ACADEMIC CALENDAR: DATES TO REMEMBER

Monday - Friday, April 21 - May 2 Registration Dates

Friday, August 1 Last day for payment of Fall Semester fees without \$40 late payment fee.

Monday, August 11 Late registration and drop/add begins.

Monday, September 1 Residence hall check-in for returning students, 9:00am - 9:00pm.

Monday, September 1 Labor Day holiday. University offices closed.

Wednesday, September 3 Classes begin at 8:00am.

Monday, September 15 Deadline for filing application for graduate degrees to be conferred in December 2003.

Tuesday, September 16 Last day for late registration and change of registration (drop/add) without financial obligation. After this date: A one-time \$20 processing fee will be charged to students who make changes of registration. Students withdrawing from courses will receive a grade of "W" and will be charged tuition. Last day for textbook refunds. Undergraduates: Last day for completion of deferred examination and incomplete work (grade I) from 2003 Spring Semester (03S) and 2003 Summer Session (03J).

Monday, October 27 Graduate students: Deadline for completion of deferred examinations and incomplete work (grade I) from 2003 Spring Semester (03S) and 2003 Summer Session (03J).

Monday - Monday, October 13 - October 20 Registration for 2004 Winter Session (04W).

Tuesday, October 28 Last day to change registration or to withdraw from a Fall Semester course without grade penalty and dean's approval.

Thursday - Thursday, November 20 - December 4 Registration for 2004 Spring Semester (04S).

Wednesday, November 26 Thanksgiving recess begins at 5:00pm; No classes after 5:00pm. Residence halls close at 7:00pm.

Monday, December 1 Classes resume following Thanksgiving Day recess.

Wednesday, December 10 Last day of classes, classes end at 10:00pm.

Thursday, December 11 Reading day.

Friday - Friday, December 12 - December 19 Final exams week.

Saturday - Sunday, December 13 - December 14 Reading days.

Friday, December 19 Final exams end; Residence halls close at 10:00pm.

Saturday, January 10 Commencement

STUDENT SERVICES

The Student Services Building offers a variety of administrative services in a single location. In this facility you can make arrangements for dining plans, financial aid, UD1 FLEX accounts, registration, fee payment, parking, ID cards. Electronic kiosks are available in the building for you to quickly and conveniently check the status of your financial aid, obtain a copy of your class schedule or review your account statements. The Student Services Building is a convenient walk from anywhere on campus. Located on Lovett Avenue, just behind Pearson Hall, it is close to the Perkins Student Center and to several parking facilities. Among the services available are:

ACCOUNT SERVICES (2126) (FAX - 4056)

Account Balance
Billing Inquiries
Delaware Plan
Refund requests
Sibling tuition credit

CASHIERS' OFFICE (1241)

Semester payments
Installment payments
Room deposits
Flex deposits

FINANCIAL AID (8761)

General financial aid information and FAFSA's
Federal Perkins/Nursing promissory note signing
Federal Work-Study job placement

PUBLIC SAFETY (1184)

Purchase Parking Permit

REGISTRAR (2131) (FAX - 3005)

Registration
Class schedules
Transcripts (1289)
Enrollment certification (8940/8987)
Standardized test (GRE, LSAT, MCAT, etc.)
Test Information (6717)

UD#1 CARD (ID CARD) (2759)

UD1 FLEX OFFICE (2273/4033)

UD1 FLEX Account information
Dining Plan/Points information
Suspend lost/Stolen cards

MISCELLANEOUS

General information about readmission, housing, and Student Telephone Services. Self-Service electronic kiosks for access to a variety of information.
Notary Public

Important Information About Tuition:

Every student MUST submit a Fee Payment Form each semester, even if no payment is required. It is due by August 1, 2003 for Fall Semester. Students who do not receive the 2003 Fall fee payment materials at the permanent address by July 14 should contact the Account Services Office for a duplicate.

Student tuition and fees are based on registration at the end of the late registration/change of registration period (September 16, 2003). THERE ARE NO REBATES OF TUITION AFTER THIS DATE. Students who withdraw from courses after September 16, 2003 will be charged tuition.

Tuition is charged according to student classification: Matriculated undergraduates are charged undergraduate rates. Graduate students are charged graduate rates. MBA/EMB please see special MBA/EMB rates.

Non-matriculated students (CEND - Continuing Education non-degree) are charged according to the course level: 000-499 charged at undergraduate rates and 500-999 charged at graduate rates.

Residency classification for tuition purposes should be resolved prior to the fee payment deadline. Call 831-1554 or go to the Service Desk in the Student Services Building for information.

Matriculated Student Payment Options:

- Payment in full* *Payment due August 1, 2003.*
- Installment Plan* *\$50.00 fee. Four equal payments on Sept. 22, October 20, and November 20.*
- Delaware Plan* *Contact the Account Services Office for information.*
- Online Payment* *www.udel.edu/paybill*

After the initial payment, any changes in registration, housing, or meal plan must be paid at the time of the change to avoid installment fee and/or penalties.

Tuition for Additional Credit Hours

There is an additional charge at the per credit hour rate for undergraduate registration in excess of 17 credit hours.

Credit Hours	DELAWARE RESIDENT Undergraduate	NON-RESIDENT Undergraduate
18	\$ 246.00	\$ 643.00
19	492.00	1,286.00
20	738.00	1,929.00
21	984.00	2,572.00

Charges are the same for courses taken for credit or as an auditor (listener).

MBA/EMB - Tuition rates for graduate students classified as Masters of Business Administration or Masters of Economics/Business Administration.

Tuition Rates	DELAWARE RESIDENT	NON-RESIDENT
Per Credit Hour	\$ 401.00	\$ 857.00
Full-Time (9 or more credit hours)	3,610.00	7,710.00

SEMESTER FEES***

Mandatory fees

- Full-time Undergraduate Students including CEND
 - Student Health Service Fee \$172.00
 - Comprehensive Student Fee \$62.00
 - Student Center Fee \$70.00

- Drop/Add Fee
 - Charged once per semester to process a change of registration after September 16, 2003 \$20.00
- Student Teaching Fee
 - Charged in addition to regular tuition for EDUC 400 or IFST 499. \$75.00
- Clinical Course Fee
 - Charged in addition to regular tuition for NURS 353, 355, 357, 359, 453, 455, and 475. \$125.00
- UD Online Video Fee. \$90.00
- New Student Orientation
 - Charged to all new Undergraduate and Transfer Students whether or not they attend \$75.00
- Scuba Fee
 - Charged in addition to regular tuition for HESC 132. \$70.00

***** All tuition and fees are subject to change.**

IMPORTANT POLICIES AND INFORMATION

Advertisements

The advertisements in this booklet are solicited by the publisher. The University receives no profit from it, nor does the University endorse any of the products of the advertisers.

An Equal Opportunity/Affirmative Action Employer

The University of Delaware is committed to assuring equal opportunity to all persons and does not discriminate on the basis of race, color, gender, religion, ancestry, national origin, sexual orientation, veteran status, age, or disability in its educational programs, activities, admissions or employment practices as required by Title IX of the Educational Amendments of 1972, Title VI of the Civil Rights Act of 1964, the Rehabilitation Act of 1973, the Americans with Disabilities Act, other applicable statutes and University policy. Inquiries concerning these statutes and information regarding campus accessibility should be referred to the Affirmative Action Officer, 305 Hulliher Hall, (302) 831-2835 (voice), (302) 831-4552 (TDD).

Family Educational Rights and Privacy Act

Description of the Act

The Family Educational Rights and Privacy Act of 1974 grants to students certain rights, privileges, and protections relative to individually identifiable student educational records which are maintained by the University. Specifically: (1) Students' educational records (with the exception of directory information) will be released to third parties outside the University only with the written consent of the student. The University reserves the right to release educational records to appropriate parties in a health or safety emergency or when the student's well being is of concern. (2) Students have the right to inspect their own individually identifiable educational records. The right may be exercised by completing a request form in the Office of the University Registrar, 315 Hulliher Hall. (3) Students have the right to challenge information contained in individually identifiable educational records. The procedure is described in the policy statement referred to below. (4) A copy of the policy statement describing the University's regulations for this act may be obtained from the Student Services Building, Lovett Avenue.

Directory Information

The Family Educational Rights and Privacy Act of 1974 permits the release of directory type information to third parties outside the institution without written consent of the student provided the student has been given the opportunity to withhold such disclosure.

The University releases, upon inquiry to third parties outside the University, directory information without written consent of the student. Directory information includes name, address, (including e-mail), telephone number, college class, major, dates of attendance, enrollment status, anticipated dates of graduation, degrees, honors and awards conferred and participation in officially recognized activities and sports. Students may withhold directory information by going to the Student Services Building.

Note: While the withholding request may be made at any time, students wishing to have directory information withheld from the student directory should submit their requests no later than six weeks prior to the first day of classes of the Fall Semester.

Course Changes After Publication

Every effort is made to have course information accurate at the time of publication; however, departments may need to make changes to their courses after publication. Students are advised to consult departmental bulletin boards.

Statement of Responsibility

The University of Delaware community values both personal and academic freedom. All members of the campus community have the personal responsibility to promote an atmosphere of civility in which the free exchange of ideas and opinions can flourish. We do so by learning from individual and collective differences and respecting every human being.

Enrollment Restrictions

The University of Delaware reserves the right to refuse for good and sufficient reasons enrollment of any applicant. Any applicant who is refused enrollment will, on written request, be provided with a statement of the reasons for the refusal of enrollment.

University Policies and Procedures

Students should read and understand the academic regulations section in the University's Undergraduate and Graduate Catalog.

Catalogs are sold at the University Bookstore. Catalogs are available for reference use in Newark at the Student Services Building, Graduate Office, Clayton Hall and other University locations throughout the State. The University Policies and Procedures are also available from a link on the University's homepage (www.udel.edu).

Seat Claim Policy

Classes are sometimes over-subscribed, and it is not always possible to accommodate all requests for assigned seats. To address this problem, the University has established a seat claim policy. Seat assignment in classes is based on such factors as classification, major, course status, and intended audience. Students are expected to occupy their confirmed, assigned seats within a reasonable period or time. The following policy applies to all classes:

Unless excused by the faculty member, students holding a confirmed assigned seat in a class will have relinquished their seat if they have not personally appeared in class to claim the seat by the third meeting for a class scheduled to meet three times a week, by the second meeting for a class scheduled twice a week, by the third meeting for a class scheduled five times a week, or by the second meeting for a class scheduled once a week. If the student does not claim the seat within the time limit specified above, and does not drop the course, the instructor has the option of assigning the student a grade of "Z" at the end of the term. It is the responsibility of the student to drop each course that he/she does not plan to attend, even when the student's registration is cancelled for non-payment of fees. Failure to drop a course will result in a grade of Z.

