ACADEMIC CALENDAR: DATES TO REMEMBER

Thursday - Friday, November 15 - November 30 Registration for 2002 Spring Semester (02S).

Monday, January 7 Last day for payment of Spring Semester fees without \$40 late payment fee.

Tuesday, January 22 Late registration and drop/add begins. See UDPHONE instructions.

Sunday, February 3 Residence hall check-in for returning students, 9:00am - 9:00pm.

Monday, February 4 Classes begin at 4:00pm.

Friday, February 15 Deadline for filing application for graduate degrees to be conferred in May 2002.

Monday, February 18 Last day for late registration and change of registration (drop/add) without financial obligation. After this date: A one-time \$20 processing fee will be charged to students who make changes of registration. Students withdrawing from courses will receive a grade of "W" and will be charged tuition. Last day for textbook refunds. Undergraduates: Last day for completion of deferred examination and incomplete work (grade I) from 2001 Fall Semester (01F) and 2002 Winter Session (02W).

Friday, March 1 Graduate students: Deadline for completion of deferred examinations and incomplete work (grade I) from 2001 Fall Semester (01F) and 2002 Winter Session (02W).

Friday, March 29 Spring recess begins after last scheduled class.

Monday, April 8 Classes resume after spring recess at 8:00am.

Monday, April 22 Last day to change registration or to withdraw from a Spring Semester course without grade penalty and dean's approval. (See February 18 for financial obligation.)

Tuesday, April 23 Registration for 2002 Summer Session begins.

Monday - Friday, April 15 - April 26 Registration for 2002 Fall Semester (02F).

Friday, May 3 Honors Day - Modified class schedule.

Wednesday, May 15 Last day of classes, classes end at 10:00pm.

Thursday, May 16 Reading day; evening examinations will be scheduled.

Friday, May 17 Final exams scheduled in the morning, reading period in afternoon and evening.

Saturday - Sunday, May 18 - May 19 Reading days.

Monday - Friday, May 20 - 24 Final exam week. Exams end on Friday; Residence halls close at 10:00pm.

Saturday, May 25 Commencement

Monday, May 27 Holiday - University Offices Closed.

STUDENT SERVICES

The Student Services Building offers a variety of administrative services in a single location. In this facility you can make arrangements for dining plans, financial aid, UD1 FLEX accounts, registration, fee payment, parking, ID cards, and telephone services. Electronic kiosks are available in the building for you to quickly and conveniently check the status of your financial aid, obtain a copy of your class schedule or review your account statements. The Student Services Building is a convenient walk from anywhere on campus. Located on Lovett Avenue, just behind Pearson Hall, it is close to the Perkins Student Center and to several parking facilities. Among the services available are:

ACCOUNT SERVICES (2126) (FAX - 4056)

Account Balance
Billing Inquiries
Delaware Plan
Refund requests
Sibling tuition credit

CASHIERS' OFFICE (1241)

Semester payments
Installment payments
Room deposits
Flex deposits

FINANCIAL AID (8761)

General financial aid information and FAFSA's
Federal Perkins/Nursing promissory note signing
Federal Work-Study job placement

PUBLIC SAFETY (1184)

Purchase Parking Permit

REGISTRAR (2131) (FAX - 3005)

Registration
Class schedules
Transcripts (1289)
Enrollment certification (8940/8987)
Standardized tests (GRE, LSAT, MCAT, etc.) (6717)
UDPHONE helpline (8722)

STUDENT TELEPHONE SERVICES (4347)

UD#1 CARD (ID CARD) (2759)

UD1 FLEX OFFICE (2273/4033)

UD1 FLEX Account information
Dining Plan/Points information
Suspend lost/Stolen cards

MISCELLANEOUS

General information about readmission and housing
Self-Service computer terminals for
access to a variety of information
Notary Public

Important Information About Tuition:

Every student MUST submit a Fee Payment Form each semester, even if no payment is required. It is due by January 7 for 2002 Spring Semester. Students who do not receive the 2002 Spring fee payment materials at the permanent address by Dec. 17 should contact the Account Services Office for a duplicate.

Student tuition and fees are based on registration at the end of the late registration/change of registration period (February 18, 2002). **THERE ARE NO REBATES OF TUITION AFTER THIS DATE.** Students who withdraw from courses after February 18, 2002 will be charged tuition.

Tuition is charged according to student classification: Matriculated undergraduates are charged undergraduate rates. Graduate students are charged graduate rates. MBA/EMB please see special MBA/EMB rates.

Non-matriculated students (CEND - Continuing Education non-degree) are charged according to the course level: 000-499 charged at undergraduate rates and 500-999 charged at graduate rates.

Residency classification for tuition purposes should be resolved prior to the fee payment deadline. Call 831-1554 or go to the Service Desk in the Student Services Building for information.

Matriculated Student Payment Options:

- Payment in full* *Payment due January 7, 2002.*
- Installment Plan* *\$50.00 fee. Four equal payments on Jan. 7 and Feb. 20, March 20, and April 19.*
- Delaware Plan* *Contact the Account Services Office for information.*

After the initial payment, any changes in registration, housing, or meal plan must be paid at the time of the change to avoid installment fee and/or penalties.

Tuition for Additional Credit Hours

There is an additional charge at the per credit hour rate for undergraduate registration in excess of 17 credit hours.

Credit Hours	DELAWARE RESIDENT Undergraduate	NON-RESIDENT Undergraduate
18	\$ 199.00	\$ 578.00
19	398.00	1,156.00
20	597.00	1,734.00
21	796.00	2,312.00

Charges are the same for courses taken for credit or as an auditor (listener).

MBA/EMB - Tuition rates for graduate students classified as Masters of Business Administration or Masters of Economics/Business Administration.

Tuition Rates	DELAWARE RESIDENT	NON-RESIDENT
Per Credit Hour	\$ 334.00	\$ 770.00
Full-Time (9 or more credit hours)	3,010.00	6,930.00

- UD Online Video Fee \$90.00
- New Student Orientation
 - Charged to all new Undergraduate and Transfer Students whether or not they attend..... \$50.00

***** All tuition and fees are subject to change**

IMPORTANT POLICIES AND INFORMATION

Advertisements

The advertisements in this booklet are solicited by the publisher. The University receives no profit from it, nor does the University endorse any of the products of the advertisers.

An Equal Opportunity/Affirmative Action Employer

The University of Delaware is committed to assuring equal opportunity to all persons and does not discriminate on the basis of race, color, gender, religion, ancestry, national origin, sexual orientation, veteran status, age, or disability in its educational programs, activities, admissions or employment practices as required by Title IX of the Educational Amendments of 1972, Title VI of the Civil Rights Act of 1964, the Rehabilitation Act of 1973, the Americans with Disabilities Act, other applicable statutes and University policy. Inquiries concerning these statutes and information regarding campus accessibility should be referred to the Affirmative Action Officer, 305 Hüllihen Hall, (302) 831-2835 (voice), (302) 831-4552 (TDD).

Family Educational Rights and Privacy Act

Description of the Act

The Family Educational Rights and Privacy Act of 1974 grants to students certain rights, privileges, and protections relative to individually identifiable student educational records which are maintained by the University. Specifically: (1) Students' educational records (with the exception of directory information) will be released to third parties outside the University only with the written consent of the student. The University reserves the right to release educational records to appropriate parties in a health or safety emergency or when the student's well being is of concern. (2) Students have the right to inspect their own individually identifiable educational records. The right may be exercised by completing a request form in the Office of the University Registrar, 315 Hüllihen Hall. (3) Students have the right to challenge information contained in individually identifiable educational records. The procedure is described in the policy statement referred to below. (4) A copy of the policy statement describing the University's regulations for this act may be obtained from the Student Services Building, Lovett Avenue.

Directory Information

The Family Educational Rights and Privacy Act of 1974 permits the release of directory type information to third parties outside the institution without written consent of the student provided the student has been given the opportunity to withhold such disclosure.

The University releases, upon inquiry to third parties outside the University, directory information without written consent of the student. Directory information includes name, address, (including e-mail), telephone number, college class, major, dates of attendance, enrollment status, anticipated dates of graduation, degrees, honors and awards conferred and participation in officially recognized activities and sports. Students may withhold directory information by going to the Student Services Building.

Note: While the withholding request may be made at any time, students wishing to have directory information withheld from the student directory should submit their requests no later than six weeks prior to the first day of classes of the Fall Semester.

Course Changes After Publication

Every effort is made to have course information accurate at the time of publication; however, departments may need to make changes to their courses after publication. Students are advised to consult departmental bulletin boards.

Statement of Responsibility

The University of Delaware community values both personal and academic freedom. All members of the campus community have the personal responsibility to promote an atmosphere of civility in which the free exchange of ideas and opinions can flourish. We do so by learning from individual and collective differences and respecting every human being.

Enrollment Restrictions

The University of Delaware reserves the right to refuse for good and sufficient reasons enrollment of any applicant. Any applicant who is refused enrollment will, on written request, be provided with a statement of the reasons for the refusal of enrollment.

University Policies and Procedures Catalog

Students should read and understand the academic regulations section in the University's Undergraduate and Graduate Catalog.

Catalogs are sold at the University Bookstore. Catalogs are available for reference use in Newark at the Student Services Building, Graduate Office, Clayton Hall and other University locations throughout the State. The University Policies and Procedures catalog is also available from a link on the University's homepage (www.udel.edu).

Seat Claim Policy

Classes are sometimes over-subscribed, and it is not always possible to accommodate all requests for assigned seats. To address this problem, the University has established a seat claim policy. Seat assignment in classes is based on such factors as classification, major, course status, and intended audience. Students are expected to occupy their confirmed, assigned seats within a reasonable period or time. The following policy applies to all classes:

Unless excused by the faculty member, students holding a confirmed assigned seat in a class will have relinquished their seat if they have not personally appeared in class to claim the seat by the third meeting for a class scheduled to meet three times a week, by the second meeting for a class scheduled twice a week, by the third meeting for a class scheduled five times a week, or by the second meeting for a class scheduled once a week. If the student does not claim the seat within the time limit specified above, and does not drop the course, the instructor has the option of assigning the student a grade of "Z" at the end of the term. It is the responsibility of the student to drop each course that he/she does not plan to attend, even when the student's registration is cancelled for non-payment of fees. Failure to drop a course will result in a grade of Z.

HOW THE REGISTRAR'S OFFICE WILL USE YOUR SCHEDULE REQUEST FORM

When reading your form, the Registrar's Office will first attempt to schedule you in your first primary request. If we are able to schedule you, we will then go to your second primary request passing over the corresponding alternate request. If we are not able to schedule you in your first primary request, we will then look at your first alternate request located directly below your first primary request. If there is no alternative request, we will go to the next primary request.

The above steps will be repeated for each of the course requests until your desired credit load is reached or until all your requests have been considered.

HOW COURSES ARE ASSIGNED TO STUDENTS

For students who register during the registration period, assignment to courses will be based on a distinct set of priorities, involving your level, major and class (senior, junior, etc.).

Level - With courses at the undergraduate level, undergraduate student requests will be satisfied before any graduate or continuing education student request are considered. At the graduate course level, graduate students have first priority. In courses offered through the Division of Continuing Education, priority is given to continuing education students.

Major - Subject area majors, in general, will be seated in a course section before students who are not majors. For example, a senior English major will be seated in an English course before a senior Physics major and conversely, a Physics major will have higher priority in a Physics course. Minors will be given priority in a similar manner.

