titles of the courses will be spoken, therefore you will need to know the course numbers.
- Only pass/fail and audit grade type options will be confirmed and spoken back to you when a course is added to your schedule.
- Be patient, you may encounter a busy signal during peak times, keep trying.
- If you know your UD PIN but now want to change it, you can do this at a kiosk in the Student Services Building or by calling UD#1 CARD but not through UDPHONE.

- If you need assistance from the Registrar's Office call (302) 831-8722, during normal business hours, Monday through Friday, 8:00 a.m.-5:00 p.m.

How to Use UDPHONE for Late Registration and Drop/Add

Calling UDPHONE

Dial area code 302 (from outside of Delaware) and then the letters U-D-P-H-0-N-E (837-4663). From the dorms you just need to phone H-O-M-E (4663).

Accessing UDPHONE Drop/Add

You will be prompted to select the registration function by pressing 'R' followed by the pound key (#). You will then need to listen to the menu to select the term.

Identifying Yourself

To identify yourself to UDPHONE you need to know and use both your student identification number and your UD PIN.

- Student Identification Number (SID)
You will be asked to enter your nine-digit student identification number (SID) followed by the pound key(#). In most cases, this will be the same as your social security number.

Example: If your SID is 123-45-6789 you will enter 123456789#.

- UD Personal Identification Number (UD PIN)
After you enter your SID, you will be asked to enter your UD personal identification number (UD PIN) followed by the pound key(#).

Example: If your UD PIN is 1234, enter 1234#.

Most students have carefully chosen a four-digit UD PIN. If you did not choose one you were assigned a randomly generated UD PIN that has been mailed to you. It is important that you REMEMBER YOUR UD PIN.

UD PIN assistance may no longer be available over the phone. You must go in-person with your ID card to the Student Services Building to have PIN reset. Continuing Education students should call (302) 831-2741 for additional instructions.

Changing Your Schedule on UDPHONE

To Add a Course (2 * COURSE NUMBER #)

Enter 2, the star key(*), the nine-digit course number which includes the numeric subject area code found to the left of the course listing in the registration booklet, the three-digit course number and the three-digit section number followed the pound key(#).

Example: To add ENGL 205 section 01:
enter 2* 016 205 013 #.

If the course can be added to your schedule you will be prompted to choose a grade type, either standard grading, pass/fail or audit. You will press the pound key for standard grading, press 1 and the pound key for pass/fail and press 2 and the pound key for audit.

If a section is not available, UDPHONE will search for an open section. If another section is offered at the same time, it will suggest this section, if not, it will suggest another section that is available and fits your schedule. You may choose this section or select another section/course by reentering 2, the star key(*), the course number followed by the pound key(#).

To Drop a Course (3 * COURSE NUMBER #)

Enter 3, the star key(*), the nine-digit course number followed by the pound key (#).

Example: To drop MATH 114 section 010:
Enter 3* 026 114 010 #.

When this function is used after the end of free drop/add period it will withdraw you from the course, posting a 'W' to your record. There will be no tuition refund in that case.

To Drop Only If You Can Add

(6 * COURSE NUMBER * COURSE NUMBER #)

This enables you to drop a course only if another specific course you want to add is available.

Enter 6, the star key(*), the nine-digit course number of the course you wish to drop, the star key(*) again, the nine digit course number of the course you wish to add, followed by the pound key(#).

Example: To drop ENGL 210 section 010 only if ENGL 205 section 011 is available:
enter 6*016210010* 016205011#.

In the example, if ENGL 205 is available, ENGL 210 will be dropped from your schedule and ENGL 205 will be added, if ENGL 205 is not available then ENGL 210 will remain on your schedule.

This function should also be used when doing a section change.

Keep in mind when using this conditional drop/add function that if the course you requested is not available UDPHONE will NOT search for an open section.

To Change the Grade Type of Course

(1 * COURSE NUMBER #)

This enables you to change the grade type of a course in which you are already enrolled. After you enter the above information you will then be prompted to choose the grade type for the course. You would press the pound key (#) for standard grading, press 1 and the pound key (#) for pass/fail and press 2 and the pound key (#) for audit.

Example: You are enrolled in HIST 205 section 010 and you wish to change the grade type to pass/fail:
press 1*023205010#. You will then be asked to choose the grade type. You would press 1 and the pound key (#) for pass/fail.

This function can also be used after the end of the free drop/add period, up until the Academic Penalty deadline.

To Change Credit Hours of a Course

(1 * COURSE NUMBER #)

This enables you to change the credit hours of a variable credit course in which you are enrolled. After entering the above information, you will then be prompted to choose the number of credit hours you desire. You will also then be prompted to choose the grade type of the course. Even if you do not wish to make a change in the grade type, you need to enter this information.

Listening to your schedule (5#)

Press 5 followed by the pound key (#) to listen to your current schedule. You may listen to your schedule at anytime during the call.

To Listen to Your Current Schedule with Times (8 #)

Press 8 followed by the pound key (#) to listen to your current schedule with times. You may listen to your schedule with times at anytime during the call.

Be sure to listen to your current schedule prior to ending the call.

Remember: You are responsible for the completeness and accuracy of your own registration.

Ending the call (9#)

Press 9 followed by the pound key (#). Listen to the final message before hanging up.

UDPHONE DROP/ADD WORKSHEET

1. Using a touch-tone telephone, dial: 3 0 2 8 3 7 - 4 6 6 3 from dorms, phone 4 6 6 3

2. Select the registration function: R #
7 #

3. Select the term (listen to the menu)

Do not write your SID or UD PIN on this sheet to preserve the confidentiality of your records.

4. Enter your student identification number (SID): - - #

5. Enter your UD PIN: #

6. Enter your course requests.

If you make an entry error, just press the * # keys to begin again.

Note: You must know the NUMERICAL (9-digit) Course numbers of the course(s) of interest to you. Some listings, including the "Course Searches" on the web, start the course identifier with a 4-letter subject area abbreviation. These 4-letter abbreviations cannot be input to the phone, but must be translated to a 3-digit registration code (eg. ACCT-207-010 becomes 057-207-010). See the "Index of Subject Areas, Registration Codes, Offices and Phones" in this booklet for a complete listing by College and Subject area.