Financial Aid Recipient Withdrawals

If you are a recipient of Title IV financial aid funds**, and your enrollment terminates through official withdrawal, your financial award must be reviewed for possible adjustment.

Financial aid eligibility is based on the cost of education (tuition, mandatory fees, housing, meal plan, books, etc.) incurred for the entire semester and is contingent upon completion of that semester. When you withdraw, federal regulations mandate that any unearned aid be returned to the federal aid programs. The percent of aid earned is based on the date of withdrawal divided by the total number of days in the semester. Title IV recipients are governed by federal policy if they withdraw prior to completing 60% of the semester.

If your institutional charges are reduced or recalculated, this change may result in the reduction of recipients' other sources of financial aid.

****Examples: Direct/Stafford Student Loans, Perkins Loan, Nursing Student Loan, Supplementary Educational Opportunity Grant (SEOG), PELL Grant, Direct/Parent Loan.**

Failure to Withdraw Officially

Students are required to adhere to the University's official withdrawal policy when terminating their enrollment prior to the end of a given term. Failure to officially withdraw will result in the cancellation of any Federal financial aid program funds previously awarded for that term. Federal regulations require that funds for ineligible recipients be returned to the financial aid program accounts. Students will be billed for semester charges.

Handouts for Title IV recipient withdrawals, explaining the policies, procedures and examples of Title IV refunds are available upon request at the Student Services Building, and the Office of Scholarships and Financial Aid, 224 Hullihen Hall.

Financial Aid Recipients

Financial aid awards are based on full-time enrollment. If you enroll for less than full-time status, your aid package will be revised. If you are enrolled for less than six credits, you are ineligible for most types of aid. **Listener (L) credits do NOT count toward enrollment status for financial aid purposes.**

REGISTRATION INSTRUCTIONS AND INFORMATION

Advisement

It is recommended that all students consult with their advisors prior to registering. Students with an undeclared major can go to the University Advisement Center in 102 Elliot Hall. Declared majors should meet with their department advisors. All students may talk with the faculty of any department. See the department secretary for information. Students may switch advisors if not pleased with the one assigned to them. See the department Chairperson to change advisor.

Registration

During the registration period in November for the Spring semester and in April for the Fall semester, students may use the Online Course Planner to request courses.

Some courses are listed in the Registration book with "000" section numbers. Be careful not to register for a "000" section. You must obtain faculty section numbers for all "000" section courses from the faculty sponsoring the project or from the departmental secretary before registering. When writing in the faculty section numbers, be sure to precede them by a 0 if less than 100.

If a course meeting time is listed as "TBA" the student will be responsible for contacting the instructor or department to arrange class meeting times and locations.

Courses numbered 166, 266, 566, 666, 866 (Special Problem numbers) are available to departments if they choose to offer special problems at these levels.

Courses numbered 366, 466 (Independent Study numbers) are available to departments if the guidelines for these courses have been approved by the Faculty Senate Committee on Undergraduate Studies. A written contractual agreement must be devised between the individual student and the professor before the student can sign up for the course.

High Demand Courses for the Fall Semester

Below is a list of courses that were oversubscribed in past semesters that you should be aware of when completing your schedule request form. This list may not include all high demand courses for the fall semester.

The following courses have filled in previous semesters with SENIORS who advance registered. This refers to non-majors only, majors would have higher priority. Therefore being a senior is no guarantee of being enrolled in these courses. Juniors, Sophomores and Freshmen who request these courses on their schedule request forms will most likely not be enrolled since seniors have higher priority.

HIST 300 Women in American History
ENGL 312 Written Communications in Business
MUSC 107 History of Rock
THEA 102 Introduction to Performance
THEA 200 Introduction to Theatre Production
HESC 120 Beginning Ballroom Dance
HESC 120 Exercise and Conditioning

The following courses have filled in previous semesters with SENIORS AND JUNIORS who advance registered. This refers to non-majors only, majors would have higher priority. Therefore being a Junior is no guarantee of being enrolled in these courses. Sophomores and Freshmen who request these courses will most likely not be enrolled since juniors and seniors have higher priority.

ENGL 202 Biblical and Classical Literature
ENGL 210 Short Story
ENGL 217 Introduction to Film
ENGL 314 Introduction to Folklore and Folklife
THEA 226 Fundamentals of Acting

How to Complete the Course Planner

Desired Credit Hour Load: (1)

NOTE: Your preliminary semester bill is based on the number of credits you select.

Courses you are requesting:

Priority	Course ID SUBJ-CRS-SEC	Credit Hours	Grading Option	Action
1	ACCT-413-010 INCOME TAX ACCOUNTING	3	Standard	Edit Remove
2	MATH-221-016 CALCULUS I	4	Pass/Fail	Edit Remove

ACCT413: OPEN TO JUNIOR AND SENIOR MAJORS ONLY.

For Subject Area, use 4-character code or 3-digit numeric code. Examples: ENGL or 016.

Primary: (7) (9) (10)

Alternate: (8) (10)

(11)

(2) (6)

1. Desired Credit Hour Load: Specify the maximum number of credit hours you desire for this term. This field is required. The automatic scheduling program will fill your schedule up to this number of credits and truncate any requests over and above this number. For the fall and spring semesters, your semester bill is based on the number of credits you specify. For Winter Session, your bill is based on the actual number of credits for which you are registered.

2. Priority number / Change priority: Place your courses in order of priority (i.e. courses that are more important to you should be listed as priority 1, 2, etc.) When adding courses, they are automatically added to the bottom of the list. You can then reorder the priorities by using the up and down arrows.

3. Course Information: Click on the course ID or name for detailed information from the Courses Search application.

4. Course Messages: Informational and error messages appear in this area.

5. Action buttons: Use the "Edit" or "Remove" buttons to make changes to courses you have added to your planner.

The Edit button allows you to change one course at a time. With this function, you can change the course, credit hours (variable credit only), or grading option. You may also search the course catalog using the "Find a course" link. Click the "Update" button when you are ready to save your changes.

The "Remove" button allows you to delete a course from your planner. If you remove a primary course, the alternate becomes the primary for that priority number. If that alternate course already exists in your planner as a primary course, the entire course pair will be removed.

6. Swap button: Use the swap button to swap your primary selection with the alternate. This only works if you have specified an alternate for the course.

7. Course ID: Primary and Alternate: Enter a course ID on the "Primary" line in the following format: 4-character subject area in the first box, 3-character course number in the second box, 3-character section number in the third box. Refer to your registration booklet for valid course id's. Alternately, you may search online for valid course IDs by using the "Find a course" link.

You may optionally specify an alternate for this course, using the same format. The automatic scheduling program will scan all sections of the primary course first, and if none are available, then it will attempt to schedule the alternate for that course. You may not specify an alternate without first specifying a primary course.

8. Find a Course: Use this link if you want to search or browse the Courses database. Use the "Add to Schedule Planner" button within the Courses database to automatically add that course to your planner.

9. Credit Hours: Enter the number of credits hours for each course. For fixed credit courses, the number of credit hours is automatically assigned. For variable credit courses, specify a number of credits that is within the given range for that course. If none is specified, or if the number specified is invalid, the system defaults to the lowest amount of credits available for that course.

10. Grading Option: Select a grading option from the drop-down list. The default is Standard.

11. Add to schedule planner: This adds the course and alternate to your planner in the last priority spot. You can reorder using the "Change Priority" arrows.

How to Complete the Schedule Request Scan Form

1. Completely fill in the information on the left hand side of the form with your name, student id number, classification and local address and phone number.

2. Print and grid your STUDENT ID NUMBER.

3. Print and grid your desired load, which is the total number of hours you wish to be scheduled in the semester.

4. Transfer to your scan sheet the course title, the numeric subject area code, the course number, the section number and the credit hours as they appear in the registration booklet as shown below.

EXAMPLE OF A SCHEDULE REQUEST FORM BLOCK

It is important that the groups of numbers that form the registration number be put in the correct order when transferred to the schedule request form. The order should be: numeric subject area code; course number; section number.

COURSE TITLE										
Accounting 1										
1	REGISTRATION NUMBER								3	
	0	5	7	2	0	7	0	1	0	3
	0	0	0	0	0	0	0	0	0	0
	0	0	0	0	0	0	0	0	0	0
Au	0	0	0	0	0	0	0	0	0	0
P/F	0	0	0	0	0	0	0	0	0	0
Office Use Only	0	0	0	0	0	0	0	0	0	0
0	0	0	0	0	0	0	0	0	0	0
0	0	0	0	0	0	0	0	0	0	0
0	0	0	0	0	0	0	0	0	0	0
0	0	0	0	0	0	0	0	0	0	0
	057	207	010	3						
	numeric subject area code			course number			section number			

HOW THE REGISTRAR'S OFFICE WILL USE YOUR SCHEDULE REQUEST FORM

When reading your form, the Registrar's Office will first attempt to schedule you in your first primary request. If we are able to schedule you, we will then go to your second primary request passing over the corresponding alternate request. If we are not able to schedule you in your first primary request, we will then look at your first alternate request located directly below your first primary request. If there is no alternative request, we will go to the next primary request.

The above steps will be repeated for each of the course requests until your desired credit load is reached or until all your requests have been considered.

HOW COURSES ARE ASSIGNED TO STUDENTS

For students who register during the registration period, assignment to courses will be based on a distinct set of priorities, involving your level, major and class (senior, junior, etc.).

Level - With courses at the undergraduate level, undergraduate student requests will be satisfied before any graduate or continuing education student request are considered. At the graduate course level, graduate students have first priority. In courses offered through the Division of Continuing Education, priority is given to continuing education students.

Major - Subject area majors, in general, will be seated in a course section before students who are not majors. For example, a senior English major will be seated in an English course before a senior Physics major and conversely, a Physics major will have higher priority in a Physics course. Minors will be given priority in a similar manner.

Class - At the undergraduate course level, priority is given based on your class. Therefore, a senior will be seated in a course section before a junior, a junior before a sophomore and so on. Your class is based on your number of earned hours. Students with 27 or fewer credits are classified as freshmen, those with 28 to 59 credits are classified as sophomores, those with 60 to 89 credits are classified as juniors, and those with 90 or more credits are classified as seniors.