Class - At the undergraduate course level, priority is given based on your class. Therefore, a senior will be seated in a course section before a junior, a junior before a sophomore and so on. Your class is based on your number of earned hours. Students with 27 or fewer credits are classified as freshmen, those with 28 to 59 credits are classified as sophomores, those with 60 to 89 credits are classified as juniors, and those with 90 or more credits are classified as seniors.

HOW TO IMPROVE YOUR CHANCES OF RECEIVING A COMPLETE SCHEDULE

Course requests should be placed in priority order on your form. Courses will be considered in the order that you have placed them. With all things being equal (major and classification), a student who places a course in block #2 will be enrolled in the course before a student who placed the same course and section in block #3.

Give an alternate request wherever possible. When we are unable to schedule you in your primary requests, we will then attempt to schedule the alternate request located directly below your primary request.

List as many courses as you wish on the schedule request form. You will be enrolled in courses until your desired credit load is reached.

Drop/Add Information

Drop/add will be available by using UDPHONE, the interactive voice response system and SIS+ Personal Access, the interactive student information system available on the Web. SIS+ Personal Access is available on electronic kiosks on campus, or by using a secure web browser at computing sites on campus or through a network connection in your home or dorm room.

Drop/add for the 2002 Spring Semester begins January 22, 2002. The first day you may begin drop/add depends on your classification. Your classification is based on the number of credits you have earned by the end of the Fall Semester.

Student Classification	First Day to Drop/Add
Graduate Students	January 22
Seniors (90 or more credits)	January 22
Juniors (60 to 89 credits)	January 23
Sophomores (28 to 59 credits)	January 23
Freshmen (27 or fewer credits)	January 24
Continuing Education Students	January 25

Drop/add will continue through UDPHONE and SIS+ Personal Access until February 18, 2002. All registration changes made through UDPHONE and SIS+ Personal Access are subject to final approval of the University Registrar and/or the student's dean.

AFTER THE FREE DROP/ADD PERIOD

You may change your registration until the end of the eighth week of the semester. There will be a \$20 processing fee per semester charged to students who make changes to their registration.

- **To add a course** you need to use a Course Permit form. You can only add a course by obtaining permission of the dean of your college.
- You may use UDPHONE or SIS+ Personal Access to **withdraw from a course**. A grade of "W" will be posted and tuition will be charged for course withdrawals.
- **To change your grading options**, e.g. from letter grading to pass/fail, use UDPHONE or SIS+ Personal Access. See the instructions in the centerfold of this book for more detail.
- If you have **questions about your course registration or change of registration**, go to the service counter at the Students Services Building. Continuing Education students should contact the ACCESS Center in Clayton Hall.

NOTE: Any changes after the eighth week deadline require the approval of the dean of your college

The dean will permit students to withdraw from courses only for unusual circumstances beyond a student's control and not for reasons of academic performance. Dean's approval does not negate financial obligation.

Grade Reporting

Grades for the Spring Semester 2002 will be available beginning Wednesday, May 22 by calling UDPHONE 302-837-4663 or using SIS+ Personal Access. Instructors have at least 72 hours from the final exam to submit their grades to the Registrar's Office. More than one attempt to access your grades each day will most likely not reflect new grades since grades are posted nightly. Paper grade reports are not automatically mailed to all students at the end of the semester. If you would like a paper grade report, after you listen to your grades on UDPHONE, press 9# as instructed. You will then be given the option to have a grade report mailed to either your permanent or local address.

UD#1 Card Information

Students are required to carry the UD#1 CARD. The UD#1 CARD area is located in the Student Services Building, Lovett Avenue, Newark (302-831-2759). Our hours are 8:30 am - 4:30 p.m. For your protection, it is necessary to present a picture ID for positive identification before obtaining/replacing a UD#1 CARD. A \$15 charge is applied for replacement cards. Examples of privileges that MAY be accessed with the card are: UD#1 FLEX account, UD#1 ACCOUNT with MAC, (Wilmington Savings Fund Society), sporting events, the library, dining facilities. Access to privileges is determined by registration status and account balances. Lost and stolen cards should be reported immediately by dialing 831-2273, 24 hours a day.

Math Placement Exam Schedule

The Department of Mathematical Sciences requires all students to take a placement exam before registering for their first math course.

The following is the placement exam schedule for the Fall Semester:

Thursday, January 17	9:30-10:30 AM	106 Ewing Hall
Monday, February 4	9:30-10:30 AM	106 Ewing Hall

Questions should be directed to Lita Toto in 116 Ewing Hall, 302-831-2140.

Continuing Education Students may take the placement exam at the ACCESS Centers by appointment. Call 302-831-2741 for information.

MATH CREDIT BY EXAM

Mathematical Sciences Credit-By-Exam for mathematics courses will be given Saturday morning, February 9, 2002, from 9-11 AM in 209 Ewing Hall. All students wishing to take the exam should first obtain the approval of the Director of Undergraduate Studies. Inquiries can be made in 301 Ewing Hall. After obtaining approval, students must bring the prepared credit-by-exam forms, available at the Student Services Building to the Director or 301 Ewing at least five working days before the exam is scheduled. Credit-by-exam is not given for courses below the 200 level. Students are permitted to sit for the exam only once.

Veterans' Information

Information about Veterans' Eligibility and Certification can be obtained from the VA clerk located in the Student Services Building, Lovett Avenue, 302-831-8987.

Continuing Education Students

Students who have not been formally admitted to the University's undergraduate or graduate degree programs are non-matriculated students. They are classified by the letters CEND, Continuing Education Non-Degree.

No particular educational background is required to register for courses and CEND students are not limited to only evening or off-campus classes. CEND students may register for up to 7 credits of course work offered at any time or location, provided they meet the course prerequisites and restrictions. To register for more than 7 credits, CEND

students must have approval from an ACCESS (Adult Centers for Continuing Education Student Services) counselor. Other University policies and procedures are generally the same for CEND students as for matriculated students.

For additional information about advisement, registration and payment, transfer credit, textbooks or parking, please contact the ACCESS Center in Clayton Hall, 302-831-2741.

WHERE AND WHEN TO REGISTER

Continuing Education students may register for open seats in evening or daytime classes, on-campus or off-campus. In-person registration with payment begins Jan. 7, 2002 at the following locations:

Wilmington Campus, Student Service Center

Monday-Thursday	12:00 PM-7:00 PM
Friday	CLOSED

University's Downtown Center

8th and King Streets, Wilmington

Monday-Thursday	8:30 AM-6:30 PM
Friday	CLOSED

Newark Campus, Clayton Hall

Monday and Tuesday	8:00 AM-8:00 PM
Wednesday and Thursday	8:00 AM-6:30 PM
Friday	8:00 AM-5:00 PM

Dover Parallel Program Office, University of Delaware offices at Delaware Technical & Community College, Terry Campus: Call 302-857-1214 for evening counseling and academic advisement hours.

Monday-Friday	8:30 AM-4:30 PM
---------------	-----------------

William A. Carter Center, Jack F. Owens Campus, Delaware Technical & Community College, Georgetown, DE

Call 302-855-1630 for information or an appointment.

Monday-Thursday	8:30 AM-6:00 PM
Friday	8:30 AM-NOON

Off-Campus Courses

Continuing Education students may request seats in any courses offered by the University, day or evening, if the student meets the prerequisites. Continuing Education off-campus courses (with location notes) are listed with regular campus courses and in a separate section at the back of this book (following Women's Studies courses).

NOTE: Some evening course sections in Newark and Wilmington reserve seats for CE students. Continuing Education students can learn more about University credit classes at the Division of Professional & Continuing Studies web page at: <http://www.udel.edu/ce/> or the University's web page at: <http://www.udel.edu>

For additional information, call the ACCESS Center, 302-831-2741.

Pathways to Discovery

Spring 2002

Pathways to Discovery is part of the three-year pilot program in General Education approved by the Faculty Senate. Like its freshman-year counterpart, LIFE, Pathways to Discovery is designed to provide integrated academic experiences that introduce students to the resources of the university and foster core intellectual skills required for a successful undergraduate career. Pathways accomplishes this by means of thematic interdisciplinary courses, often designed collaboratively by teams of faculty from different disciplines, but all of which offer students exciting opportunities to approach topics of general interest from cross-, inter-, or multidisciplinary perspectives. While students are not required at present to take any Pathways courses, these courses are particularly recommended for freshmen, especially undeclared freshmen.

Pathways courses are different from the usual introductory-level survey courses, which treat a single discipline, because they link to a variety of disciplines and experiences and provide a foundation for, and hence “pathway” to, other fields, campus experiences, campus resources, and careers. Because of their interdisciplinary and multidisciplinary nature, Pathways courses may have a variety of means of delivery, including multiple instructors, discussion sections, technological support, and enrichment activities. Pathways courses strive to meet many of the ten approved goals of General Education, but especially Goal 1 (communication and reasoning), 2 (critical thinking), 3 (independent and collaborative work), and 6 (intellectual curiosity for lifelong learning).

Listed below are courses offered in the Spring of 2002 which have been approved as Pathways courses, or will be submitted to the Faculty Senate committee on General Education. (see <http://www.udel.edu/pathways>)

Approved Pathways Courses

EDUC167 010	Hip Hop Journey	Meacham
ENGL 267 (Parallel Campus)	Pathways: Women at Work	Teague
HESC 155 010	Personal Health Management	Orsega-Smith

University Honors Program

HONORS COURSES & OTHER OPPORTUNITIES

Honors courses are open to any qualified undergraduate on a space-available basis. Students who did not enter the University through the Honors admission process qualify with a 3.00 or higher UD grade point average. Registration priority is given to those needing a particular course to satisfy requirements for one of the forms of Honors recognition.

Honors courses are offered in many disciplines and colleges. Most feature small class size, individual attention, and creative approaches to course content. Look for 080 section numbers. "HNRS:" is in the course title, a designation that will appear on your transcript. Special booklets describing Honors courses in Fall and Spring Semesters are available in the Honors Center and Honors Program offices (180/186 S. College Ave.) and at various other campus locations, and on the Honor's Program's website: <http://www.udel.edu/honors/academics/>

FORMS OF HONORS RECOGNITION

Advanced Honors Certificate

Open to any student in any major, through the class of 2003. Requires 21 Honors credits after a student's freshman year, including a one-credit Honors forum, and a 3.00 GPA.

General Honors Award

Available for freshman Honors admits to the University, Class of 2004 and after. Requires 18 Honors credits in the first two years of University study, 12 in the freshman year, a 3.00 GPA, and residence in first-year Honors housing.

Honors Foreign Language Certificate

Requires study abroad, specific courses, and a 3.00 GPA.

Honors Degree

Available in over 84 majors. Requires 30 Honors credits, 3.40 GPA; the Honors Degree with Distinction also requires a senior thesis.

Undergraduate Research Program

University faculty accept undergraduates as their assistants or junior members of their research teams in the belief that unusually well-motivated students should be given the chance, while they are still beginners, to see and have a part in what is happening at the frontiers of knowledge.

The Undergraduate Research Program helps interested students and faculty to meet and discuss apprenticeship possibilities. Most students earn academic credit for the apprenticeships; qualified work-study students may earn grant money doing research. About 120 stipends of \$3000 are available for full-time summer undergraduate research. Projects are available in all University departments and areas of research. The Undergraduate Research Program also administers the senior thesis program for the Degree with Distinction and Honors Degree with Distinction. For further information, see <http://www.udel.edu/UR>. For assistance in locating a project, visit the Undergraduate Research Program, 188 Orchard Road, (phone 302-831-8995).