HOW TO IMPROVE YOUR CHANCES OF RECEIVING A COMPLETE SCHEDULE

Course requests should be placed in priority order on your form. Courses will be considered in the order that you have placed them. With all things being equal (major and classification), a student who places a course in block #2 will be enrolled in the course before a student who placed the same course and section in block #3.

Give an alternate request wherever possible. When we are unable to schedule you in your primary requests, we will then attempt to schedule the alternate request located directly below your primary request.

List as many courses as you wish on the schedule request form. You will be enrolled in courses until your desired credit load is reached. You may not have a desired credit load greater than 17 without the approval of your dean, unless prescribed by your curriculum.

Drop/Add Information

Drop/add will be available by using SIS+ Personal Access, the interactive student information system available on the Web. SIS+ Personal Access is available on electronic kiosks on campus, or by using a secure web browser at computing sites on campus or through a network connection in your home or dorm room.

Drop/add for the 2003 Fall Semester begins August 11, 2003. The first day you may begin drop/add depends on your classification. Your classification is based on the number of credits you have earned by the end of the Spring Semester.

Student Classification	First Day to Drop/Add
Graduate Students	August 11
Seniors (90 or more credits)	August 11
Juniors (60 to 89 credits)	August 12
Sophomores (28 to 59 credits)	August 13
Freshmen (27 or fewer credits)	August 14
Continuing Education Students	August 15

Drop/add will continue through SIS+ Personal Access until September 16, 2003. All registration changes made through SIS+ Personal Access are subject to final approval of the University Registrar and/or the student's dean.

AFTER THE FREE DROP/ADD PERIOD

You may change your registration until the end of the eighth week of the semester. There will be a \$20 processing fee per semester charged to students who make changes to their registration.

- **To add a course** you need to use a Course Permit form. You can only add a course by obtaining permission of the dean of your college.
- You may use SIS+ Personal Access to **withdraw from a course**. A grade of "W" will be posted and tuition will be charged for course withdrawals.
- **To change your grading options**, e.g. from letter grading to pass/fail, use SIS+ Personal Access. See the instructions in the centerfold of this book for more detail.
- If you have **questions about your course registration or change of registration**, go to the service counter at the Students Services Building. Continuing Education students should contact the ACCESS Center in Clayton Hall.

NOTE: Any changes after the eighth week deadline require the approval of the dean of your college

The dean will permit students to withdraw from courses only for unusual circumstances beyond a student's control and not for reasons of academic performance. Dean's approval does not negate financial obligation.

Grade Reporting

Grades for the Fall Semester 2003 will be available beginning Wednesday, December 17 by using SIS+ Personal Access. Instructors have at least 72 hours from the final exam to submit their grades to the Registrar's Office. More than one attempt to access your grades each day will most likely not reflect new grades since grades are posted nightly. Paper grade reports are not automatically mailed to all students at the end of the semester. If you would like a paper grade report, you may request a copy through SIS+ Personal Access on the web.

UD#1 Card Information

Students are required to carry the UD#1 CARD. The UD#1 CARD area is located in the Student Services Building, Lovett Avenue, Newark (302-831-2759). Our hours are 8:30 a.m. to 4:30 p.m. For your protection, it is necessary to present a picture ID for positive identification before obtaining/replacing a UD#1 CARD. A \$15.00 charge is applied for replacement cards. Examples of privileges that MAY be accessed with the card are: UD1 FLEX account, UD#1 Account with STAR® through Wilmington Savings Fund Society (WSFS) Bank, sporting events, the library, and dining facilities. Access to privileges is determined by registration status and account balances. Lost and stolen cards should be reported immediately by dialing (302) 831-2273. This service is available 24 hours a day.

Math Placement Exam Information

The Department of Mathematical Sciences requires most students to take a math placement exam before registering for their first math course. Exceptions to this are students who have successfully scored 3 or better in an AP calculus course and students who have transferred math course credits for any math course except Math 166. Students who are not sure whether to take the exam should contact their advisor.

The Math Placement Exam is administered on-line. Students can access the test by visiting the admitted student site at www.udel.edu/beabluehen. You will have one hour to complete the exam and please note that once you begin, you may not stop and restart your efforts, nor will you be able to take the exam again.

Continuing Education Students should contact the ACCESS Centers for information on how to access the exam. Call 302-831-2741 for information.

Math Credit-By-Exam

Mathematical Sciences Credit-By-Exam for mathematics courses will be given Saturday morning, September 20, 2003, from 9-11 AM in 209 Ewing Hall. All students wishing to take the exam should first obtain the approval of the Director of Undergraduate Studies. Inquiries can be made in 301 Ewing Hall. After obtaining approval, students must bring the prepared credit-by-exam forms, available at the Student Services Building to the Director or 301 Ewing at least five working days before the exam is scheduled. Credit-by-exam is not given for courses below the 200 level. Students are permitted to sit for the exam only once.

Veterans' Information

Information about Veterans' Eligibility and Certification can be obtained from the VA clerk located in the Student Services Building, Lovett Avenue, 302-831-8987.

Continuing Education Students

Students who have not been formally admitted to the University's undergraduate or graduate degree programs are non-matriculated students. They are classified by the letters CEND, Continuing Education Non-Degree.

No particular education background is required to register for courses. CEND students may register for up to 7 credits of course work offered at any time or location, provided they meet the course prerequisites and restrictions. To register for more than 7 credits, CEND students must have approval from an ACCESS (Advisement Center for Continuing Education Student Services) counselor. Other University policies and procedures are generally the same for CEND students as for matriculated students.

For additional information about advisement, registration and payment, transfer credit, textbooks or parking, please contact the ACCESS Center in 116 Pencader Dining Hall, Laird Campus, Newark, 302-831-2741.

WHERE AND WHEN TO REGISTER

Continuing Education students may register for open seats in evening or daytime classes, on-campus or off-campus. In-person registration with payment begins July 21, 2003 at the following locations:

Wilmington Campus, Student Service Center 2800 Pennsylvania Avenue, Wilmington, DE.

Monday-Thursday	Noon-7:00 PM
Friday	CLOSED

University's Downtown Center 8th and King Streets, Wilmington

Monday-Thursday	8:30 AM-6:30 PM
Friday	CLOSED

116 Pencader Dining Hall, Laird Campus, Newark

Monday and Tuesday	8:00 AM-8:00 PM
Wednesday and Thursday	8:00 AM-6:30 PM
Friday	8:00 AM-5:00 PM

Dover Parallel Program Office, University of Delaware offices at Delaware Technical & Community College, Terry Campus: Call 302-857-1214 for evening counseling and academic advisement hours.

Monday-Friday	8:30 AM-4:30 PM
---------------	-----------------

William A. Carter Center, Jack F. Owens Campus, Delaware Technical & Community College, Georgetown, DE

Call 302-855-1630 for information or an appointment.

Monday-Thursday	8:30 AM-6:00 PM
Friday	8:30 AM-NOON

Off-Campus Courses

Continuing Education students may request seats in any courses offered by the University, day or evening, if the student meets the prerequisites. Division of Professional and Continuing studies evening off-campus courses (with location notes) are listed with regular campus courses and in a separate section at the back of this book (following Women's Studies courses).

NOTE: Some evening course sections in Newark and Wilmington reserve seats for CE students. Continuing Education students can learn more about University credit classes at the Division of Professional and Continuing Studies web page at: <http://www.continuingstudies.udel.edu> or the University's web page at: <http://www.udel.edu/main/cur-students/currc.html>.

For additional information, call the ACCESS Center, 302-831-2741.

SPECIAL PROGRAMS

FALL 2003

LIFE Clusters

Freshmen at the University of Delaware are involved in a freshman-experience program called LIFE (Learning Integrated Freshman Experience). LIFE students form learning communities organized around themes (a LIFE cluster). They co-enroll in several courses united by a theme; they also enroll in a co-curricular course, UNIV 101 (1 credit, P/F), in which they engage in thematically related activities outside the classroom and develop a collaborative project. The LIFE cluster and learning community are under the leadership of an advanced undergraduate peer mentor and a faculty member. The cluster and learning community involve study groups, discussion groups, tutoring, service learning projects, field trips, lectures, social activities, and involvement in University resources that help students succeed.

To register for a LIFE cluster, look for the appropriate cluster under the LIFE rubric in the schedule pages and sign up for the LIFE course. Selecting the LIFE course automatically enrolls you in all the courses listed thereunder.

Pathways to Discovery

Pathways to Discovery is part of the three-year pilot program in General Education approved by the Faculty Senate. Like its freshman-year counterpart, LIFE, Pathways to Discovery is designed to provide integrated academic experiences that introduce students to the resources of the university and foster core intellectual skills required for a successful undergraduate career. Pathways accomplishes this by means of thematic interdisciplinary courses, often designed collaboratively by teams of faculty from different disciplines, but all of which offer students exciting opportunities to approach topics of general interest from cross-, inter-, or multidisciplinary perspectives. While students are not required at present to take any Pathways courses, these courses are particularly recommended for freshmen, especially undeclared freshmen.

Pathways courses are different from the usual introductory-level survey courses, which treat a single discipline, because they link to a variety of disciplines and experiences and provide a foundation for, and hence “pathway” to, other fields, campus experiences, campus resources, and careers. Because of their interdisciplinary and multidisciplinary nature, Pathways courses may have a variety of means of delivery, including multiple instructors, discussion sections, technological support, and enrichment activities. Pathways courses strive to meet many of the ten approved goals of General Education, but especially Goal 1 (communication and reasoning), 2 (critical thinking), 3 (independent and collaborative work), and 6 (intellectual curiosity for lifelong learning).

Listed below are courses offered in the Fall of 2003 which have been approved as Pathways courses, or will be submitted to the Faculty Senate committee on General Education. (see <http://www.udel.edu/pathways>).

Pathways Courses

CNST 110-010

A Visual World
Kallal

HESC 155 010-011

Personal Health Management
Abraham, Orsega-Smith

IFST 267 010

Relationships
Sherif-Trask

PHYS 145 010-015

Black Holes and Cosmic Evolution
Shipman

University Honors Program

HONORS COURSES & OTHER OPPORTUNITIES

Honors courses are open to students in the University Honors Program whose grade point indexes are 3.00 or higher. On a space available basis, a student who is not in the Honors Program can qualify to take an Honors course if his/her UD grade point index is a 3.00 or higher. Registration priority is given to those needing a particular course to satisfy requirements for one of the forms of Honors recognition.

Honors courses are offered in many disciplines and colleges. Most feature small class size, individual attention, and creative approaches to course content. Look for 080 section numbers. "HNRS:" is in the course title, a designation that will appear on your transcript. Special booklets describing Honors courses in fall or spring semester, including registration restrictions and pre-requisites, are available in the Honors Program Office, 207 Elliot Hall, and at various other campus locations. Honors course books are also available on-line at www.udel.edu/honors/academics.html#11.

FORMS OF HONORS RECOGNITION FOR STUDENTS IN THE HONOR PROGRAM

General Honors Award

Available for freshman Honors admits to the University, Class of 2004 and after. Requires 18 Honors credits in the first two years of University study, 12 in the freshman year, including an Honors colloquium, a 3.00 GPA, and residence in first-year Honors housing.

Honors Foreign Language Certificate

Requires study abroad, specific courses, and a 3.00 GPA.

Honors Degree with Distinction and Honors Degree

Available in many majors (but not all). Both the Honors Degree with Distinction and the Honors Degree requires 30 Honors credits and a 3.4 GPA. The Honors Degree with Distinction also requires successful completion of a 6-credit senior thesis. Students must apply for these enriched degree options.

Undergraduate Research Program

University faculty accept undergraduates as their assistants or junior members of their research teams in the belief that unusually well-motivated students should be given the chance, while they are still beginners, to see and have a part in what is happening at the frontiers of knowledge.

The Undergraduate Research Program helps interested students and faculty to meet and discuss apprenticeship possibilities. Most students earn academic credit for the apprenticeships; qualified work-study students may earn grant money doing research. About 150 stipends are available for full-time summer undergraduate research. Each scholar will receive a stipend of \$3,000 and a summer housing allowance of \$500. Projects are available in all University departments and areas of research. The Undergraduate Research Program also administers the senior thesis program for the Degree with Distinction and Honors Degree with Distinction. For further information, see <http://www.udel.edu/UR>. For assistance in locating a project, visit the Undergraduate Research Program, 188 Orchard Road, (phone 302-831-8995).

Study Abroad and Domestic Study Opportunities

University of Delaware credits are earned while participating in these overseas study programs.

The Center for International Studies (CFIS), the Department of Foreign Languages and Literatures (FLL) and a wide variety of other academic departments offer year-round overseas study opportunities for credit. Courses are taught in English, except as noted.

Fall Semester Programs:

Applications due: **March 19**

- London, England (CFIS)
- Paris, France (FLL); all courses taught in French
- Granada, Spain (FLL); all courses taught in Spanish

Spring Semester Programs:

Applications due **October 10**.

- San José, Costa Rica (CFIS, FLL, Environmental Studies, and Latin American Studies); SPAN and HIST courses taught in Spanish
- London, England (CFIS)
- Paris, France (CFIS); FREN courses taught in French
- Bayreuth, Germany (FLL); all courses taught in German
- Siena, Italy (FLL); ITAL courses taught in Italian
- Granada, Spain (CFIS); SPAN courses taught in Spanish

Summer Session Programs:

Applications due **March 12**

- Paris, France (FLL and Music Dept.); FREN course taught in French
- London, England (various departments)
- Kobe, Japan (FLL); most courses taught in Japanese
- Granada, Spain (FLL); some courses taught in Spanish
- Italy (various departments)

Additional programs available; stop by CFIS, 186 So. College or access website: www.udel.edu/international.

Winter Session Programs are sponsored by various departments

Applications due: **October 3**; some programs have early deadline of **May 2**.

STUDY ABROAD MERIT SCHOLARSHIPS: available for programs listed above.

NEED-BASED SCHOLARSHIPS: Also available for programs listed above are Starr Foundation and Niels Study Abroad Scholarships, awarded based on financial need and academic merit. These awards cover between \$1,000 and a full program fee for 20-30 students per year. For information on Scholarships, check out the website at <http://international.udel.edu/studyabroad/scholarships>.

For more information about these programs, visit www.udel.edu/international or contact CFIS (831-2852; studyabroad@udel.edu) or FLL (Marion Bernard-Amos, FLL Study Abroad Coordinator; 831-6458; mba@udel.edu). Internships are offered on a limited basis through the London program during the fall and spring semesters and through the Bayreuth spring semester.

CFIS also offers a number of exchange programs at other institutions including Jönköping Institute for Business Studies (Sweden), Université de Lyon II (France), Bond University (Australia) and others. Credits earned on these exchange programs may be transferred to UD. The University also participates in the Denmark International Study Program (DIS).

UD ONLINE/DISTANCE LEARNING

The University's UD Online/Distance Learning program allows you to take University of Delaware courses using a variety of technologies. A detailed description of course formats is listed below. The course listing section of this registration booklet indicates the course formats for specific courses. Exams are proctored at various University sites throughout the state. Students will receive an exam schedule indicating exam times and locations. Students who are unable to come to a University of Delaware site must arrange for an exam proctor, following guidelines provided by the UD Online office. Course requirements for Distance Learning classes are the same as for on-campus courses. Students are able to contact their instructors throughout the semester for assistance. Participation in a Distance Learning course does not affect a student's classification, and there is no distinction on student transcripts between on-campus and Distance Learning courses. For more information, please visit the UD Online website at: www.continuingstudies.udel.edu/udonline or call 831-1053.

REGISTRATION

Students register through Division of Professional and Continuing Studies as an individual or as a participant at an official work site or community college site. **Students cannot use the World Wide Web to register, drop, or make changes to UD Online courses.** Call the UD Online/Distance Learning office at (302) 831-1053 for information and UD online registration and payment forms. Forms are also located at the following website in a printable format: www.continuingstudies.udel.edu/udonline/registration/forms.html or they can be faxed to (302) 831-3292. UD Online classes are limited in size to allow faculty the opportunity to provide personal attention. Many popular classes fill quickly. Early registration is advised.

Important Advance Registration Information: Those students who register during the University's Advance Registration Period, which begins April 21, are not required to pay at the time of registration, but are still required to complete the UD Online registration forms. Payment for advance registrations are due by August 1, 2003. **If the UD Online forms and payment are not received by August 1, 2003, the student's request for a distance learning course will be canceled.** Should those students wish to enroll again, they must register in person at the nearest Professional and Continuing Studies ACCESS office. The Newark office is located at 116 Pencader Dining Hall. For other locations and office hours, please call 831-2741.

Students who do not register during the Advance Registration Period are required to complete the UD Online registration forms and pay at the time of registration.

FULL-TIME MATRICULATED STUDENTS

If you are a full-time matriculated student, you must obtain email permission from your Academic Advisor to register for a UD Online course. B & E majors need to seek email permission from either Assistant Dean Whittaker or Marcia Rollison. Communication or Communication interest majors are required to obtain permission only for Communication courses (except COMM250 which does not require permission). All other UD Online courses for Communication majors do not require permission. Full-time and part-time matriculated students on probation are discouraged from taking UD Online courses and are required to obtain permission from their advisors. Academic Advisors must email permission for their advisees to Melanie Rehberg, Program Manager UD Online and Ann Lopata, Coordinator of ACCESS Centers. Their email addresses are: melanier@udel.edu and lopata@udel.edu. For additional information regarding full-time matriculated students registering for a distance course, please visit www.continuingstudies.udel.edu/udonline/registration/full_time.html

ACADEMIC CALENDAR

The UD Online academic calendar matches the University campus schedule with the exception of final exam dates. Final exams for distance learning courses will be held on Monday, December 15. Please refer to the beginning of this booklet for important Academic Calendar dates.

UD ONLINE COURSE FORMATS:

Please see the course listing section of this booklet for format availability per each distance-learning course. Please read below for a description of each format. It is important that you understand your options, as you will be asked to choose a format code on the registration form according to your preference and which format is available for the chosen course.

INTERNET REQUIRED:

* **Web-based (B):** Web-based courses are developed and delivered entirely on the Internet in text version. Students will not see faculty lectures, but will interact with faculty using text via the Web. Course syllabi, assignments and links to related resources are posted on the Web. Students communicate with faculty and classmates using electronic mail, newsgroups, and/or chatrooms. In some courses, a CD-ROM supplements the Internet course material. Students need a Windows or Macintosh computer and an Internet connection.

* **Web-classroom (W):** Videostreaming and synchronized Power Point presentations allow students to see and hear actual faculty lectures, review course notes, view the syllabus and assignments, and link to related resources online. The lectures are stored on the University server and may be accessed throughout the semester. A more powerful computer and higher speed Internet connection may be required for optimum course access. For details, please see the web page:

www.continuingstudies.udel.edu/udonline/startup

It is necessary for you to test your computer and Internet connection in order to assure your accessibility. Please note that if you are taking a Math or Engineering course, a high speed Internet connection is required. In order to test your connection, web-classroom demonstrations are available at:

www.continuingstudies.udel.edu/udonline

Select "Course Demo". If you are interested in a Math or Engineering course, please select one of those courses to test.

* **CD-ROM (C):** The CD-ROM format is equivalent to the Web-classroom format, but it offers students the added choice of accessing course lectures via CD-ROM rather than having to rely on a constant Internet connection to view lectures. Students who choose the CD-ROM format will also have access to the lectures on the Web; therefore, they may not need to use the CD-ROM. If a reliable Internet connection is available, the CD-ROM option is not necessary. Please note that access to the Internet is still required, as the syllabus, supplemental course materials, resource links, e-mail, or Web-based assignments will be posted by the instructor on the Web. Students return the CD-ROMs at the end of the semester. If not returned, a fine will be charged to the student's account. Minimum requirement: 4x CD-ROM drive.

* **Web-enhanced Videotape (E):** The Web-enhanced videotape format is equivalent to the Web-classroom and CD-ROM format, but it offers students the added choice of accessing course lectures via videotape rather than having to rely on a constant Internet connection, or using a CD-ROM to view lectures. Students who choose Web-enhanced videotapes will also have access to the lectures on the Web; therefore, they may not need to use the videotapes. Some students prefer to watch lectures on video rather than their computer; however, there is an additional charge of \$90 for this format choice. Please note that access to the Internet is still required, as the syllabus, supplemental course materials, resource links, e-mail, or Web-based assignments will be posted by the instructor on the Web. Students return tapes at the end of the semester. If not returned, a fine will be charged to the student's account.