Study Abroad Opportunities

University of Delaware credits are earned while participating in these overseas study programs.

The Center for International Studies (CIS), the **Department of Foreign Languages and Literatures (FLL)** and a wide variety of other academic departments offer year-round overseas study opportunities for credit. Courses are taught in English, except as noted.

Fall Semester Programs:

Applications due: **March 29**

- London, England (CIS)
- Paris, France (FLL); all courses taught in French
- Granada, Spain (FLL); all courses taught in Spanish

Spring Semester Programs:

Applications due: **Mid-October**

- San José, Costa Rica (CIS, FLL, Environmental Studies, and Latin American Studies); SPAN and HIST courses taught in Spanish
- London, England (CIS)
- Paris, France (CIS); FREN courses taught in French
- Bayreuth, Germany (FLL); all courses taught in German
- Siena, Italy (FLL); ITAL courses taught in Italian
- Granada, Spain (CIS); SPAN courses taught in Spanish

Recurring Summer Session Programs:

Applications due **March 15**

- Paris, France (FLL and Music Dept.); FREN course taught in French
- London, England (various departments)
- Kobe, Japan (FLL); most courses taught in Japanese
- Granada, Spain (FLL); some courses taught in Spanish
- Chur, Switzerland (HRIM)

Additional programs expected; contact CIS

Winter Session Programs are sponsored by various departments

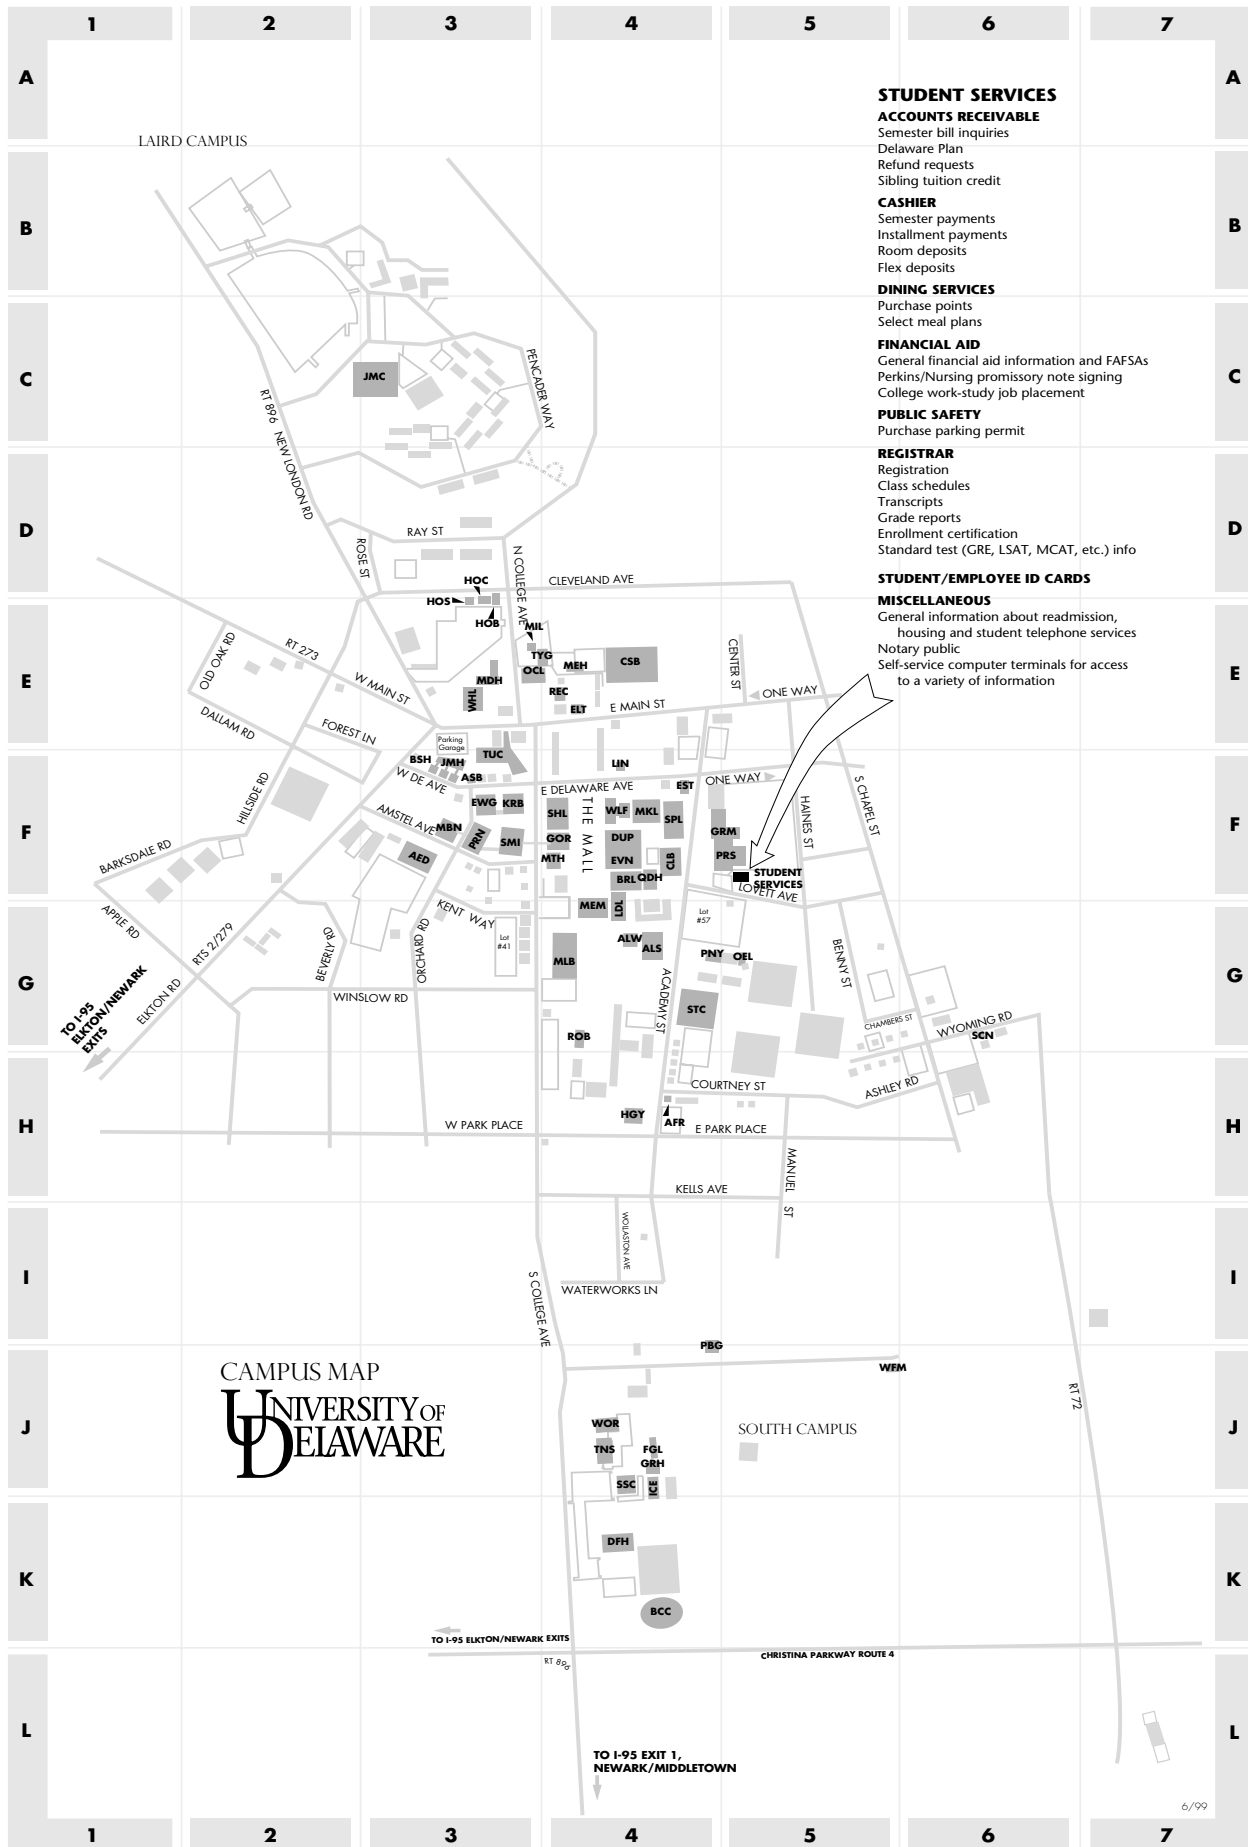

Applications due: **early October**

STUDY ABROAD MERIT SCHOLARSHIPS: available for programs listed above.

NEED-BASED SCHOLARSHIPS: Also available for programs listed above are Niels, First State, and Starr Study Abroad Scholarships, awarded based on financial need and academic merit. These awards cover between \$1,000 and a full program fee for 75-100 students per year. For information on Scholarships, check out the website at www.udel.edu/studyabroad/scholarships.

For more information about these programs, visit www.udel.edu/studyabroad or contact CIS (831-2852; studyabroad@udel.edu) or FLL (Marion Bernard-Amos, FLL Study Abroad Coordinator; 831-4385; mba@udel.edu). Internships are offered on a limited basis through the London program during the fall and spring semesters and through the Bayreuth spring semester.

CIS also offers a number of exchange programs at other institutions including Jönköping Institute for Business Studies (Sweden), Université de Lyon II (France), Bond University (Australia) and others. Credits earned on these exchange programs may be transferred to UD. The University also participates in The Denmark International Study Program (DIS).

UD ONLINE/DISTANCE LEARNING

The University's UD Online/Distance Learning program allows you to take University of Delaware courses using a variety of technologies. A detailed description of course formats is listed below. The course listing section of this registration booklet indicates the course formats for specific courses. Exams are proctored at various University sites throughout the state. Students will receive an exam schedule indicating exam times and locations. Students who are unable to come to a University of Delaware site must arrange for an exam proctor, following guidelines provided by the UD Online office. Course requirements for Distance Learning classes are the same as for on-campus courses. Students are able to contact their instructors throughout the semester for assistance. Participation in a Distance Learning course does not affect a student's classification, and there is no distinction on student transcripts between on-campus and Distance Learning courses. For more information, please visit the UD Online website at: www.udel.edu/ce/udonline.

REGISTRATION

Students register through Continuing Education as an individual or as a participant at an official work site or community college site. Students cannot use UDPHONE, or the World Wide Web to register, drop, or make changes to UD Online courses. Call the UD Online/Distance Learning office at (302) 831-1053 for information and UD online registration and payment forms. Forms are also located at the following website in a printable format: www.udel.edu/ce/udonline or they can be faxed to (302) 831-3292. UD Online classes are limited in size to allow faculty the opportunity to provide personal attention. Many popular classes fill quickly. Early registration is advised.

Important Advance Registration Information: Those students who register during the University's Advance Registration Period, which begins November 15, are not required to pay at the time of registration, but are still required to complete the UD Online registration forms. Payment for advance registrations are due by January 7, 2002. **If payment is not received by January 7, 2002 the student's request for a distance learning class will be canceled.** Should those students wish to enroll again, they must register in person at Clayton Hall room 108, or at the nearest Continuing Education ACCESS office.

Students who do not register during the Advance Registration Period are required to complete the UD Online registration forms and pay at the time of registration.