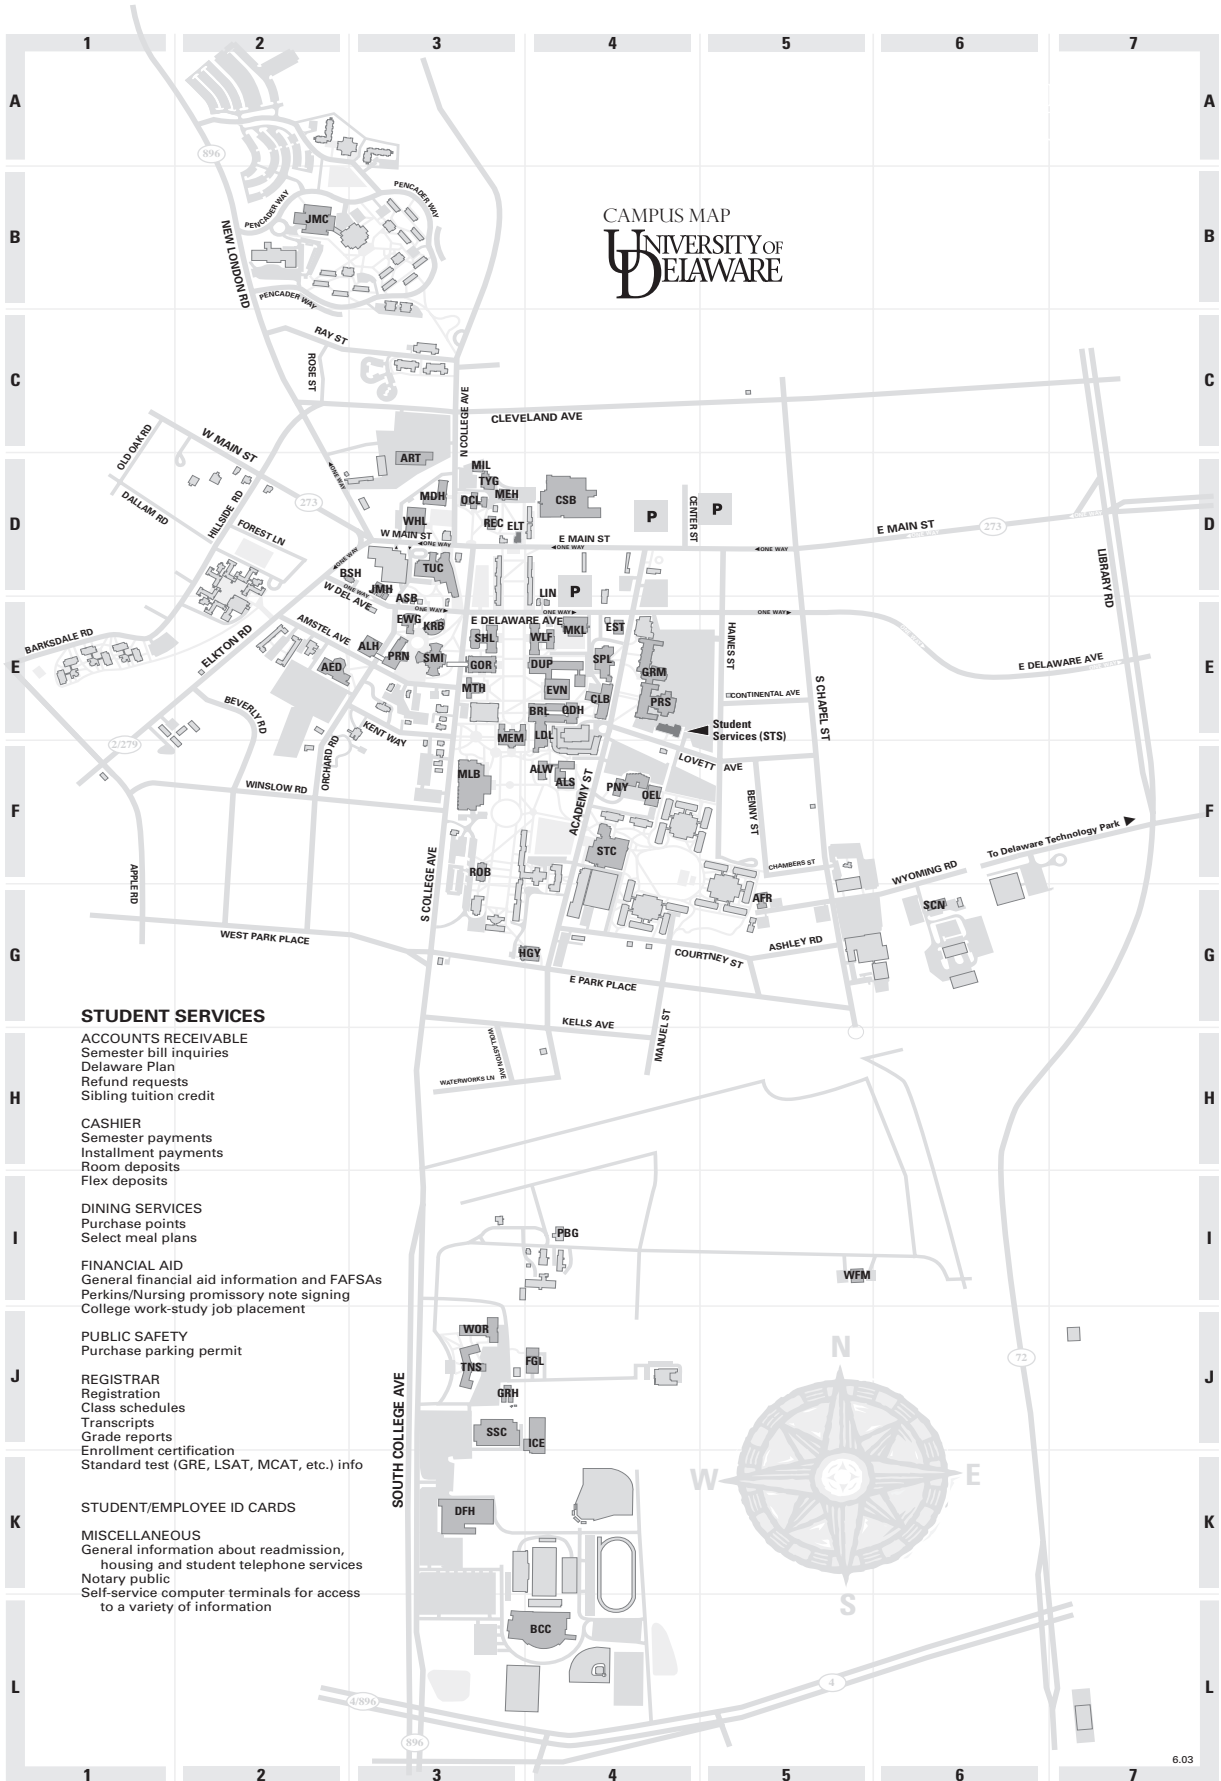

* **Web-enhanced Print-based (T):** A study guide or manual is the student's resource for reading assignments and preparing and submitting work to the faculty coordinator. These courses are augmented with various Web interactions; therefore, Internet access is required.

INTERNET OPTIONAL:

* **Videotape (V):** Actual course lectures are videotaped, but not videostreamed to the web; therefore, lectures are only available via VHS videotape. Internet access is not required, but it is advised. There is an additional charge of \$90 for the videotape format. Students return the tapes at the end of the semester. If not returned, a fine will be charged to the student's account.

* **Print-based (N):** A hardcopy study guide or manual is the student's guide to reading assignments and preparing and submitting work to the faculty coordinator. Internet access is not required, but it is advised.

* **Interactive Video (section 435/436):** Interactive video technology connects the University Newark campus with Lasher Lab in Georgetown, Delaware at specified times.

ON CAMPUS BUILDINGS AND CODES

ON CAMPUS by Building Code

ON CAMPUS by Building Name

Code	Building Name	Coordinates	Building Name	Code	Coordinates
AED	Amy DuPont Music Building	2E	Alfred Lerner Hall	ALH	3E
AFR	ROTC (Air Force and Army)	5G	Alison Hall	ALS	4F

FINAL EXAMINATION SCHEDULE

Fall Semester (03F)

The final examination schedule is based on the published first meeting day and hour of the lecture. Exams for courses that have both lecture and laboratory, or lecture and discussion period will be scheduled according to the start time of the lecture. These exams should follow the schedule printed below. However, changes may be made to this schedule due to time conflicts when scheduling final exams. Please refer to the final exam webpage in early October for the finalized exam schedule.

Multi-section courses that request a common exam or courses that require a three-hour exam do not follow this schedule. The dates and times for these exams will be announced by the instructors in early October. All final exams will be administered on December 12, 15-19.

<u>LECTURE MEETING DAY</u>	<u>LECTURE START TIME</u>	<u>EXAM DATE</u>	<u>EXAM TIME</u>
MON or WED or FRI	8:00 AM	DEC. 15	10:30 PM - 12:30 PM
MON or WED or FRI	9:05 AM	DEC. 17	10:30 PM - 12:30 PM
MON or WED or FRI	10:10 AM	DEC. 12	1:00 PM - 3:00 PM
MON or WED or FRI	11:15 AM	DEC. 19	1:00 PM - 3:00 PM

HIST134	HISTORY OF AFRICA	WOMS385	WOMEN AND THE ECONOMY
HIST135	INTRO TO LATIN AMERICAN HISTORY	WOMS484	WOMEN IN SPORTS
HIST300	WOMEN IN AMERICAN HISTORY	WOMS498	INTERNSHIP IN WOMEN'S STUDIES
HIST325	HIST BLACK AMER TO CIVIL WAR		
HIST331	HISTORY OF CARIBBEAN I		
HIST368	MODERN CHINA: 1600-1920'S		
HIST439	SEM:WOMEN & REVOLUTION IN AFRICA		
HIST479	SEM:20TH CENTURY CHINA		
IFST202	FOUNDATIONS OF FAMILY STUDIES		
IFST346	DELIVERY OF HUMAN SERVICES		
JAPN205	JAPANESE CONVERSATION		
JWST208	INTRO TO JEWISH PHILOSOPHY		

CATALOG SUPPLEMENTAL COURSE DESCRIPTIONS

This section is the supplement to the current undergraduate and graduate catalogs.
Courses not found nor fully described in the 2002-03 catalog are printed here.

ANIMAL SCIENCE

ANSC 367-010 EQUINE DISEASES AND LAMENESS

A study of infectious and non-infectious diseases common to the horse. Emphasizes principles of pathophysiology, manifestation, prevention, and control. Approximately one third of course content will include types, cause, and management of musculoskeletal diseases (lameness) in the horse.

ANSC 367-011 BASIC EQUITATION

An introduction to horsemanship, including horse handling and equipment, as well as, an introduction to riding, driving, and training techniques. Students will participate in the handling and training of horses while learning riding and driving skills.

ANTHROPOLOGY

ANTH 367-010,080 ANTHROPOLOGY OF BIOGRAPHY

Study culture through biographies and autobiographies of individuals from major cultural zones of the world and through related ethnographic films. Materials will be placed in a context of modernist and post-modernist approaches to the analysis of the subjects' cultures and relationships between the individual and her/his own society.

ANTH 367-011 AMERICAN ANABAPTISTS: AMISH, MENNONITE, & BRETHREN CULTURES

Examines the origins, development, and current status of Amish, Mennonite, and Brethren communities in the United States. Emphasis on the varied methods used to establish and maintain a visible and distinctive identity separate from mainstream American culture. Discusses the merchandizing and consumption of their separate identity through tourism.

ANTH 367-410 ANTHROPOLOGY AND BUSINESS CAPITALISM

Considers how culture affects business and capitalism in societies worldwide--and how modern capitalist life affects culture. Looks at business and enterprise in our own cultures including Japanese, Chinese, and Islamic, and the nature of diverse work cultures from direct-sales organizations to dot.coms, and from street-vendor businesses to mega-corporations. Considers the role of working women in different cultures.

ANTH 390-080 HNRS CLQ: PYRAMIDS, PRIESTS AND PALACES

Introduces students to discoveries of ancient civilizations from the Near East, Africa, Mesoamerica, and South America. Considers the nature of the societies that produced these archaeological finds along with two related questions: Why did these societies develop when and where they did? And, why did all of them ultimately collapse?

ARTS AND SCIENCE

ARSC 167-010 CAREER DEVELOPMENT: HOW TO SELECT A MAJOR THAT FITS YOU

Designed to give freshman undeclared students the skills and tolls needed to identify a career path, and to learn of academic majors and enrichment activities that will clarify and assist in career decision making.

ART HISTORY

ARTH 406-080/606-011 SEM: EARLY IRISH AND ANGLO-SAXON ART

Focus on the formative period of insular art especially in the northern British Isles from the sixth through the eighth centuries. Special attention given to the development of manuscript illumination and precious metalwork.

ARTH 467-010/667-011 MEANINGS OF SLAVERY IN AFRICAN, EUROPEAN AND AMERICAN ART

Working with a strategic, restricted selection from West Africa, western Europe, the USA and Brazil in the period 1760-1880, the seminar explores the radical insights into slavery, its politics, its interiorized experience and dispersed moral dilemmas, that are (perhaps unexpectedly), not discovered in contemporary writing.

ARTH 467-011/ARTH 667-012 ICONOCLASM AND AESTHETICS

Discusses four philosophers, Heidegger, Adorno, Derrida and Danto, in connection with three art historians, Schapiro, Buchloh and Krauss; and four artists, van Gogh, Richter, Tansey and Sherman.

ARTH 616-010 STDS: BAROQUE POETICS AND IMAGERY

Discussion of the allegorical and metaphorical language of 17th-century art in its literary and religious context. Topics include: conceit, illusionistic ceiling painting, visual puns, rhetorical theory. The rebirth of the baroque conceit in modern advertising will also be considered.

ARTH 636-010 STDS: ART AND CLASS AT THE DAWN OF MASS CULTURE

Examination of selected types of visual art in terms of class issues; case studies drawn from the mid 19th to early 20th centuries, when a new mass culture disrupted older forms of audience and patronage. Includes paintings, prints, stereographs, visual amusements, magazine illustrations.

ARTH 667-010 THEORIES AND METHODS IN ARCHITECTURAL HISTORY

Introduction to issues and methodologies in architectural and urbanism history. Readings in philosophy and sociology and in recent works of architectural and urbanism history they have inspired. Organized thematically (capitalism; colonialism; print culture; etc.).

BUSINESS ADMINISTRATION

BUAD 367-010 BUSINESS AND SOCIETY

Focuses on the interface between business and the social-environmental dynamics of the surrounding society. Special emphasis is given to concepts and practices related to socially responsible business and sustainable development.

CHEMISTRY

CHEM 667-014/BUAD 667-014/CHEG 667-014 MULTIDISCIPLINARY TEAMWORK IN BIOTECHNOLOGY

Industrial speakers discuss broad technological challenges in the biosciences. Teamwork across science, engineering and business administration are developed to address these challenges. A research project with written and oral presentations enhances teamwork and communication.

CIVIL ENGINEERING

CIEG 467/667-011 PRINCIPLES OF MODERN WATER & SEDIMENT QUALITY CRITERIA

Presents the toxicological and chemical background and the technical basis necessary for understanding the methods used to develop water quality and sediment quality criteria. Considers both organic chemicals and metals. Includes narcosis models of toxicity for individual chemicals and mixtures, complexation models for organics and metals applied to both the water column and sediments.

CIEG 467/667-012 TRAFFIC NETWORK SIMULATION AND MODELING

Provides participants with a comprehensive understanding of traffic simulation model-building and application. Includes CORSIM (TRAF-NETSIM and FREESIM), Synchro and HCS - all nationally recognized computer tools. Consists of lectures and hands-on use of microcomputers. The concepts of roadway operations and capacity, traffic flow theory, signal systems, ramps and weaving sections will be examined and analyzed utilizing these tools.

CIEG 467-013 CONSTRUCTION MANAGEMENT & ENGINEERING

Provides an overview of today's construction industry, as well as future trends and prospects. Covers construction processes, field engineering, and project management. Designed to equip the young engineer with the basic knowledge and skills required to function as a field engineer or construction manager. Includes estimating, cost control, quality control, safety, productivity, value engineering, claims and legal issues.

CIEG 667-010 CIVIL INFRASTRUCTURE SYSTEMS

Designed to provide objective information and useful data for analysis so that civil infrastructure managers can make more consistent, cost effective and feasible decisions related to the preservation of civil infrastructure. Provides theory and principles of civil infrastructure management system and introduces AASHTO guidelines in asset management, discusses resource requirements and the importance of institutional issues.

CIEG 667-014 FOUNDATION & GEOTECHNICAL ENGINEERING DESIGN

Addresses the geotechnical design and construction monitoring of: earth slope stability, embankment construction and settlement, shallow foundations, driven piles and drilled shafts. In addition, practical aspects of subsurface investigations, lab testing and the selection of soil and rock design properties are addressed

COMMUNICATIONS

COMM 318-010 TPCS: BROADCAST NEWSWRITING

Writing for broadcast news, including news judgment, news gathering, writing and editing. Some discussion on legal and ethical issues.

COMM 318-080 HNRS: TPCS: MASS COMMUNICATION SEMINAR

Explores issues relating to violence and television from the perspectives of institutional policy, content, and effects.

COMM 343-080: HNRS: TPCS: INTERPERSONAL COMMUNICATIONS

Negotiation occurs when people or groups believe that their goals are in conflict and that reaching an agreement will make goal attainment more likely. Studies negotiation both between groups and within groups, and analyze discussions that occurred during within-group negotiations.

COMM 418-010 TPCS: BROADCAST NEWS

Communication students learn the pressures and standards of broadcast news while writing and producing a scheduled studio TV news program. Emphasis on writing news for broadcast, program story-selection issues, video selection, interviewing techniques, professionalism.

COMM 425-010/POSC 425-010 TPCS: GLOBAL MEDIA AND INTERNATIONAL POLITICS

Explores the role of global news media in a world where politics and media both cross national boundaries. Focus on international politics and media.

COMPUTER SCIENCE

CISC 459-010 TPCS: NETWORK AND SYSTEM SECURITY

Provides in depth looks at concepts that are essential in maintaining a secure network of computers connected to the Internet. Covers information security, classic/common exploits and how to prevent them, buffer overflows, cryptography, and several other security fundamentals. Prereq: CISC361

CISC 479-010,011 TPCS: SYSTEMS ADMINISTRATION

Introduces students to the internals of UNIX, trouble-shooting system and network problems, hardware and software configuration and installation, and security aspects of hosts on the Internet. Multi-operating system integration will also be discussed. Prereq: CISC 361 (C or better)

CISC 889-010 TPCS: AGENTS, WEB SERVICES, AND GRID COMPUTING

The ubiquity of networked computers has hastened the need for distributed applications. Modern environments tend to be open, dynamic, and cross organizational boundaries. We examine three technology areas, comparing and contrasting their approaches to (for example) service description, discovery, communication, security, composition, and coordination.

ECONOMICS**ECON 267-017/POSC267-017 CIVICS AND ECONOMICS FOR ELEMENTARY EDUCATORS**

Provides elementary teacher candidates with an understanding of the fundamental content and concepts in the core social studies subjects of civics and economics as they relate to instruction in grades K-8. Attention given to how the content and concepts in these two subject areas might be taught in elementary classrooms.

ECON 367-050 THE ECONOMY OF FAMILY BUSINESS

Enables students to apply economic reason to some of the issues unique to family business - the role of entrepreneurship, family issues, the dynamic of changing markets, and the next generation.

EDUCATION**EDUC 867-010 PROSEMINAR ON TEACHING IN HIGHER EDUCATION**

This applied course will provide you with opportunities to consider and implement multiple instructional and assessment techniques, while also addressing how to deal with challenges that may arise with planning, with technology and with students.

ENGINEERING TECHNOLOGY**EGTE 467-010 MANUFACTURING**

Basic processes, technologies, process systems, and current advances. Processes include: metal cutting, forming, plastic molding, packaging, and food processing. Current advances and technologies include: lean manufacturing, robotics, just-in-time, ergonomics, controls, and quality management.

ELECTRICAL ENGINEERING**ELEG 467-010 ETHICS AND CAREER SURVIVAL SKILLS**

The ethical component of the course can be used to cover the following topics: ethics and electrical and computer engineering impact in a global and social context, computer ethics, lifelong learning opportunities, career survival skills, communication and the art of negotiation, job searching strategies.

ELEG 467/667-015 PHOTONIC CRYSTAL DEVICES AND INTEGRATED CIRCUITS

Introduces design and fabrication tools required for photonic crystal structures. Begins with a working knowledge of their basic operational physics and then introduces mathematical and computational methods for their design. Discusses various fabrication methods, such as lithographic and self-assembly methods.