FULL TIME MATRICULATED STUDENTS

If you are a full time matriculated student, you must obtain permission from your Academic Advisor to register for a UD Online course. The College of Business & Economics requires all B&E majors to obtain permission from Dean Whittaker. Full-time and part-time matriculated students on probation are discouraged from taking UD Online courses and are required to obtain permission from their advisors. Academic Advisors must email permission for their advisees to Melanie Rehberg, Program Manager UD Online and Ann Lopata, Coordinator of ACCESS Centers. Their email addresses are: melanier@udel.edu and lopata@udel.edu. For additional information regarding full time matriculated students registering for a distance course, please visit www.udel.edu/ce/udonline/full_time.shtml

ACADEMIC CALENDAR

The UD Online academic calendar matches the University campus schedule with the exception of final exam dates. Final exams for distance learning courses will be held on Monday, May 20, 2002. Please refer to the beginning of this booklet for important Academic Calendar dates.

UD ONLINE COURSE FORMATS:

Please see the course listing section of this booklet for format availability per each distance learning course.

INTERNET:

- **Web-based:** Web-based courses are developed and delivered entirely on the Internet in text version. Course syllabi and assignments are posted on the Web. Students communicate with faculty and classmates using electronic mail, newsgroups and/or chatrooms. In some courses, a CD-ROM supplements the Internet course material. Students need a Windows or Macintosh computer and an Internet connection.
- **Web-classroom:** Videostreaming and synchronized Power Point presentations allow students to see and hear actual faculty lectures, review notes and link to related resources online. These lectures are stored on the University server and may be accessed throughout the semester. A more powerful computer and higher speed Internet connection may be required for optimum course access. For details, please see the web page: www.udel.edu/ce/udonline/pc_requirements.shtml It is necessary for you to test your computer and Internet connection in order to assure your accessibility. Please note that if you are taking a Math or Engineering course, a high speed Internet connection is required. In order to test your connection, Web-classroom demonstrations are available at: <http://www.udel.edu/UMS/itv/demo> (If you are interested in a Math or Engineering course, please select one of those courses to test.)
- **CD-ROM:** The CD-ROM format is similar to the Web-classroom format, but offers students the choice of using a CD-ROM rather than relying on an Internet connection to access the course lectures. Please note that access to the Internet is still required, as supplemental course materials, resource links, email and web-based assignments may be required by the instructor. Students return the CD-ROM at the end of the semester. Minimum requirement: 4x CD-ROM drive.
- **Web-enhanced Videotape:** Primarily, web-enhanced videotape courses enable students to access the syllabus, course lectures, and electronically communicate with the instructor via the Internet. However, these courses **may** also be augmented with instructor's class notes, web assignments, and student/faculty on-line interaction using electronic mail, newsgroups, and/or chatrooms. Internet access is required.

VIDEOTAPE:

Courses offered by University faculty are taught in specially equipped video classrooms. Each lecture is videotaped in an unedited fashion and tapes are shipped to students at their work site, community college or home. Individual students pay a \$90 per course videotape handling fee in addition to their tuition. A select number of videotape courses may require Web access. Tapes are returned to UD Online at the end of the semester.

PRINT-BASED:

A hardcopy study guide or manual is the student's guide to reading assignments and preparing and submitting work to the faculty coordinator. Web access is not required.

FINAL EXAMINATION SCHEDULE

Spring Semester (02S)

The final examination schedule is based on the published first meeting day and hour of the lecture. Exams for courses that have both lecture and laboratory, or lecture and discussion period will be scheduled according to the start time of the lecture. These exams should follow the schedule printed below. However, changes may be made to this schedule due to time conflicts when scheduling final exams. Please refer to the final exam webpage in early March for the finalized exam schedule.

Multi-section courses that request a common exam or courses that require a three-hour exam do not follow this schedule. The dates and times for these exams will be announced by the instructors in early March. Final exams will be held on May 16, 17, 20-24.

CATALOG SUPPLEMENTAL COURSE DESCRIPTIONS

This section is the supplement to the current undergraduate and graduate catalogs.
Courses not found nor fully described in the 2001-02 catalog are printed here.

AGRICULTURAL AND TECHNOLOGY EDUCATION

ATED 267-010 INTRODUCTION TO AGRICULTURAL AND TECHNOLOGY EDUCATION

Designed to introduce students to the career opportunities in teaching agriculture and technology. Students examine various educational settings; conduct an exploration of their aptitude and interest in teaching, including an early clinical practicum.

ANIMAL SCIENCE

ANSC 667-010 LACTATIONAL PHYSIOLOGY

Fundamentals of physiology and metabolism involved in initiation, maintenance and cessation of lactation. Emphasis on the lactating dairy cow, however comparisons with other common mammals will be observed. Neuroendocrine control of lactation, nutrient absorption and processing by the mammary gland, and control of milk composition. Prereq: ANSC 441 or ANSC 345 or approval of the instructor

ANTHROPOLOGY

ANTH 367-010,080 HISTORICAL ARCHAEOLOGY OF AMERICAN BATTLEFIELDS

Represents the material culture interpretation of selected historical conflicts with an emphasis on the American war sites, including the traumatic effect of military occupation, the experience of a broad spectrum of social and ethnic groups in battle, and the material evidence of armed struggle. Some interpretation will be given to the wars of the twentieth century as well. Emphasizes commonality of behavior by individuals subjected to war.

ANTH 390-080 CLQ:THE IMPACTS OF EUROPEAN CONTACT ON NATIVE AMERICANS

Considers how European colonization affected the indigenous populations of North America. Examines Native American life immediately prior to European contact. Reviews effects of European arrival with a series of case studies focusing on changes in the natural environment, family life, economics, religion, and population. Examines biographies and writings presenting Native American experiences and perspectives.

ART CONSERVATION

ARTC 667-010 CLEANING SYSTEMS FOR PAINTINGS AND OBJECTS

Lecture and lab focusing on solvent and water-based cleaning systems for painted and clear-coated paintings and objects. Use cross-section microscopy to select, make and test alternative cleaning systems on objects that represent a wide range of cleaning problems. Covers understanding and selecting surfactants for grime removal; the role of pH in cleaning systems; the use of chelating agents; how to make and use solvent gels and emulsion cleaning systems; how and when to use resin soaps; and the use and practical applications of enzymes for surface cleaning.

ARTS AND SCIENCE

ARSC 367-010,080 GAY AND LESBIAN FILM

Explores gay and lesbian issues represented in film from 1980 to present. An analysis of major themes such as sexuality and gender, Hollywood heterosexism, sex versus sexuality, alternative families and AIDS will be examined in the context of cinematic representation.

ART HISTORY

ARTH 402-010 SEM:THE MODERN PORTRAIT

Modern portraiture, from the 18th to the 20th century, in the context of changing ideas of identity, individuality, and subjectivity. Topics to be considered include the portrait's historical, political, and documentary functions; self-portraiture; mechanical reproduction; avant-gardism; celebrity; gender; sexuality; and abstraction. Prereq: ARTH 227 or ARTH 228

ARTH 605-010 STDS:RELIGION, RELIGIOSITY AND RITUAL IN LIVES OF ROMANS

Investigates the material evidence of religion in the ancient cities of Rome, Pompeii, and Ostia. Explores the social and political contexts in which Romans identified with official and non-official religion, and the roles of religion in the daily lives Romans.

ARTH 617-010 ART AND MONEY: 17TH CENTURY NETHERLANDS

Examines the relations between economic matters and art and its interpretation, focusing on the Netherlands of Rubens, Rembrandt, and Vermeer. Explores Marxist explanations for the rise of Dutch painting; patronage, collecting, and the art market; the economic lives of artists; and current thinking about the connections between genres and competitiveness, prices and style, supply and the demand for originality.

ARTH 621-010 SEM:ART AND NATIONALISM IN THE MEDITERRANEAN FROM THE NINETEENTH TO THE TWENTIETH CENTURY.

After surveying modern theories of nationalism, this seminar will investigate the impact of this movement on the arts, arts institutions, and aesthetic directions of three Mediterranean nations, Spain, Italy, and Greece, which apart from being geographically and culturally related, also followed parallel ideological and political trajectories.

ARTH 627-010 DOCUMENTS AND DOCUMENTARY

Focuses on the history and practice of documentary in a variety of mediums as well as the use of documentary strategies to either blur understandings of reality or to undermine reality itself. Examines concepts including truth, fact, fiction, history. Artists and writers include Sophie Calle, Walker Evans, Errol Morris, Erich Auerbach, Roland Barthes.

ARTH 636-010 STDS:ART OF THE SEVENTIES

U.S. art from 1968 to 1981 was called "the pluralist era." This seminar will examine the positive and negative valence of that description and determine whether it or others most accurately characterizes the art of other selected nations in that decade.

ARTH 667-010 REPRESENTING AFRICA: DOCUMENTARY VIEWS OF THE PULA

Focuses on filmic representations of Africa's most diasporic people, the Fulani, and asks how their culture came to be projected so variously by those (Werner Herzog, Jim Rosellini, Robert Gardener) enraptured by their arts. The documentaries' lessons reframe scholars from Michel Leiris to William Rubin.

ARTH 867-011 CLQ:ADVANCED RESEARCH IN AMERICAN ART

For graduate students engaged in planning, researching, or writing a dissertation in the field of American art. Weekly meetings will feature presentations and discussions of individual projects. Any stage of work-from preparation of a dissertation proposal to completion of the manuscript-may be pursued.

BIOLOGICAL SCIENCES

BISC 104 PRINCIPLES IN BIOLOGY

Studies biological principles at molecular, cellular, organismal and ecological levels. Fosters biological literacy through the exploration of concepts, theories and methods in relation to topics, developments and controversies in biology that impact citizens' lives and require informed decision making.

BISC 300 INTRODUCTION TO MICROBIOLOGY

Major groups of microorganisms (algae, protozoa, fungi and bacteria) are studied. Emphasis is on the physiology, metabolism, diversity and interactions between and among each group and bacteria and their interactions with humans. Lab included.

BISC 367 GENERAL PHYSIOLOGY LABORATORY

The laboratory co-requisite for BISC-306.

BUSINESS ADMINISTRATION

BUAD 867-012 ENTREPRENEURSHIP AND RISK TAKING

Students will be exposed to contemporary lectures from entrepreneurs and leading experts in fields such as intellectual property and venture capital.

CHEMISTRY

CHEM 467-010 TUTORIAL METHODS OF INSTRUCTION

For juniors and seniors who are group tutor-facilitators in courses where problem-based learning (PBL) is used as a mode of instruction.

CHEM 527-010 INTRODUCTORY BIOCHEMISTRY

Emphasizes content more relevant to the life and health sciences. Chemistry majors should choose the section that better matches their interest and career goals.

CHEM 527-011 INTRODUCTORY BIOCHEMISTRY

Emphasizes content more relevant to engineering and allied fields. Chemistry majors should choose the section that better matches their interest and career goals.

CHEM 667-010 PROTEINS, STRUCTURE AND FUNCTIONS

Overview of structural biology, including how X-ray crystallography, MNR spectroscopy and other techniques are used to solve structures of macromolecules. Representative classes of proteins will be discussed in terms of how a protein's structure relates to its function.