ELEG 467-017/667-011 SOLID STATE NANO-ELECTRONICS

Develop principles of solid state physics underlying nanoelectronic device operation. Topics include semiconductors, dielectrics, polymers, magnetism, superconductors, biomaterials and nanophase materials. Phenomena include quasiparticle excitations, defects, Boltzmann transport, and the thermodynamics of materials. Concepts will be described in terms of applications for nanotechnology.

ELEG 667-010 OPTICAL PROPERTIES OF SOLIDS

Presents the underlying principles of optical propagation and absorption in solids, including insulators, metals, semiconductors, low dimensional solids (quantum wells, wires, and dots), as well as stratified (thin-film) media, optical filters, and electro-optic devices.

ELEG 667-016 INTRODUCTION TO QUEUING THEORY AND PERFORMANCE MODELING

Review of Markov Chains and simple queuing theory; advanced queuing theory; approximations, open and closed networks of queues; computational techniques; priority queuing; scheduling. Prereq: Any introductory probability course.

ELEG 867-011 RF AND MICROWAVE TECHNOLOGY

Modern telecommunications and datacom systems operate at frequencies in the radio frequency (RF) and microwave range. Explains the basic concepts and technologies required to design RF and microwave devices, circuits, and system. Discusses examples of applications to wireless and lightwave systems.

FOOD AND RESOURCE ECONOMICS**FREC 167-010 ISSUES IN NATURAL RESOURCES AND THE ENVIRONMENT**

Surveys pressing issues in the management of natural resources, environmental protection, and international development (improving the well-being of people). Highlights Interconnections. Encourages critical thinking about these issues by applying basic policy analysis, considering the ethical dimensions of policy, and drawing on economic indicators of environmental equality and human health.

GEOGRAPHY**GEOG 267-010-016/POSC 267-010-016/SOCI267-010-016 NEWARK, DE: PEOPLE, POLITICS AND PLACE**

Explores how Newark is like other college towns and why Newark looks/acts/feels like it does. Examines the relationships between the City of Newark, UD, landlords, businesses and residents, and involves students in local issues by participating in a service-learning project. Discovers how places are created via the visions, actions, and attitudes of the people who live there.

GEOG 367-010/COMM367-010 ENVIRONMENTAL VIDEOGRAPHY

Blends geographical inquiry and electronic storytelling. Research and produce short video documentaries on local environmental and social issues. Investigate spatial distribution, science and politics involved in resource management and social policy. Learn the techniques of video field-production. Research, write, shoot and edit stories, producing effective video communication.

GEOLOGY

GEOL 667-010 QUATERNARY ENVIRONMENTAL MICROPALEO

Environmental interpretation of Pleistocene and Holocene coastal to deep-sea sediments using foraminifera and other microfossils.

HEALTH AND EXERCISE SCIENCES

HESC 667-010 SURVEY RESEARCH METHODS

Emphasis on procedures for designing survey based research studies, including choice of subjects, development of proper instrumentation, statistical design and analysis, and formulation of proposals appropriate for publication.

HEALTH PROMOTION

HLPR 867-440 SOCIAL MARKETING

Covers the application of marketing principles to health behavior change. Includes the development, implementation, and evaluation of social marketing campaigns; theories of behavior change applied to marketing; message development, targeting and segmentation; and analysis of current social marketing initiatives related to tobacco, alcohol and other drugs, physical activity, and healthy eating.

HISTORY

HIST 367-010 WOMEN, REVOLUTION, AND SOCIAL CHANGE IN MODERN LATIN AMERICA

Examines revolution, repression, dictatorship, and democracy, considering the relationship between women, gender, and significant social, economic, and political processes in modern Latin America. Covers the Independence movements of the early nineteenth century to the women's grassroots mobilizations that helped overturn recent dictatorships.

HIST 367-011 AMERICAN SPORTS HISTORY

Traces major developments in American sports since the Civil War. Discussions include the Professionalization of sports and the transformation from amateur game to big business; race, ethnicity and the evolving position of African American athletes; women in sports; the "Golden Age" in the 1920s and athletic celebrities; mass media's effect on sports; and the effect of the changing social climate of the 1960s.

HIST 367-012 WORLD WAR II

Offers a survey of World War II, the largest and most destructive armed conflict in human history. Utilizes the prisms of strategy, logistics, and gender to analyze the conflict. Emphasis on military events and personalities, includes diplomacy, economic factors, home fronts, and atrocities.

HIST 367-410 REVOLUTIONARY DELAWARE

Covers Delaware during the period of 1760-1812. Explores political and social developments in Delaware during these years, looking at Delaware's leaders as well as the "lower orders": less wealthy whites, free blacks, and slaves.

HIST 475-010 SEM: EUROPEAN ARISTOCRACIES

Analyses the role of aristocracies during their peak centuries of wealth and power during the early modern and modern periods. Focus on sources of wealth, styles of living, the role of women, and political influence. Comparisons between countries in surveys of court life, admission of new entrants, business activities, and meeting the challenges of democracy and revolution. Includes England, Ireland, Germany, Italy, and Russia.

HIST 667-012 AMERICAN VERNACULAR LANDSCAPES

Graduate reading seminar with a strong emphasis on material culture. Includes settlement, agricultural, urban, suburban, public, ethnic, and industrial landscapes. Examines how a variety of scholars, including geographers, historians, artists, and writers have treated the landscape as subject and object.

LIBERAL STUDIES

MALS 625-010 FILM AND AMERICAN SOCIETY

Using major motion pictures, this course will explore how Hollywood dealt with critical historical events: the Cold War, McCarthyism, the Civil Rights Movement, Vietnam, Watergate, & the modern Presidency.

MALS 667-010 THE AMERICAN WEST

Surveys the history of the American west through the eyes of its diverse population as well as those who are drawn to study and define it. Focus on issues and themes currently debated concerning the legacy, meaning and imagery of the American west as expressed through art, music and film.

MALS 667-011 THE HUMAN CONDITION

Explores politically complex societies in South America as they developed in prehistoric, colonial and modern times. Includes Tiwanaku, Chibcha, Inka, the viceroalties of Peru and New Granada, and in modern times, Colombia and Peru. Considers how politically and economically centralized politics functioned, and the connections they had with other groups, both nearby and at great distances, from early pre-hispanic times to the present.

MALS 667-410 HISTORY OF FOOD IN THE AMERICAS

Food is both a basic necessity of life and one of the most complicated creations of our society. This course will explore the history of business, technology, work, and consumer dimensions of food provisioning systems in the Americas. Readings will be combined with trips to area food institutions.

MALS 667-430 THE VIETNAM WARS

Seeks to provide students with the historical and cultural perspectives to understand the causes, course, and consequences of the First, Second, and Third Indochina Wars, with the bulk of the coverage focusing on the Second Indochina War, known to Americans as "The Vietnam War" and to Vietnamese as "The American War."

MALS 667-431 HOMER'S EPICS IN LITERATURE & FILM

Explores Homer's Iliad and Odyssey and the impact and influence of those works in western literary culture. Examines such varied materials as Joyce's Ulysses, Jonathan Shay's Achilles in Vietnam, Elizabeth Cook's Achilles, and the film O Brother, Where Art Thou?

MARINE STUDIES**MAST 667-010 GENETICS OF MARINE ORGANISMS**

Focus on population and evolutionary genetics of marine organisms. Topics covered by lectures and discussion groups will include population structure, phylogeny, adaptation, and applications of genetics to marine science.

MAST 667-011 MARINE ETHNOBOTANY

Explores the use of indigenous marine plants by human coastal cultures for food, medicine, fabric, shelter, chemicals, fuel, and other needs. Analyzes plant features that result in useful products. Examines characteristics of the relationships between human groups and coastal plants that make the associations sustainable.

MAST 667-013 MARINE TRANSPORTATION POLICY

Provides an overview of marine transportation policy and develops analytical techniques in the contexts of local, national, and international perspectives. Includes maritime transportation technology and projected fleet development; overview of policy frameworks affecting trade, safety, and environment; quantitative analysis of shipping business economics under policy constraints.

MAST 667-015 DECISION TOOLS FOR POLICY ANALYSIS

Develops quantitative decision-making skills for science and technology policy decisions. Covers decision-making under uncertainty, axioms of decision analysis, decision trees, influence diagrams, sensitivity analysis, confidence intervals, value of information, probabilistic risk assessment, and multi-attribute decision theory.

MAST 827-010 TPCS: MARINE BIOLOGY FISH BIOLOGY

Focuses on current topics in fish biology and fisheries research. Students lead discussions by representing topical seminars, critiquing research papers from the current literature, or presenting their thesis or dissertation research.

MAST 827-011 TPCS: MARINE BIOLOGY LARVAL ECOLOGY

Critical evaluations of recent literature in the field. Class meetings consist of structured discussions. Each student will lead at least one discussion during tenure of the course.

MAST 867-010 INTRODUCTION TO MODELING OF GEOPHYSICAL FLOWS

Introduction to modeling of geophysical flows using finite difference methods. Numerical solutions of partial differential equations are developed, and their stability and applicability to geophysical flows are discussed. Students develop a hierarchy of simple numerical rectangular fluid basin models subject to a variety of forcing mechanisms.

MATH**MATH 167-010 QUANTITATIVE REASONING**

Modern world applications of mathematics. Quantitative reasoning used in everyday life. How mathematics is used in a variety of topics and issues. Combines critical thinking skills with basic mathematics in contexts encountered in various disciplines such as social sciences, business and economics.

MATH 267-010 FUNDAMENTALS OF GEOMETRY

Designed to study geometric concepts that support the curriculum of the middle and secondary schools. Covers intuitive geometric topics, the structure of a deductive system, logical reasoning, and the process of proof.

MATH 267-011 PERSPECTIVES ON MATHEMATICS

Nontechnical exposure to contemporary mathematical thought, practice, and applications. Introduction to library, web, computing, and other campus tools for math research and learning. A variety of faculty members and others will lead informal presentations and discussions.

MATH 821-010 TOPICS IN APPLIED ANALYSIS

The main theme of this course is the mathematics of financial derivatives. Topics will include: Financial markets, models of stock price behavior, Black-Scholes theory, hedging, bond and interest rate options, exotic options, numerical methods, other option pricing methods.

MECHANICAL ENGINEERING**MEEG 867-010 STATISTICAL THERMODYNAMICS**

Review of classical mechanics and thermodynamics, the canonical ensemble, fluctuations, thermodynamic properties of ideal gases, chemical equilibrium, virial equation of state and imperfect gases, gas kinetic theory, the Boltzmann equation, the continuity and Navier-Stokes equations, transport processes in dilute gases.