CHEM 830-011 TPCS:BIOORGANIC CHEMISTRY AND CHEMICAL BIOLOGY

Provides an overview of current topics involving the application of organic chemistry to the study of biological systems. Topics include; principles of molecular design methods for manipulating biomolecular structure-function, biosynthetic pathways of natural products and recent applications of genetic engineering, applications of biomolecular and small-molecule diversity, chemical genetics. Prereq: solid background in basic organic chemistry and familiarity with basic biomolecular structure (CHEM 642 or equivalent)

CHEM 874-010 TPCS:STRUCTURE AND CHEMISTRY OF SURFACES

Covers structure and chemical properties of surfaces with the emphasis on solids. In addition to the classification of the surfaces, their thermodynamic and electrical properties are discussed along with surface analytical techniques. Spectroscopic characterization of surface chemical bonds formation and catalysis is analyzed.

CIVIL AND ENVIRONMENTAL ENGINEERING

CIEG 434-010/667-013 AIR POLLUTION CONTROL

Introduces the origins, characteristics, and environmental and health effects of priority air pollutants and the equipment commonly used to control emissions of these pollutants from stationary sources. Emphasis on understanding the principles, operation and design of different control devices. Prereq: CIEG223, CIEG305 and CHEG231 or equivalent.

CIEG 467/667-010 ADVANCED WATER RESOURCES

Advanced topics in water resources engineering including topics in groundwater flow. Prereq: CIEG 440 or equivalent.

CIEG 467/667-012 CONSTRUCTION METHODS AND MANAGEMENT

Provides an overview of today's construction industry, as well as future trends and prospects. Covers construction processes, field engineering, and project management. Equips the young engineer with the basic knowledge and skills required to function as a field engineer or construction manager. Provides practical understanding of construction necessary to produce efficient, constructable designs. Presents methods and materials employed in heavy, building, and industrial construction. Addresses estimating, cost control, quality control, safety, productivity, value engineering, claims and legal issues. Emphasis on planning and scheduling.

CIEG 467/667-017 PROBABILITY-BASED DESIGN

Course deals with application of probabilistic methods in the design and maintenance of engineering systems, with emphasis on civil/mechanical systems. Topics include modeling of randomness, identification of failure modes, computation of failure probabilities, distribution of time to failure, consequence analysis and probability-based acceptance criteria. Includes theories of multivariate distributions, stochastic processes, extreme value distributions and Monte-Carlo simulation. Prereq: CIEG 367-010, STAT 450, or MATH 250

CIEG 667-011 ENVIRONMENTAL STATISTICS AND RISK ANALYSIS

A practical coverage of statistical procedures for analysis of environmental monitoring data and risk assessment. Includes parametric and non-parametric statistical tests for research applications.

CIEG 867-010 CONSTITUTIVE MODELING OF FRICTIONAL MATERIALS

Examines the development of advanced constitutive models for frictional materials (soil, rock and concrete). Presents basic elements of models such as failure criteria, elastic behavior, and plasticity hardening theories. Discusses Hyperbolic, Rigid Plastic, Cam-Clay, Double Hardening, Single hardening, and Bounding Surface models. Prereq: CIEG 820

COMPUTER ENGINEERING

CPEG 467-010 COMPUTER NETWORK SECURITY

Surveys current topics in computer network security, including technology to protect networks and hosts against intrusion, theft and denial of service. Includes security models for networks, servers and clients, and cryptographic algorithms for authentication, privacy, digital fingerprint and digital signature. Includes network and system security protocols and the protection of electronic cash transactions. Prerequisite: CISC361 or permission of instructor

COMPUTER AND INFORMATION SCIENCES

CISC 479-010 SYSTEMS ADMINISTRATION

Introduces students to UNIX including, trouble-shooting system and network problems, hardware and software configuration and installation, and security aspects of hosts on the Internet. Discusses Multi-operating system integration. Gain hands-on experience on dedicated laboratory workstations using RedHat Linux. Preq: CISC361

CISC 479-011 WEB SERVER TECHNOLOGIES

Introduction to web server technologies. Students will install and program their own web servers, integrate the web server with a database engine, and as a term project develop a full-fledged server application. Preq: CISC 370, CISC 220 plus good working knowledge of HTML and UNIX platforms.

CISC 849-010 TPCS:MODELING AND RECONSTRUCTION OF DEFORMABLE BODIES

Advanced material in the areas spanning computer vision, graphics, visualization and image processing. We will be looking at methodologies for modeling, reconstruction, analysis and visualization. The course will consist of both concepts and mathematical elements. The major thrust of this class will not only be in group discussions, student presentations, but also in implementing various techniques, and making them available to research community. There will also be visitors from the industry who will give lectures on the related applications.

CISC 859-010 WIRELESS NETWORKS AND MOBILE COMPUTING

Provides an in-depth study of networking protocol and system software in the area of wireless networks and mobile computing. Topics include MAC layer and 802.11, ad hoc networks, sensor networks, PARSEC simulation language, GloMoSim simulation package, Mobile IP, Cellular IP, wireless TCP, middleware for mobile computing, and 3G wireless networks.

CISC 859-011 ADVANCED SOFTWARE DESIGN

Review of basic object-oriented software development; New software design and architecture patterns and frameworks; Component-based software engineering; Mobile software agents (Design, Architecture and Use); Principles of and protocols for complex software management; Java Environment for software development and management; Class Project: Developing large-scale E-Trade software application

CISC 889-010 BIOINFORMATICS

Explores basic computational issues and methods in biology. Includes algorithms for alignment, superposition, motif computation, hidden Markov models, phylogenetic trees, statistical feature detection, genetic algorithms, and database integration. Previous background knowledge in biology not required. Participation by life science students with instructor permission is encouraged.

CONSUMER STUDIES

CNST 367-010 LEADERSHIP IN DISABILITY POLICY

Study of disability from a consumer policy perspective. Examines laws and regulations to illustrate how people with disabilities have been treated historically and how leadership in developing legislative initiatives can remove community and social barriers to accessibility.

COMMUNICATIONS

COMM 418-010 MEDIA ETHICS

Examines the tensions inherent in attempts to ensure freedom of the press but to demand accountability at the same time, and the responsibilities for which our society expects the media to assume.

COMM 418-011 TPCS:IMPACTS OF NEW MEDIA TECHNOLOGY

Traces the history of the Internet and examine its impact on society, organizations and individuals.

COMM 418-012 TPCS:CRISIS NEWS

Explores the real world of broadcast news and how it's being changed by political, business and cultural trends. Studies some of the ethical and historical underpinnings of contemporary broadcasting to see if they're still being used.

COMM 418-013 TPCS:BROADCAST TELEVISION HISTORY

Focus is on the Golden Age of television broadcasting and examine some of the dominant genres of the era: western, family comedy, quiz show, variety, situation comedy, drama, and military programs. We will discuss how societal structure, social norms, economic support, and U.S. broadcasting policy are reflected in the cultural products of television.

EDUCATION**EDUC 667-010 RESEARCHING IN THE ELEMENTARY GRADES**

Focuses on using inquiry research as a tool to teach informative reading and writing in the K-8 classroom. Includes strategies for reading informative text, note taking, organizing material, informative writing, reading and writing visuals texts, and planning an effective inquiry research project in the K-8 classroom.

EDUC 667-011 DEMOCRATIC EDUCATION TODAY

Examines contemporary problems in democratic education from theoretical and practical perspectives. Revolves around a companion colloquium series of prominent invited speakers who will address relevant topics such as religious diversity, anti-racism and desegregation, sexual minorities, freedom of speech and censorship, and school finance equity.

EDUC 667-420 ANALYSIS OF PROFESSIONAL PRACTICE

The National Board for Professional Teaching Standards' five core propositions provide the foundation for developing the core experiences and exercises that enable teachers to demonstrate a high level of knowledge, skills, dispositions, and commitments. Students will be expected to show how they meet the National Board's high and rigorous standards by completing two exhibits for a portfolio that provide evidence of teaching practice through student work, videotapes of classroom interaction, and written commentaries.

EDUC 837-010/PSYC 804-010 ETHNICITY, HUMAN DEVELOPMENT AND SCHOOLING

Examines the development of children and adolescents of different ethnic groups, particularly those of color, in the context of school. Examines both conceptual and methodological issues related to conducting research with children of different ethnic groups. Includes ethnic identity, intergroup relations among children and adolescents, and racial socialization.

ENGINEERING TECHNOLOGY**EGTE 467-011/PLSC 467-011 ISSUES IN PRODUCTION AGRICULTURE**

Practicum to enhance skills and broaden understanding of issues, challenges, and technology related to agricultural production. Includes Saturday lab/field trip experiences. Opportunities for interaction with farmers and representatives from various segments of the agricultural industry.

ELECTRICAL ENGINEERING**ELEG 367-010 JAVA FOR ENGINEERS AND SCIENTISTS**

Introduces the JAVA programming language with emphasis on solving Engineering applications. Students will learn fundamental programming techniques of the JAVA language, using an UNIX programming environment. Explores engineering problem-solving; equation evaluation, Data manipulation, and graphical, GUI construction.

ELEG 467-012/667-012 OPTICAL DEVICE ENGINEERING

Introduction to advanced optical and opto-electronic devices that are used, or are being developed for use, in modern information processing systems. The technology covered includes optical fibers, diffractive optical elements, photonic bandgap devices, and a variety of active sources, detectors, and modulators.

ELEG467-014/667-014 PROGRAMMING FOR SUPERCOMPUTERS

Overview of supercomputers, parallel computers and clusters from a programmer's perspective. Programming paradigms and languages for parallel computing, emphasizing current practices and scientific/numerical applications through programming projects. Maximizing program performance on both sequential and parallel machines. Debugging and performance analysis of parallel programs.

Prereq: Prior programming experience, preferably C and /or FORTRAN.

ELEG 667-013 BIOSENSORS & BIOMEMS

Biological micro-electro-mechanical systems (BioMEMS) is an interdisciplinary technology that integrates biology with silicon devices for fabricating biosensors. Covers topics such as biological transduction mechanisms, MEMS, chemical detectors, drug delivery systems, nano-biotechnology, gene sequencing, cell and tissue engineering, biomemetic systems, and microfluidics.

ELEG 867-010 RF AND MICROWAVE TECHNOLOGY

Modern telecommunications and datacom systems operate at frequencies in the radio frequency (RF) and microwave range. This is true even for lightwave systems, in which the modulation frequencies are in this range. Explains the bias concepts and technologies required to design RF and microwave devices and systems. Examples of applications to wireless and lightwave systems will be discussed.

ELEG 867-011 ADVANCED COMP ELECTROMAGNETICS II

Studies the Method of Moments and the Finite Element Method for the numerical computation of electromagnetic fields. Such methods are integral to the analysis and design of many modern devices, including antennas, radar systems, computers, and cell phones.

ENTOMOLOGY**ENTO 467-010 CAPSTONE COURSE: INTERDISCIPLINARY NATURAL RESOURCES**

A problem-based-learning (PBL) experience designed for NRM, WC and ESS majors (and others with interest) that draws upon utilization of knowledge in a multi-disciplinary approach to examination of the White Clay Creek watershed with special emphasis on the White Clay Preserve.

FOOD AND RESOURCE ECONOMICS**FREC 367-010 ECONOMICS OF BIOTECHNOLOGY AND NEW TECHNOLOGY**

Covers economic explanations for new technologies and the way economists and agribusinesses view innovation and adoption of new products and techniques. Describes biotechnology and its role in different sectors of the economy and examines economic issues from consumer acceptance to trade to changes in market structure. Discusses new technologies with the potential for significant impacts on agribusiness.

GEOLOGY**GEOL 467-010/667-010 MINERALOGIC INSTRUMENTAL METHODS**

Techniques of examining and analyzing minerals and rocks that are relevant to understanding Cenozoic shallow geologic environments. May include optics and indicatrix theory, x-ray powder diffraction, including an introduction to clay study and to Reitveld analysis, scanning electron microscopy (SEM) and energy-dispersive analysis (EDS) transmission electron microscopy (TEM) cathode luminescence, x-ray fluorescence analysis (XRF), mass spectroscopy of O and C isotopes, and laser-ablation, induction-coupled plasma mass spectroscopy (LA ICP MS) analysis. Presentation required.

GEOL 467-011 SENIOR SEMINAR

Capstone course offered around a "general geology topic of interest" selected by the instructor(s). Emphasizes presentation, writing skills, and review/understanding of published literature.

HEALTH AND EXERCISE SCIENCES**HESC 367-010 PUBLIC AND MEDIA RELATIONS IN SPORTS**

Analysis of the media and public relations process in the sport industry. Essential concepts, theories and skills will be presented and students will apply and synthesize them through semester projects.

Prereq: HESC 200, HESC 207

HESC 367-011 FINANCIAL ASPECTS OF SPORTS

An examination of the revenues and expenses of professional sport franchises, leagues and events; intercollegiate athletic departments and governance; the Olympic Movement; and those economic and societal variables that impact the finances of sport organizations. Prereq: HESC 200, HESC 207

HISTORY

HIST 367-010 LONDON AND PARIS IN THE MODERN AGE

The development of modern urban culture in Europe through the social and cultural life of London and Paris since 1750. The rapid growth of these cities and capitals of powerful imperial nations created opportunities and problems in equal measure. The aim is to build up a full picture of the evolution of cities in the modern world.

HIST 367-011 ENGLAND'S RISE TO GREATNESS, 1688-1789

Attempts to synthesize the social, economic, political, cultural and colonial developments during England's rise to world power from 1689-1789. Topics as diverse as the rise of the novel, the voyages of Captain Cook, origins of empire, growth of industry, Celtic fringe, novelty of popular politics, fascination with landscape, birth of class, and changing status of women will be covered.

HIST 367-012 AFRICAN AMERICAN WOMEN'S HISTORY

Examines the lives of black women in America from the colonial era through the twentieth century. This course has a number of goals, one of which is to provide a broad introduction to the interdisciplinary fields of African American and Women's Studies.

HIST 367-410 HISTORY OF WILMINGTON

Covers the history of Wilmington, Delaware, from the first European settlement in 1638 to the present. Looks at the changes in Wilmington's economy from its role as a center for grain production, through the years of industrialization, to its development as a corporate capital, and finally, the transition to a financial services center. Focus on the changing social and ethnic makeup of the city and the important role different peoples played in the city's history.

HIST 367-411 REVOLUTIONARY DELAWARE

A survey of Delaware history from 1760 to 1812. Focuses on the changes brought about in Delaware by the Revolutionary War and subsequent developments in the Early Republic. Discusses the strength of loyalism in Delaware, the Methodist revival, the decline of slavery, and the emergence of rural Federalism in downstate Delaware.

HIST 367-440 THE AMERICAN WEST

Surveys the history of the American west through the eyes of its diverse population as well as those who are drawn to study and define it. Focuses on issues and themes currently debated concerning the legacy, meaning and imagery of the American west as expressed through art, music and film.

HIST 411-010 SEM:FROM SPIRITUALS TO HIP-HOP: THE AFRICAN AMERICAN EXPERIENCE THROUGH MUSIC

Explores the African American experience through a wide range of musical genres such as nineteenth century spirituals, gospel, blues, jazz, rhythm and blues through 21st century hip-hop. In addition to exploring the historiography of the African American experience, we will focus our attention upon complex issues such as race, class, gender, labor, and the construction of culture.

HIST 411-011/411-080 SEM:WOMEN IN 20th CENTURY AMERICA

This seminar uses biography and autobiography to study the history of women in the 20th century. Each week's seminar will focus on discussing a biographical or autobiographical work, and through it the experiences of varied women in the last century.

HIST 411-012 SEM:PRESIDENTIAL CHARACTER

Examines the character development of several important American presidents and how those characters affected their presidencies. They will include Kennedy, Johnson, Nixon and Clinton. Students will participate in a lively discussion, a required project and will write a twenty-five page paper.

HIST 411-014/HIST611-014 SEM:TOURISM IN AMERICA: 1820-1940

Examines the origins, development, and changing nature of tourism in the U.S. from the early 19th century to the World War II era. Focus will be on economic, social, cultural, and material culture history through selected readings, classroom discussions, student presentations, and lectures.

HIST 471-010, 080 SEM:EUROPE IN THE TENTH CENTURY

Examines the political, social, economic, religious and intellectual development of Europe in the "century of iron". Particular attention will be given to the monastic achievements of the period and to relations between East and West. At least a 15 page research paper is required.

HIST 475-010 SEM:THE END OF THE FRENCH EMPIRE

Explores France's rapid loss of its huge colonial empire after the Second World War. Focusing on the struggles in Algeria, Vietnam, and West Africa, attention is given to the anti-colonial writings of people on the receiving end of French rule, and looks at how the empire has been remembered in contemporary France. (Not open to students who took HIST 268 in Fall 2000.)

HIST 667-010 TECHNOLOGY IN AMERICAN CULTURE

Explores the role of technology in American culture from contact to the present. Designed to introduce the use of American studies and cultural history approaches in the history of technology. Weekly readings will include historical monographs, novels, and a variety of other materials.

HIST 667-011 THE ATLANTIC WORLD, 1450-1750: CULTURE, SOCIETY, ECONOMY

Explores one of the most vibrant fields of early modern scholarship, including work on cultural negotiation and identity, imperial domination, migrations of people covering four continents (Africa, South America, North America and Europe).

HIST 867-010 RESEARCH & WRITING SEMINAR: COMPARATIVE HISTORY

Focuses on the United States in comparative perspective. Considers diverse approaches to comparative history. Students produce a paper based on original research, that will deal in comparative fashion with some aspect of the American past. "Comparative" will be defined broadly to encompass a variety of approaches designed to accentuate context.

LINGUISTICS

LING 367- 010 LANGUAGE AND THE LAW: COURT INTERPRETATION IN THE UNITED STATES

Examines public policy development as well as constitutional and statutory provisions for appointment of interpreters at both the federal and state levels; ethical considerations and linguistic challenges; and potential effects of the U.S. English Organization's efforts to make English the Official Language of the U.S. on court interpretation services.

LIBERAL STUDIES

MALS 617-010,430 BILLETHEADS TO BARBIE DOLLS: CREATING THE AMERICAN IMAGE

Examines how visual imagery in painting, sculpture, political cartoons, photography, film, TV, and advertising has played a significant role in the creation of American mythologies. Centers on such themes as the changing concepts of beauty, the land, gender identification, middle class domesticity, and racial stereotyping. Examines the influence of museums and more recently Disneyworld on our American culture.

MALS 667-430 THE VIETNAM WAR IN LITERATURE AND FILM

Focuses on the Vietnam Conflict as it has been represented in works of poetry, drama, prose fiction, and film. Students will read and view American, French and Vietnamese works in an effort to view the conflict from a broad and complex historical perspective.

MARINE STUDIES

MAST 629-010 TPCS:STATISTICS IN MARINE SCIENCES

Introductory graduate course in statistics, with emphasis on applications in the marine sciences. Topics include exploratory data analysis, graphical presentation, correlation, regression, ANOVA, analysis of frequencies, nonparametric statistics and resampling approaches, and use of statistical software.

MAST 667-010 COASTAL OCEAN PHYSICS TO FISH

Tides, waves, winds and freshwater discharges all impact biological systems through the movement and mixing of particles. This applied class surveys how physical processes affect patterns of productivity in the coastal ocean. Designed for first?year biological oceanography students.

MAST 667-011 DECISIONS TOOLS FOR POLICY ANALYSIS

Develops quantitative decision-making skills for science and technology policy analysis. Covers decision-making under uncertainty, axioms of decision analysis, decision trees, influence diagrams, sensitivity analysis, confidence intervals, value of information, and multi-attribute decision theory. Introduces life-cycle analysis, discounting and inflation, and benefit-cost decision frameworks.

MAST 827-010 ECOLOGY AND EVOLUTION OF CORAL REEFS

Introduction to our present understanding of coral reefs, including the physiology, ecology, and evolution of reef building corals and the communities that they form. Topics include the potential impact of human populations on reef systems and the status of the emerging fields of restoration and conservation biology of coral reefs.

MAST 827-011 TPCS:LARVAL ECOLOGY

Critical evaluations of recent literature in the field. Class meetings will consist of structured discussions. Each student will lead at least one discussion during tenure of the course.

MAST 867-010 BIOLOGICAL OCEANOGRAPHIC METHODS

Provides students a basic set of skills for carrying out laboratory and field experiments in biological oceanography. Lab sessions and field trips teach common methods for carrying out investigations into the ecology and physiology of marine bacteria, phytoplankton, zooplankton, fish, and benthic algae and invertebrates. Hands on training includes instruction in sample collections, field surveys, experimental design and widely used analytical methods. Students develop an independent biological oceanographic experiment.

MECHANICAL ENGINEERING**MEEG 467-010 VEHICLE DYNAMICS**

Theory of ground vehicles with an emphasis on racing. Topics covered include adhesion, suspension analysis and design, chassis design, aerodynamics and downforce generation, and powertrain analysis. Prereq: MEEG112, MEEG211, required. MEEG311, PHYS210 strongly recommended.

MEEG 467-667/011 DESIGN AND MANUFACTURE OF FLEXIBLE STRUCTURES

Focuses on the use of coated fabrics to create structures that are flexible; in particular, flexible devices that use gas pressure to obtain a structural shape. Provides a brief overview of textile materials, then emphasizes design and fabrication of these inflatable structures. Will emphasize an engineering approach while discussing the unique aspects of applying those concepts when using textiles as the basic structural material. Prereq: Engineering students should be familiar with solid mechanics as is covered in the MEEG112, 211, 215 sequence. Non-engineering students should have a strong background in Physics; i.e., PHYS207.

MEEG 467-012/667-012 CLINICAL BIOMECHANICS

Discusses the biomechanics and patho-mechanics of various human musculoskeletal joint systems. Presents normal joint anatomy and biomechanics. The mechanical effects of pathology and the goals of surgical repairs and replacements to counteract them will be explored by discussion of in vitro, in vivo and mathematical modeling studies of joint system mechanics.

MEEG 467/667-013 SOLAR-POWERED ENERGY-EFFICIENT HOMES

Treats residential homes as integrated systems and applies systems approach to the design and construction of low-cost energy-efficient homes. Discusses energy considerations in design, construction, and operation. Introduces quantitative life-cycle cost analysis using value engineering. Reviews technologies in solar-powered sustainable homes. Prereq: MEEG 112, MEEG 331, PHYS 310 or consent of instructor.

MEEG 867-010 NANOCRYSTALLINE AND NANOCOMPOSITE MATERIALS

Offers a general view of the rapidly changing field of nanocomposites and nanostructures. Covers developments in polymer, ceramic, and metal nanocomposite systems; the current applications of nanocomposites; the major processing routes; the novel mechanical and physical properties of these materials compared to conventional materials; and new models describing these properties.

MEEG 867-011 ADVANCED TOPICS: NONLINEAR DYNAMICS AND CHAOS

Nonlinear dynamics and chaotic phenomenon as applied to natural and engineering systems. Geometric and computational techniques, analytical methods for the qualitative analysis of dynamical systems modeled by differential equations and iterated maps. Planar and non-planar phase space analysis, local and global bifurcation analysis, catastrophes, resonances.