MUSEUM STUDIES**MSST 467-010 UNDERGRADUATE RESEARCH ON CULTURAL MATERIALS**

Laboratory, field or archival research under supervision of instructor. Research focus on Cultural materials or preservation strategies. Assigned research topic selected from a list of potential topics during individual consultations between student and instructor. Provides introduction to research methods, experimental design and documentation of research results.

MUSIC**MUSC 167-010,011 STEEL BAND**

This is an advance level ensemble made up of students who have prior steel band experience. There is an emphasis on reading and improvisation.

MUSC 367-010 INTRODUCTION TO RECORDING

Hands-on recording course which focuses on live location recording. Prereq: MUSC 105 or MUSC 095

NURSING

NURS 411-156/NURS 667-194 ADULT HEALTH AND DEVELOPMENT

Course on health-related issues of older adults. Includes healthcare in a changing system, political, legal and ethical issues, as well as coping with loss/end of life issues. Exposure to leaders in the healthcare of older adults through attendance at such events as conferences and workshops.

PHILOSOPHY

PHIL 367-010 TPCS: DAOISM

Read some seminal works in the various types of Daoist traditions in Chinese culture. Includes philosophical Daoism, but also religious and yogic Daoisms as well.

PHIL 465-010,080 SR.SEM: MORTALITY & IMMORTALITY

Assumes that we are mortal and asks whether, on that assumption, it is rational to dread death. Examines arguments for and against the common view that we are immortal.

PHIL 648-010/MALS 648-010/UAPP 648-010 ENVIRONMENTAL ETHICS

The purpose of the seminar is to introduce as many perspectives on ETHICS AND THE ENVIRONMENT as students feel they need in order to deal, ethically, with environmental problems.

PHIL 667-010 BIOETHICS

Practical introduction to methods in bioethics giving an understanding of the ethical dimension of such developments as growing human brain tissue in chimp brains, modifying the genetic makeup of our crops, and manipulating stem cells. Discusses and examines current controversies. Prior classes in either bioscience or philosophy strongly recommended.

PHYSICS

PHYS 467-010 APPROACHES FOR SOLVING PHYSICS PROBLEMS

Broad view of physics in preparation for further study in subject matter.

PLANT AND SOIL SCIENCES

PLSC 167-010 SOILS AND ENVIRONMENTAL ISSUES

Investigates how soils affect air quality, how soils affect water quality, and answer the question; when is it dirt, and when is it soil?

PLSC 367-010 FRUIT SCIENCE

A study of the major temperate zone fruit crops, their climatic requirements, growth and fruiting habits, and the principles involved in their production, harvesting, and marketing.

PLSC 367-080 HNRS CLQ: CHOCOLATE

Explores the deep, dark mysteries associated with the use of chocolate over the millennia. Covers origin, horticulture, chemistry, nutrition and properties. Or strictly for fun, this may be the course for you. Weekly taste test!

PLSC 467/667-010 ENVIRONMENTAL VIRIOLOGY

In depth consideration of viruses as they occur in natural environments. Includes basic biology of bacterial viruses; their importance as model systems; occurrence and detection of pathogenic viruses in natural environments; and the roll of viruses within microbial communities. Prereq: BISC 300 or PLSC 319 or equivalent, and permission of instructor.

PLSC 467/667-011 WEED SCIENCE: PRINCIPLE AND APPLICATION

Provides an introduction to weed science, focusing on applied weed management strategies. Includes knowledge about weeds, herbicide application techniques, background on tillage and cultural control methods, plant and soil system interactions with weeds, and the importance of biotechnology in weed management.

PSYCHOLOGY

PSYC 467-011 RESEARCH METHODS

Reviews the major issues involved in the design of psychological experiments. Includes measurement of psychological variables, internal and external validity of experiments, research with single subjects, and research ethics. Discusses both laboratory and field research. For students who plan to apply to graduate school in psychology.

PSYC 467-012 COGNITION AND EMOTION

Focus on the interplay between affective and cognitive processes-how feelings influence thought, and vice-versa. Includes the relationships between thinking, feeling, and the brain; how feelings might be related to self-consciousness; and how cognitive processes are altered in emotional disorders.

PSYC 867-010 INTELLIGENCE AND ACHIEVEMENT TEST

Provides training in the administration and interpretation of the major intelligence and achievement tests used in the assessment of children and adults.

PSYC 867-011 ORGANIZATIONAL BEHAVIOR

Study of attitude formation, motivation, commitment, and performance among employees.

SOCIOLOGY

SOCI 367-010 ISSUES IN EMERGENCY MANAGEMENT

Explores the changing nature of emergency and disaster management nationally and globally, and the issues that currently confront emergency managers with respect to planning, preparedness, mitigation and disaster recovery. Reviews the development of civil defense, emergency management and homeland security from an historical perspective. Discusses the professionalization of emergency management. Presents the effects of recent terrorist events.

SOCI 367-011 THE IMPACT OF SPORTS ON INTEGRATION AND CULTURE

Focuses on the United States, but includes a look at third world nations and worldwide imperialism. Starts in the mid 1800's with the sport of cycling and continues through to the 1968 Olympic boycott. Benefit to students in BAMS, HIST, SOCI and POSC.

SOCI 467-010 ORGANIZED CRIME

Seminar explores functions of organized crime; its history in the U.S., its relationship to ethnicity and its principal illegal activities.

SOCI 667-010 RACE, CLASS AND GENDER

Examines the intersecting inequality created by race, class, and gender stratification. Specific topics of investigation include economic restructuring and the labor market, increased immigration and population diversity, interest and the growth of identity movement, and new forms of the family-work nexus resulting from these social changes.

SOCI 667-011 RACE AND CRIME

Provides an introduction to the social scientific literature on racial inequality, crime, and the criminal justice process. Focus on analysis of competing theoretical explanations for interracial differences in crime rates and racial patterns in the apprehension, adjudication, and punishment of offenders. Highlights how media and political discourse reinforces racialized understandings of crime, offenders, victims, and criminal justice actors.

SOCI 667-012 TEACHING IN THE SOCIAL SCIENCES

Primary objective of this seminar is to stimulate interest in talking about teaching among faculty and graduate students in Psychology, Political Science and Sociology, each of which faces challenges in communicating our disciplines to undergraduates. These challenges constitute the content of this course.

STATISTICS**STAT 467/667-011 REGRESSION AND EXPERIMENTAL DESIGN**

Provides an introduction and overview of inferential methods used in analyzing regression models and linear models for experimental designs. Material and applications are appropriate for upper level undergraduate students, graduate students, and research scientists in the Biological and Life Sciences, Sociology, Political Science, and Psychology, and students pursuing a minor in statistics.

STAT 667-010 TIME SERIES ANALYSIS

Introduction to fundamental topics in time series analysis. Features the Box and Jenkins techniques of fitting data into autoregressive moving averages in the time domain. Includes an introduction to the statistical packages needed for computations.

URBAN AFFAIRS AND PUBLIC POLICY**UAPP 667-011 CYBERLAW & E-LIABILITY**

Reviews the basics of cyberlaw as well as examining employer and manager liability for employee use of the Internet. Includes issues such as copyright, privacy, cybercrimes, and telecommuting responsibilities of managers, e-mail liability, cyberslacking, digital moonlighting, and online ADA compliancy. Examines the establishment of appropriate internet-management policies.

UAPP 667-012 CONTEMPORARY TOPICS IN URBAN AFFAIRS & PUBLIC POLICY

Designed to bring recognized scholars in urban affairs and urban leaders together with students on a bi-weekly basis. Provides an opportunity for wide ranging discussion of current policy and research issues concerning communities and their citizens related to development, planning, democratic practice, social equity, and governance within local, regional, national, and world contexts.

UAPP 667-013 GIS IN PUBLIC POLICY

Presents examples of the use of GIS by the public sector at local, national and international levels. Includes hands on instruction in basic GIS use followed by more extensive hands on study of local and regional data. Incorporates the use of data in fields such as environmental analysis, health planning, land use planning, and education. Supplemented by demographic and socio-economic data drawn from the U. S. Census.

UAPP 667-014 SEMINAR IN COMMUNITY DEVELOPMENT & NONPROFIT LEADERSHIP

Examines the complex ways in which the concepts of community, analysis and development are used and understood. Students connect the concepts to issues, problems or policy alternatives affecting local communities by participating in applied projects involving one or more students or student-faculty teams

UAPP 667-015,016 INFORMATION TECHNOLOGY IN THE PUBLIC & NONPROFIT SECTOR

Introduces students to the issues surrounding IT Infrastructure in the public and nonprofit sectors. Focuses on three themes that impact the adoption, implementation, and evaluation of IT efforts: technology, policy, and administration.

UAPP 667-017 DEALING WITH CULTURAL DIFFERENCES AND ORGANIZATIONAL ADVANCEMENT

Intended to help individuals from diverse cultural backgrounds achieve organizational advancement and develop strategies to manage unique challenges they may face. Explores issues unique to diverse professionals; gains an understanding about unwritten rules, survival tools and techniques in today's workplace.

UAPP 667-018 MYERS -BRIGGS & EFFECTIVE ORGANIZATIONS

An introduction to the use of the Myers-Briggs instrument as a means of first understanding yourself and others and then building effective organizations with the gifts and talents of all members of the organization.

UAPP 867-011 PRINCIPLES OF EPIDEMIOLOGY FOR POLICY ANALYSIS

Introduces methods of epidemiologic investigation of diseases and other health-related disorders. Includes epidemiologic principles and techniques for monitoring, surveillance, and causal inference. Presents randomized trials, case-control studies, and cohort studies. Experience in measurement of morbidity and mortality, analysis of environmental hazards, health services evaluation, sensitivity and specificity, and risk assessment. Prereq: Graduate-level statistics, prior or concurrent.

WOMENS STUDIES

WOMS 267-010,080 WOMEN IN GLOBAL PERSPECTIVE THROUGH FILM

Explores women's experience through five feature films or about women cross culturally. Students will view the films, read a short article pertaining to each film and discuss and/or react to the themes and issues suggested by the film.

WOMS 389-010,080,410 TPCS: WOMEN AND HEALTH ISSUES

Examines women's health issues in comparison to men's including such topics as: longevity, cancer incidence and outcomes, cardiovascular diseases, psychiatric diseases, as well as childbearing issues and menopause.