MEEG 867-012 ADVANCED TOPICS: ROBOTICS

Presents a comprehensive study of performance indices related to the robotic mechanical systems behavior with regard to force and motion transmission, modeling and design of parallel manipulators, flexible manipulators, calibration and optimization of robotic mechanical systems.

MATERIALS SCIENCE ENGINEERING**MSEG 467/667-011/ELEG 467/667-011 ENTREPRENEURSHIP AND RISK TAKING**

Students will be exposed to contemporary lectures from entrepreneurs and leading experts in fields such as intellectual property and venture capital.

MUSEUM STUDIES**MSST 467-010 CURATORIAL APPRENTICESHIP**

Special projects/research related to museum profession including object research, conservation treatment, or museum education. Topics arranged individually by students with instructor, culminating in a full-scale research paper, treatment proposal, or lesson plan. Requires concurrent attendance and participation in Curatorial Apprenticeship Program of the University Gallery.

MSST 667-014/UAPP 667-014 TRADITIONAL ARCHITECTURAL MATERIALS

Attends all home basketball games performing a variety of pop, rock and jazz selections. Performs at select games during Winter Session. Attendance at these games is mandatory.

MUSIC**MUSC 167-010 PEP BAND**

Attends all home basketball games performing a variety of pop, rock and jazz selections. Performs at select games during Winter Session. Attendance at these games is mandatory.

MUSC 167-011 MARCHING PERCUSSION TECHNIQUES

Focuses on advancing skills on the marching snare drum, multi-tenors, bass drum, cymbals or front ensemble. Emphasizes techniques through an opportunity to learn basic arranging skills. Open to students of all skill levels.

MUSC 167-012 MARCHING BAND TECHNIQUES

Focuses on designing and charting a show of the complete contemporary marching band. Lectures include: history and development of the marching band and "hands on" sessions in marching percussion and color guard. Prereq: must have completed at least one semester in UD Marching Band.

MUSIC EDUCATION**MUED 267-010 AESTHETIC EDUCATION**

Discovers the philosophical basis of the performing and visual arts in education and strategies for their integration into core curriculum subjects. Interaction with visiting teaching artists and participation in field trips to observe these artists in the context of the classroom. Experience multiple learning/teaching styles and a realization of new possibilities in communication.

PHILOSOPHY**PHIL 267-010 ALTERNATIVE LOGICS**

Surveys major systems of symbolic logic that compete with or extend the classical theory of PHIL 205. Briefly describes some or all of the following systems: intuitionistic logic; many-valued logic; second-order logic; and logics of time, necessity, knowledge, obligation, counterfactuals, and contradictions.

PHIL 367-010 JEWISH THEOLOGY

Critically evaluates the theological views of major branches of Judaism on such topics as: significance of Israel; status of Jewish law; mission of the Jewish people. Designed for Jewish Studies minors and Philosophy majors.

PHIL 367-010/080 MAJOR CHRISTIAN THINKERS

Reading and discussion of Augustine, Aquinas, Luther, and Tillich. Emphasis on how each one articulates basic religious beliefs, particularly in relation to dominant philosophical positions of his day. In depth look at a major thinker in each of the four main eras in the history of Christian thought: ancient, medieval, reformation, and modern. Topics include God, the God-world relation, reason vs. revelation, the human condition, salvation, and the overall meaning of history.

PHIL 465-010 FREEDOM AND RESPONSIBILITY

Addresses issues related to the perennial questions of the meaning, possibility, and nature of human freedom and moral responsibility. Looks at historical as well as contemporary sources. Conducted as a seminar with students assigned to lead the discussion, present papers, and comment on the papers of other students.

PHYSICS**PHYS 638-010 TPCS:PARTICLES AND THE UNIVERSE**

Discusses elementary particles and the fundamental forces through which they interact. Explains how standard big bang cosmology works, and what its strength and shortcomings are, and inflationary cosmology which provides a more unified approach to understanding the origin of large scale structure in the universe. Accessible to undergraduates with some background in modern physics and quantum mechanics.

PHYS 638-011 TPCS:STELLAR ATMOSPHERES AND WINDS

Focus is on radioactive transfer in stellar atmospheres, with emphasis on understanding the physical processes of radiation scattering and absorption from continuum and line opacity sources. Also focuses on understanding the dynamics of stellar mass outflows, including the coronal pressure expansion of the solar wind, as well as stellar winds from more luminous stars that are driven by radiation pressure interacting with either dust or line opacity.

PHYSICAL THERAPY**PHYT 667-010/PSYC 667-010 READINGS IN MOTOR LEARNING AND DEVELOPMENT**

Surveys classic and more recent literature addressing the learning and development of motor skills. Each class will require that students read assigned papers on the topic and prepare discussion questions for class.

PLANT SCIENCE**PLSC 367-010 ADVANCED PLANT MATERIALS**

Study of new and unusual plants in the nursery industry. Discusses plant introduction. Provides students with the tools necessary to stay current with future developments in new plants. Preq: PLSC211 or PLSC212 .

PLSC 467-010 NURSERY PRODUCTION

The planning, production, management and marketing of both container and field grown nursery stock. Student select crops, propagate them and are responsible for all aspect of production including cost accounting.

PLSC 667-010 TPCS:TOPICS IN FACILITIES MANAGEMENT

Presentation and discussion of the variety of philosophies, systems, processes and regulations important in maintaining a physical plant. Individual topic areas will be addressed by guest speakers and specialists in the topics.

PSYCHOLOGY**PSYC 467-010,081 IDEAS IN BIOPSYCHOLOGY**

Students read six books during the semester. Readings will consist of "classics" in psychology, biology, and philosophy. One student will be responsible for leading the discussion about that book. Reading list is flexible and will be chosen depending on the interests of the students.

PSYC 467-011 EMOTIONS AND PREVENTIVE INTERVENTION

Covers the development of emotions, emotion knowledge, and emotion regulation, their relations to adaptation and social behavior. Emotion-centered preventive intervention, including participation in an intervention program for children. Prereq: PSYC 350 AND PSYC 334 OR PSYC 380.

PSYC 467-013 PERCEPTION, MEMORY AND IMAGINATION

Explores underlying relationships among perception, memory and imagination. Discusses readings in perception, memory, imagery, object recognition and neuropsychology, and in-class demonstrations of perceptual illusions and distortions of memory.

PSYC 467-014 REDUCTION OF INTERGROUP CONFLICT

The reduction of intergroup conflict in business, educational and experimental laboratory settings, with special attention given to organizational mergers. Investigation of strategies for reducing intergroup conflict. In addition, students will be active in research about reducing intergroup conflict.

PSYC 467-015 RESEARCH METHODS

Reviews the major issues involved in the design of psychological experiments. Includes measurement of psychological variables, internal and external validity of experiments, research with single subjects, and research ethics. Discusses both laboratory and field research. This course is for students who plan to apply to graduate school in psychology.

PSYC 467-016 PSYCHOLOGY OF ADJUSTMENT

Seminar exploring scientific evidence supportive of a psychological model of human healthy adjustment. Evidence will be drawn from all areas of psychological science.

PSYC 467-080 HNRS:SOCIAL MOTIVATION

Analysis of theory and research in the social psychology of motivation. Includes active student participation in research projects. Prereq: PSYC 309, and PSYC 303 or 390, and permission of instructor.

PSYC 867-010 PERSONALITY IN SOCIAL PSYCHOLOGY

Systematically surveys theories of personality, methods of personality assessment, and linkages between personality and culture. Students read original journal articles and lead class discussion. Requires weekly short papers analyzing issues in the readings, as well as a major paper that will be written in the form of a grant proposal.

PSYC 867-011 PSYCHOPHARMACOLOGY

Survey of drugs used as medications for mental, emotional and neurological disorders. Discusses the neuropathology of the disorders and how the various drugs work. The level of instruction is aimed at the clinical psychology graduate student.

PSYC 867-012 FIRST YEAR SEMINAR

Introduces students to a number of issues central to their development as psychologists. First and foremost, graduate students and colloquium faculty together discuss conceptual and methodological issues of faculty research programs. In addition, students discuss issues such as ethics, manuscript preparation, grant proposal preparation, and transitions to faculty status.

PSYC 867-013 CURRENT TOPICS IN CLINICAL PSYCHOLOGY

Discussion of current topics in clinical psychology.

PSYC 867-014 CURRENT TOPICS IN SOCIAL PSYCHOLOGY

Discussion of current topics in social psychology.

PSYC 867-015 CURRNT TOPICS IN NEUROSCIENCE

Discussion of current topics in neuroscience.

PSYC 867-016 CURRENT TOPICS IN COGNITION

Discussion of current topics in cognitive psychology.

SOCIOLOGY**SOCI 267-010 RESEARCH ON ALCOHOL**

Scholars, administrators, and clinicians from off-campus and from the University of Delaware community present and discuss their research and experiences with issues of alcohol use and abuse. Special focus on the use of alcohol on college campuses and the impact of high risk drinking on the college and neighboring communities.

SOCI 367-010,080 SOCIAL INEQUALITY AND FILM

Read materials to develop an intersectional analysis of social inequality based on race, social class, gender, and sexuality and explore the role of films in creating images of ourselves, others, and social processes, like social mobility. View major motion pictures and documentary films to develop a critical perspective for viewing the media and its role in promoting ideas and knowledge.

SOCI 367-011 SOCIAL IMPACTS OF DISASTERS

Provides a sociological introduction to the impact of natural and technological disasters on society. Through case studies, approaches to disaster preparedness and mitigation will be presented to discover how societies attempt to lessen the occurrence or severity of disaster events.

SOCI 467-010 POST WORLD WAR II LATIN AMERICAN IMMIGRATION

Review of the history and social science of Mexican, Puerto Rican, Cuban, Dominican, and Central American immigration to the United States. Covers the different histories of these immigration flows and their change over time, the immigrants' various places of destination and experiences of incorporation into US society and culture, and the persistent problems of these minority communities.

SOCI 467-011 SOCIAL MOVEMENTS

Focuses on sociological approaches to explaining how social movements develop and how and why individuals join social movements. Provides a review of major theoretical perspectives. Gives students an opportunity to select specific contemporary social movements (e.g., the environmental movement, pro-choice and pro-life movements, and the women's movement) for in-depth study.

SOCI 467-012 CONTEMPORARY SOCIAL ISSUES

Examination of recent social scientific literature on contentious social issues, and relevance of research to shaping policy.

SOCI 667-010 GENDER, CRIME AND DEVIANCE

Designed to explore the theories and empirical research that relate to gender, deviance and social control, and crime. Also examines policy implications of these issues, paying particular attention to how multiple statuses (race, gender, social class, etc.) effect social and institutional responses.

URBAN AFFAIRS AND PUBLIC POLICY**UAPP667-010 BASICS OF INFORMATION MANAGEMENT**

Focuses broadly on information management. Includes basic design issues; the range of products to include personal/consumer databases through enterprise systems; differences in functionality; importance for web access, e-commerce and e-government. Addresses the roles of staff including the key role of database administrator. Covers issues of security and disaster recovery.

UAPP667-011 MEASURING AND DEFINING PLANNING PROBLEMS

Studies methods for identifying and measuring planning-related problems, including analyses of land use patterns, population dynamics, economic trends, social indicators, and ecological characteristics as predictors and determinants of future development.

UAPP 667-012 INTRODUCTION TO COMPREHENSIVE PLANNING

Description of the components and methods for preparing a comprehensive plan, and understanding the value of a comprehensive plan to the community.

UAPP 667-013 INTRODUCTION TO ZONING AND LAND USE CONTROLS

Survey of the theories underlying land use patterns and description of the legal structure and methods surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, and master plans.

UAPP 667-015 ANALYSIS AND INTERPRETATION OF HISTORIC LANDSCAPES

Explores the interpretation of historic vernacular and designed landscapes, with emphasis on application to historic preservation planning. Focuses on the examination of a series of historic American landscapes beginning with the eighteenth century and concluding with twentieth century suburban and industrial environments.

UAPP 667-016 ORGANIZING FOR SOCIAL JUSTICE: THEORIES & PRACTICES

Analysis and comparison of four contemporary types of organizing approaches used in the U.S. examining their ideologies, methods of application, theories of change, and expected outcomes relative to changing social and economic policies.

UAPP 667-017 GEOGRAPHIC INFORMATION SYSTEMS IN PUBLIC POLICY

Considers the applications, technology, best-practice solutions, and implementation issues associated with GIS. Focus on the "cutting edge" applications of GIS and web-based technologies in areas such as natural resource planning, land use management, health planning and redistricting after the 2000 Census. Provides hands on experience.

UAPP 667-018 CRIMINAL JUSTICE ADMINISTRATION

Aids those planning a career as an administrator in the criminal justice system. Topics typically include basic administrative policy and budgetary matters.

UAPP 667-019 VIRTUAL GOVERNMENT

Explores the evolving field of e-government and evaluates opportunities to enhance the delivery of government services. Reviews developments throughout the world and recommends strategies for implementation.

UAPP 667-020 FUND DEVELOPMENT FOR NONPROFIT ORGANIZATIONS

Second in a series of three, one credit courses that focus on corporate, foundation and government development activity in support of the nonprofit organization. Includes presentations by practitioners helping the students to understand the issues from the perspective of the funding sources, and from professional fundraisers on identifying potential donors through research.

UAPP 667-021 ORGANIZATIONAL CULTURE AS A COMPETITIVE ADVANTAGE

Explores an organization's ability to sustain and extend its growth through the development of a high performance culture. Focuses on low-cost and high-value strategies of organizational development which result in enhanced productivity and growth. Examines issues of team development and retention of human capital using current organizational methods of operations.

UAPP 667-022 INNER-CITY REVITALIZATION FIELD STUDY

Through a series of four field trips to Philadelphia, Wilmington, Baltimore and Washington, students will learn about actual inner-city revitalization programs and initiatives from individuals who are designing and managing them. Special attention will be paid to issues of housing, economic development, urban finance, public safety and historic preservation.

UAPP 688-010 GOVERNMENT LEADERSHIP & URBAN REVITALIZATION

Offers a critical analysis of a subset of theories, programs and philosophies associated with local governmental efforts to revitalize urban communities. Examines local initiatives related to housing, employment, citizen participation, crime, and social/welfare services.

UAPP 867-010 ELECTRICITY POLICY AND PLANNING

Focuses on technical and policy evolution of the electricity industry. Considers how technology innovations and policy/regulatory actions have guided the industry. Exposes students to supply and demand side resources, and emerging alternatives in utility technology, planning and policy.

UDPHONE REGISTRATION AND DROP/ADD

UDPHONE is an interactive voice response system enabling you to drop/add courses using the key pad on your touch-tone telephone.

Note: Only a touch-tone telephone or a telephone with rotary service that has a "tone/pulse" switch will work with UDPHONE.

On telephones with a "tone/pulse" switch select the "tone" option **after** the call is answered.

Before calling UDPHONE

- **You must know your nine-digit student identification number (SID) and also your four-digit UD personal identification number (PIN) to use UDPHONE.**
- Read the accompanying instructions and helpful hints carefully.
- Complete your UDPHONE drop/add worksheet.
- Have the following items ready by the telephone:
 - registration booklet
 - your completed UDPHONE work-sheet
 - a pencil to write down information as it is given to you.

Identifying Course numbers

Know the NUMERICAL (9-digit) course numbers of the course(s) of interest to you. Some listings, including the "Course Searches" on the web, start the course identifier with a 4-letter subject area abbreviation. These 4-letter abbreviations cannot be input to the phone, but must be translated to a 3-digit registration code (eg. ACCT-207-010 becomes 057-207-010). See the "Index of Subject Areas, Registration Codes, Offices and Phones" in this booklet for a complete listing by College and Subject area.

Helpful Hints

- Be sure you know your UD PIN before UDPHONE period begins, otherwise you will lose your first opportunity to access the system.
- A voice will guide you before each entry. Simply follow instructions.
- Be sure to press the pound key (#) after each entry.
- Listen carefully to the results of your requests, the messages will not be repeated. Be prepared to write down information as it is given to you.
- It is important to be prepared by completing the UDPHONE worksheet prior to calling. If there is an extended period on the line with no response from you, UDPHONE will end the call.
- At any time you may proceed by entering your next request before the voice message finishes speaking.
- If you make an error while entering a request, just press the star and pound keys (*#) to start over.
- You cannot register for a course through UDPHONE that requires permission of instructor. You will be instructed to contact the department office.
- If you attempt to add a course which exceeds your allowable maximum credit load, you must either drop another course or obtain permission from your dean to increase your maximum allowable credit hours.
- No titles of the courses will be spoken, therefore you will need to know the course numbers.
- Only pass/fail and audit grade type options will be confirmed and spoken back to you when a course is added to your schedule.
- Be patient, you may encounter a busy signal during peak times, keep trying.

- If you know your UD PIN but now want to change it, you can do this at a kiosk in the Student Services Building or by calling UD#1 CARD but not through UDPHONE.
- If you need assistance from the Registrar's Office call (302) 831-8722, during normal business hours, Monday through Friday, 8:00 a.m.-5:00 p.m.

How to Use UDPHONE for Late Registration and Drop/Add

Calling UDPHONE

Dial area code 302 (from outside of Delaware) and then the letters U-D-P-H-0-N-E (837-4663). From the dorms you just need to phone H-O-M-E (4663).

Accessing UDPHONE Drop/Add

You will be prompted to select the registration function by pressing 'R' followed by the pound key (#). You will then need to listen to the menu to select the term.

Identifying Yourself

To identify yourself to UDPHONE you need to know and use both your student identification number and your UD PIN.

• Student Identification Number (SID)

You will be asked to enter your nine-digit student identification number (SID) followed by the pound key(#). In most cases, this will be the same as your social security number.

Example: If your SID is 123-45-6789 you will enter 123456789#.

• UD Personal Identification Number (UD PIN)

After you enter your SID, you will be asked to enter your UD personal identification number (UD PIN) followed by the pound key(#).

Example: If your UD PIN is 1234, enter 1234#.

Most students have carefully chosen a four-digit UD PIN. If you did not choose one you were assigned a randomly generated UD PIN that has been mailed to you. It is important that you REMEMBER YOUR UD PIN.

UD PIN assistance may no longer be available over the phone. You must go in-person with your ID card to the Student Services Building to have PIN reset. Continuing Education students should call (302) 831-2741 for additional instructions.

Changing Your Schedule on UDPHONE

To Add a Course (2 * COURSE NUMBER #)

Enter 2, the star key(*), the nine-digit course number which includes the numeric subject area code found to the left of the course listing in the registration booklet, the three-digit course number and the three-digit section number followed the pound key(#).

Example: To add ENGL 205 section 01:
enter 2*016 205 013 #.

If the course can be added to your schedule you will be prompted to choose a grade type, either standard grading, pass/fail or audit. You will press the pound key for standard grading, press 1 and the pound key for pass/fail and press 2 and the pound key for audit.

If a section is not available, UDPHONE will search for an open section. If another section is offered at the same time, it will suggest this section, if not, it will suggest another section that is available and fits your schedule. You may choose this section or select another section/course by reentering 2, the star key(*), the course number followed by the pound key(#).

To Drop a Course (3 * COURSE NUMBER #)

Enter 3, the star key(*), the nine-digit course number followed by the pound key (#).

Example: To drop MATH 114 section 010:
Enter 3*026 114 010 #.

When this function is used after the end of free drop/add period it will withdraw you from the course, posting a 'W' to your record. There will be no tuition refund in that case.

To Drop Only If You Can Add

(6 * COURSE NUMBER * COURSE NUMBER #)

This enables you to drop a course only if another specific course you want to add is available.

Enter 6, the star key(*), the nine-digit course number of the course you wish to drop, the star key(*) again, the nine digit course number of the course you wish to add, followed by the pound key(#).

Example: To drop ENGL 210 section 010 only if ENGL 205 section 011 is available:
enter 6*016210010*016205011#.

In the example, if ENGL 205 is available, ENGL 210 will be dropped from your schedule and ENGL 205 will be added, if ENGL 205 is not available then ENGL 210 will remain on your schedule.

This function should also be used when doing a section change.

Keep in mind when using this conditional drop/add function that if the course you requested is not available UDPHONE will NOT search for an open section.

To Change the Grade Type of Course

(1 * COURSE NUMBER #)

This enables you to change the grade type of a course in which you are already enrolled. After you enter the above information you will then be prompted to choose the grade type for the course. You would press the pound key (#) for standard grading, press 1 and the pound key (#) for pass/fail and press 2 and the pound key (#) for audit.

Example: You are enrolled in HIST 205 section 010 and you wish to change the grade type to pass/fail:
press 1*023205010#. You will then be asked to choose the grade type. You would press 1 and the pound key (#) for pass/fail.

This function can also be used after the end of the free drop/add period, up until the Academic Penalty deadline.

To Change Credit Hours of a Course

(1 * COURSE NUMBER #)

This enables you to change the credit hours of a variable credit course in which you are enrolled. After entering the above information, you will then be prompted to choose the number of credit hours you desire. You will also then be prompted to choose the grade type of the course. Even if you do not wish to make a change in the grade type, you need to enter this information.

Listening to your schedule (5#)

Press 5 followed by the pound key (#) to listen to your current schedule. You may listen to your schedule at anytime during the call.

To Listen to Your Current Schedule with Times (8 #)

Press 8 followed by the pound key (#) to listen to your current schedule with times. You may listen to your schedule with times at anytime during the call.

Be sure to listen to your current schedule prior to ending the call.

Remember: You are responsible for the completeness and accuracy of your own registration.

Ending the call (9#)

Press 9 followed by the pound key (#). Listen to the final message before hanging up.

UDPHONE DROP/ADD WORKSHEET

1. Using a touch-tone telephone, dial:

3	0	2	U	D	P	H	O	N	E
8	3	7	-	4	6	6	3		

 from dorms, phone

H	O	M	E
4	6	6	3

2. Select the registration function:

R	#
7	#

3. Select the term (listen to the menu)

Do not write your SID or UD PIN on this sheet to preserve the confidentiality of your records.

4. Enter your student identification number (SID):

				-							#
--	--	--	--	---	--	--	--	--	--	--	---

5. Enter your UD PIN:

				#
--	--	--	--	---

6. Enter your course requests.

If you make an entry error, just press the

*

#

 keys to begin again.

Note: You must know the NUMERICAL (9-digit) Course numbers of the course(s) of interest to you. Some listings, including the "Course Searches" on the web, start the course identifier with a 4-letter subject area abbreviation. These 4-letter abbreviations cannot be input to the phone, but must be translated to a 3-digit registration code (eg. ACCT-207-010 becomes 057-207-010). See the "Index of Subject Areas, Registration Codes, Offices and Phones" in this booklet for a complete listing by College and Subject area.
